Commercial employment agencies and other "for-profit" placement service firms may not have access to Jacksonville State University placement files or other academic files without the expressed written consent of the Placement Office Registrant.

Neither will the University be obligated to provide facilities in which to conduct on-campus interviews for the benefit of commercial placement services.

Students will be permitted access to commercial placement agency advertisements, promotional materials and job listings provided to the Placement Office with the understanding that the University does not actively generate referrals or, in any way recommend or endorse the company or its services.
