The School of Health Professions and Wellness was created in 2016 with the intent to house disciplines focused on health and wellness. Currently, departments include: Kinesiology, Nursing, and Respiratory Therapy and offer undergraduate and graduate degrees.

DEPARTMENT OF KINESIOLOGY

204 MATHEWS COLISEUM

Department Head: TBA
Professor: Overton, Thornburg
Associate Professor: Hill, Andrews
Assistant Professor: Anderson, Koozehchian, Mabrey, Newton
Instructor: Crosson, Galloway, Gilbert, Rains

The Department of Kinesiology offers three degrees: a Bachelor of Science in Education degree in Physical Education, a Bachelor of Science degree in Exercise Science and Wellness, and a Bachelor of Science degree in Sport Management and Recreation Studies.

Two non-teaching Bachelor of Science degrees are offered with a major Exercise Science and Wellness or Sport Management and Recreation Studies. Students majoring in Exercise Science and Wellness must choose a concentration in either Clinical or Human Performance. Students majoring in Sport Management and Recreation Studies must choose a concentration in either Sport Management or Recreational Leadership.

The Department of Kinesiology offers five (5) minors: Coaching, Community Health, Exercise Science, Recreational Leadership, and Sport Management.

A Minor in Coaching is available for students majoring in non-teaching degree fields. The requirements include 18 hours of coursework: eight hours of core courses (HPE 232, 391, and 405), seven hours of sports pedagogy seminars (HPE 320-331), and a practicum in coaching (HPE 394).

A Minor in Community Health is available for students majoring in non-teaching degree fields. A minimum of 18 hours is required, which must include HPE 212, 312, 315, 318, 360, and 420.

A Minor in Exercise Science is available for students who are pursuing a non-teaching degree. The requirements for a minor in Exercise Science and Wellness are a minimum of 22 hours, to include the following required courses consisting of 13 semester hours: HPE 109, 165, 362, 400, and 415. The students must choose nine hours of electives from the following courses: HPE 272, 405, 406, or 440.

A Minor in Recreational Leadership is available for students majoring in non-teaching degree fields. A minimum of 20 hours, which must include SMR 221, 271, 310, and 486; six hours selected from SMR 275, 301, 302, 312, or 420; and three hours selected from HPE 111, 113, 114, 140, 141, 158, or 164.

A Minor in Sport Management comprises of 18 hours of which a student must select from: SMR 335, SMR 340, SMR 355, SMR 450, SMR 476, SMR 331, SMR 425, SMR 466, and SMR 486. A minor in sport management is available for students majoring in non-teaching degree fields and may not be taken in conjunction with a major in Recreational Leadership.

BACHELOR OF SCIENCE

MAJOR: EXERCISE SCIENCE AND WELLNESS

Concentration: Clinical

Students majoring in Exercise Science and Wellness – Clinical concentration may attain this degree by completing the 41 hour general studies curriculum; the 45 hour core curriculum (HPE 109, 165, 209, 232, 272, 350, 362, 375, 400, 405, 415, 440, 441, 450 and 465); 16 hours of required pre-professional courses (BY 263, BY 264, CY 105/107, and CY 106/108); 16 hours to complete a biology minor (BY 322, BY 323, BY 373, and four additional hours of advisor approved biology courses); 14 hours of additional requirements (PHS 201/203, PHS 202/204, MS 204 or SY 304, and NU 130); STU 101; and obtaining an advisor approved national certification from the American College of Sports Medicine or National Strength and Conditioning Association. Students will be classified as “ESW_CLN_Undecided” majors prior to assessment into the ESW program.

At the completion of the sophomore year, students may seek assessment into the ESW upper level courses upon email invitation from the Kinesiology Office.

Program applications are reviewed and candidates are assessed once per year. All the following criteria must be met:
1. The candidate must have earned a minimum of 60 semester hours of college credit.
2. The candidate must have earned an overall grade point average of 3.25 based upon a 4.00 scale to include all pre-professional courses with a “C” or better. After assessment to the ESW upper level courses (Clinical concentration), the student is required to maintain a minimum 3.25 grade point average. In accordance with the Department of Kinesiology Grades Dismissal Policy, a student may repeat a professional course only once and may not accumulate more than three (3) grades of “D” or “F” in “professional studies” courses. In accordance
with the Department of Kinesiology GPA Dismissal Policy, failure to maintain the appropriate GPA will result in
dismissal from the ESW program. Reinstatement to the ESW program is at the discretion of the ESW committee.
3. The candidate must have submitted three (3) written recommendations from professors in the general studies
area.
4. The candidate must satisfactorily complete an interview to provide information of the student’s personality,
interests, and aptitudes consistent with the requirements for a successful ESW career.

*See General Studies Curriculum  
**MS 204, PSY 340, or SY 304
Students majoring in Exercise Science and Wellness – Human Performance concentration may attain this degree by completing the 41 hour general studies curriculum; the 44 hour core curriculum (HPE 232, 272, 301, 350, 362, 375, 400, 405, 406, 415, 440, 441, 450 and 465); 13 hours of required pre-professional courses (HPE 109, 165, and 209, FCS 215 or 322, and MS 204 or SY 304); a minimum of 22 hours from a chosen minor and general electives; and obtaining an advisor approved national certification from the American College of Sports Medicine or National Strength and Conditioning Association. Students will be classified as “ESW_HPN_Undecided” majors prior to assessment for upper level ESW courses.

At the beginning of the sophomore year, students may seek assessment into the ESW upper level courses by filing an application for the ESW - Human Performance track in the Kinesiology Office. The application is available in the departmental office.

Program applications are reviewed and candidates are assessed once per year. All the following criteria must be met:

1. The candidate must have earned a minimum of 60 semester hours of college credit.
2. The candidate must have earned an overall grade point average of 2.50 based upon a 4.00 scale to include all pre-professional courses with a “C” or better. After assessment to the upper level ESW courses (Human Performance concentration), the student is required to maintain a minimum 2.50 grade point average. In accordance with the Department of Kinesiology Grades Dismissal Policy, a student may repeat a professional course only once and may not accumulate more than three (3) grades of “D” or “F” in “professional studies” courses. In accordance with the Department of Kinesiology GPA Dismissal Policy, failure to maintain the appropriate GPA will result in dismissal from the ESW program. Reinstatement to the ESW program is at the discretion of the ESW committee.
3. The candidate must have submitted three (3) written recommendations from professors in the general studies area.
4. The candidate must satisfactorily complete an interview to provide information of the student’s personality, interests, and aptitudes consistent with the requirements for a successful ESW career.

### BACHELOR OF SCIENCE IN EDUCATION

**Teaching Field: Physical Education (P-12)**

Students who meet the requirements for education degree programs will be eligible to apply for a baccalaureate level Professional Certificate and will be qualified to teach Physical Education in grades P through 12. Of the 120 hours required to attain the Bachelor of Science in Education degree, the Physical Education major must successfully complete a minimum of 50 hours of teaching field and departmental courses, including HPE 109, 145, 146, 232, 303, 305, 355, 356, 357, 362, 381, 394, 400, 405, 415, 460, one hour of fitness activity, one hour of dance activity, one hour of aquatics activity, and SMR 271. Professional studies courses (29 hours) are also required, which include: ED 302, SPE 300, 409, 410, 411, 462, and internship consisting of HPE 482, ED 495 and ED 496. The following courses must be taken prior to teacher education eligibility: HPE 303, 355, 356, 357, ED 302, and SPE 300. While Physical Education is housed in the School of Health Professions and Wellness within the Department of Kinesiology, students must adhere to all rules and policies set forth by the Teacher Education Services to comply with Alabama State Department of Education requirements. Physical Education (teacher education) degree requirements may be altered to meet changes in federal and Alabama State Department of Education regulations.

**TOTAL HOURS: 120**
104. **Aerobics and Fitness (3)**. The course is designed to provide students with various aerobically based activities for overall fitness and health of the body.

108. **Pound (2)**. A basic introduction to drumming skills used for improving cardiovascular fitness.

109. **Concepts of Wellness (3)**. Study of basic concepts of wellness, including nutrition, cancer prevention, addictions, and STDs, and physical fitness, including principles of exercise, stress management, weight control, and the management of emergencies, accidents, and injuries.

110. **Barre Pilates (2)**. The purpose of this course is to introduce student to the best of ballet, fitness, strength, and pilates.

111. **Beginning Hiking (1)**. Basic skills in hiking, including planning, clothing, map reading, safety, types of hikes and hiking trips (TBA).

113. **Mountain Biking (1)**. Basic skills in off-road cycling.

114. **Bicycling (1)**. An introductory course in the lifetime activity of cycling. A 10-hour lab is required. The safety, repair, riding, and value are covered.

115. **Beginning Fitness (1)**. Introduction to basic physical fitness activities.

116. **Body Shaping (3)**. An introduction to the basic principles of fitness as they relate to fatty weight loss and muscular development.

117. **Introduction to Yoga (1)**. An introduction course in the ancient system of mind-body exercise that offers benefits, including increased flexibility, greater strength, and improved concentration.

118. **Beginning Bowling (1)**. Basic skills in bowling. Elective credit only; cannot be used to satisfy HPER requirements.

119. **Beginning Fencing (1)**. Basic skills in foil fencing. Elective credit only; cannot be used to satisfy HPER requirements.

120. **Introduction to Pilates (2)**. The purpose of this course is to provide an introduction to Pilates consisting of safety considerations, breathing techniques, and exercises for upper and lower body strength and endurance, core strength and endurance, and flexibility.

121. **Beginning Weight Training (2)**. Basic skills in weight training.

122. **Beginning Tennis (1)**. Basic skills in tennis.

123. **Beginning Racquetball (1)**. Basic skills in racquetball.

124. **Beginning Golf (1)**. Basic skills in golf.

125. **Beginning Archery (1)**. Basic skills in archery. Elective credit only; cannot be used to satisfy HPER requirements.

126. **Beginning Volleyball (1)**. Basic skills in volleyball. Elective credit only; cannot be used to satisfy HPER requirements.

127. **Net Games (1)**. Basic skills in badminton, pickle ball, and deck tennis.

128. **Table Games (1)**. Basic skills in table tennis and billiards. Elective credit only; cannot be used to satisfy HPER requirements.

130. **Tap/Clogging Dance (1)**. Basic skills in tap and clogging dancing.

132. **Folk/Square Dance (1)**. Basic skills in folk and square dancing.

134. **Social/Ballroom Dance (1)**. Basic skills in social and ballroom dancing.

136. **Ballroom, Fox Trot (1)**. Introduction to Foxtrot, Slow Waltz, Viennese Waltz, and American Tango dances.

137. **Ballroom, Latin (1)**. Introduction to Latin dance steps, such as merengue and salsa.

138. **Swing (1)**. Instruction in “swing” dance steps, such as swing, jitterbug, rock and roll.

139. **Line Dancing (1)**. Performing dance movements in unison to music and consists of patterned foot measurements that are performed to a number of counts in sequence. Several popular tunes will be used. Also, two-step will be introduced.

140. **Alpine Skiing (1)**. An introductory course where students will learn the basic skills of skiing or snowboarding. Proper dressing, ski slope safety, equipment, physical fitness, and proper techniques for skiing or snowboarding will be addressed. Three days of on-snow instruction and practice is required. Students pay all expenses.

141. **Alpine Skiing II (1)**. **Prerequisite: PE 140 or permission of instructor.** Advanced skills in alpine skiing or snowboarding. Proper dressing, ski slope safety, equipment, physical fitness, and proper techniques for skiing or snowboarding will be reviewed. Three days of on-snow instruction and practice is required. Students pay all expenses.

142. **Zumba (2)**. The purpose of this course is to provide an introduction to Zumba consisting of safety considerations, techniques, and Zumba exercises for health-related fitness.
143. Beach Volleyball (1). Basic instruction in beach volleyball. Elective credit only; cannot be used to satisfy HPER requirements.

145. Team Sports Skills (2). The purpose of this course is to provide experiences that will lead to the development of team sports skills. In addition to skills acquisition, the course will focus on the development of the knowledge and positive dispositions associated with team sports activities. Students will be expected to achieve an intermediate level of skill in specified team sports.

146. Individual and Dual Sports Skills (2). The purpose of this course is to provide experiences that will lead to the development of individual and dual sports skills. In addition to skills acquisition, the course will focus on the development of the knowledge and positive dispositions associated with individual and dual sports activities. Students will be expected to achieve an intermediate level of skill in specified individual and dual sports. Practice outside of class time may be required for students to achieve the expected performance level.

147. Functional Fitness I (2). Basic core strength and conditioning associated with the development and maintenance of general physical fitness. Activities may include, but are not limited to, strength training and endurance exercises.

148. Functional Fitness II (2). Advanced core strength and conditioning associated with the development and maintenance of general physical fitness. Activities may include, but are not limited to, strength training and endurance exercises.

151. Aqua Aerobics (3). Low impact exercises performed in the medium of water.

152. Angling (1). Basic fundamentals of fishing.

153. Lifeguarding (2). Elementary and advanced forms of rescue, including approaches, escapes, carries, removal from water, and preventive life guarding. ARC lifeguard certification awarded if CPR and first aid requirements have previously been met (see instructor for specific details). Student pays all expenses.

154. Lifeguard Instructor (2). Prerequisites: Instructor certification in CPR and first aid (ARC) and current lifeguard certification. Preparation to become a certification instructor in lifeguarding. Student pays all expenses.

155. Community Water Safety (1). The course covers emergency procedures, spinal injuries, and other aquatic activities. Student pays all expenses.

158. Rock Climbing and Rappelling (2). An introductory course where students will engage in rock climbing and rappelling in artificial and/or natural rock setting. Proper techniques for climbing and rappelling with be address. Equipment, knot tying, climbing preparation, basic top rope anchor setting will be addressed. Field trips are required. Student pays all expenses.

161. Martial Arts (2). Basic skills in aikido, including etiquette, warm-up activities, falls, throws, principles of movement and self-defense.

162. Beginning Tai Chi (1). A study of the 24 basic forms of Tai Chi, a martial art. Elective credit only; cannot be used to satisfy HPER requirements.

164. Rock Climbing and Rappelling (2). An introductory course where students will engage in rock climbing and rappelling in artificial and/or natural rock setting. Proper techniques for climbing and rappelling with be address. Equipment, knot tying, climbing preparation, basic top rope anchor setting will be addressed. Field trips are required. Student pays all expenses.

170. Basic Skills in Jazz Dance (1). Basic skills in Jazz Dance. Elective credit only; cannot be used to satisfy HPER requirements.

189. Academic Success for Student-Athletes (1). For freshman student-athletes to enhance successful transition from high school to college life. Orientation to the JSU athletics program and NCAA rules and regulations are included. Special emphasis is placed on academic excellence, athletic excellence, personal and career development and a commitment of service to the campus and community.

191. Varsity Sports (1). Successful participation in major varsity sports (male and female). May be duplicated for credit to a maximum of eight semesters.

HEALTH AND PHYSICAL EDUCATION (HPE)

PROFESSIONAL COURSES

165. Introduction ESW (1). An introduction to careers and opportunities in the field of exercise science and wellness. Students majoring in ESW are required to complete this course prior to their junior year. Practicum required.

209. Essentials of Human Performance (3). Prerequisite: HPE 109. An introduction to the scientific principles of the human body/organ systems as related to human performance. This course is recommended prior to BY 263 for ESW majors.
212. Personal and Community Health (3). The development of habits, attitudes, and knowledge concerning health, and the professional preparation of individuals’ introduction to careers and opportunities in the field of exercise science and wellness.

222. Sports Safety and First Aid Training (2). This course is designed for in-depth study of emergency medical treatment in case of accidents or serious illness. The study of body functions, body framework and all types of injuries are considered. Student pays all expenses.

227. Basic Athletic Training (3). Prerequisite or Corequisite: HPE 209 or BY 263. Introduction to the athletic training profession. Prevention, etiology, and management of athletic injuries will be stressed. Basic anatomy and first aid will be reviewed.

225. Advanced Athletic Training (3). Prerequisite: HPE 272 or permission of instructor. Advanced athletic training fundamentals, including prevention, evaluation, care and etiology of athletic injuries. Legal, professional, and ethical considerations will be discussed. Student pays all expenses.

224. Beginning Practicum in Athletic Training (1). Prerequisite: Consent of instructor. An introduction to the basic principles of athletic training in the college environment. May be repeated a total of four times for credit.

225. Beginning Practicum in Strength and Conditioning (1). Prerequisite: Consent of instructor. An introduction to the basic principles of strength and conditioning in the college environment. May be repeated a total of four times for credit.

226. Beginning Practicum in Personal Training (1). Prerequisite: Consent of instructor. An introduction to the basic principles of personal training in the university wellness setting. May be repeated a total of four times for credit.

230. Practicum in Physical Education (3). Prerequisite: Nine hours in physical education, including HPE 303. Directed experience in observations and participation in physical education classes. Seminars will be held in conjunction with this course.

231. Industry Management (3). Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts, principles, and best practices associated with managing a business within the industry of their major. This course was developed with the intent of providing students with a general overview of the management issues facing fitness professionals in their careers.

232. Foundations of Health and Physical Education (3). An introduction to the profession, including physical activities, health and wellness concepts, professional organizations, career opportunities, historical development, and development of a sound professional philosophy. Practicum required. HPE 303 is a prerequisite to HPE 355, 356, and 357. Successful completion of HPE 303 is required prior to teacher education eligibility.

240. Measurement and Assessment in HPE (3). Prerequisite: MS 110 or higher. Techniques of test evaluation, administration, and interpretations. Emphasis on physical fitness, body mechanics, sports skills, and knowledge tests.

241. Health Problems and Disease Prevention (3). An overview of health problems confronting students in today’s society. An analysis of a variety of personal, social and environmental factors is included.

251. Community and Consumer Health (3). This course explores a historical and philosophical study of the growth and development of science, health education, and health promotion.

252. Health for Special Populations (3). This course examines primary, secondary, and tertiary levels of prevention, and applies them to health promotion/disease prevention at various developmental stages.

258. Seminar in Coaching Golf (1). Strategies and techniques for coaching golf.

262. Seminar in Coaching Tennis (1). Strategies and techniques for coaching tennis.

263. Seminar in Coaching Track and Field (1). Strategies and techniques for coaching track and field.

265. Introduction to Personal Training (3). Prerequisite: Junior standing. The purpose of this course is to prepare the student to take a valid personal trainer certification exam. At the completion of the course, the student will have a basic understanding of the design and delivery of exercise programs for clients with varying levels of health with different needs and goals.

265. Introductory Methods of Elementary HPE (3). Prerequisites: HPE 145, 146, 303 and SMR 271. Corequisites: To be taken concurrently with HPE 356 and 357. A course designed to build foundation knowledge necessary for successful
planning, implementing and evaluating various teaching methods and strategies necessary for quality elementary physical education. A practicum is required. HPE 355, 356, and 357 must be successfully completed prior to teacher education eligibility.

356. Introductory Methods of Secondary HPE (3). Prerequisites: HPE 145, 146, 303, and SMR 271. Corequisites: To be taken concurrently with HPE 355 and 357. A course designed to build foundation knowledge necessary for successful planning, implementing and evaluating various teaching methods and strategies necessary for quality secondary health and physical education. A practicum is required. HPE 355, 356, and 357 must be successfully completed prior to teacher education eligibility.

357. 21st Century Learning in HPE (3). Prerequisites: HPE 145, 146, 303, and SMR 271. Corequisites: To be taken concurrently with HPE 355 and 356. A course designed to develop foundational knowledge of a 21st century learner in a health and physical education program. Integration of relevant technologies and application of sound planning and instructional practices will be emphasized. A practicum is required. HPE 355, 356, and 357 must be successfully completed prior to teacher education eligibility.

360. Child and Adolescent Health and Wellness (3). This course deals with child and adolescent health and wellness. Specifically, it deals with assisting children adolescents develop positive health habits.

362. Kinesiology (3). Prerequisite: BY 263 or HPE 209. A science of human motion and analysis of body movements and action of muscles in human activities.

372. Assessment of Athletic Injuries (3). Prerequisite: HPE 272 or permission of instructor. Evaluation of injuries which occur in athletics. Special attention will be given to the orthopedic assessment of joint injuries.

375. Therapeutic Exercise and Modalities (3). Prerequisite: HPE 209, 272, and BY 263 or permission of instructor. Theory and use of therapeutic modalities and rehabilitative exercise. Students will have the opportunity to learn through special experience.

381. Adapted Physical Education (3). An introductory course in the field of adapted physical education that provides an understanding of the nature, behavioral characteristics and motor limitations of various disabilities and basic skills necessary to prepare meaningful individualized movement experiences of individuals with special needs functioning in an integrated, segregated, community or home environment. A student practicum will be required.

385. Practicum in Special PE and Recreation (3). Directed practical experiences in physical education and recreation with exceptional individuals. A student practicum will be required.

386. Biomechanics (3). Prerequisite: HPE 362. This course is a study of human movement with emphasis on biomechanical principles and their application to sport and exercise.
416. Methods of Teaching Health Education (3). Prerequisites: HPE 355, 356 and 357. Teacher Education program eligibility. Corequisite: To be taken concurrently with HPE 409, 410, 411, 417 and 462. Effective teaching practices and implementation of developmentally appropriate health education instruction are taught in this course.

417. Practicum in Health Education (2). Prerequisites: HPE 355, 356, and 357. Teacher Education program eligibility. Corequisite: To be taken concurrently with HPE 409, 410, 411, 416 and 462. This is a field experience course specific to the application of methods and materials for health education.

420. Health Aspects of Aging (3). The physical, social, emotional, and mental aspects of healthy aging will be explored.

421. Intramural Sports I (3). Organization and administration of intramural programs. Emphasis is on officiating the fall sports of football and volleyball. Laboratory arranged.

422. Intramural Sports II (3). Organization and administration of intramural programs. Emphasis is on officiating the winter and spring sports of basketball and softball. Laboratory arranged.

440. Fitness Testing (3). Prerequisites: HPE 362, 400, and assessment into the Exercise Science and Wellness program. Detailed analysis of different fitness tests. Particular attention to cardiovascular tests, interpretation of results and prescription of exercise and activities.

441. Design of Wellness Programs (3). Prerequisites: HPE 362, 400, 440, senior standing, and assessment into the Exercise Science and Wellness program. Study of the different areas in wellness programming, such as smoking cessation, nutrition, stress awareness, and various fitness programs. This class includes directed practical activities as well as a comprehensive semester project.

445. ESW Research Seminar (3) Prerequisites: MS 204 or SY 304, HPE 400, and assessment into the Exercise Science and Wellness program. This class is designed to expose undergraduate students to research in the field of exercise science and wellness. Particular attention will be paid to developing a research idea, applying to the institutional review board for ethics approval, data collection, data analysis, and manuscript preparation.

460. Motor Development (3). Theoretical and practical principles of motor development, with special emphasis on identification and assessment. A student practicum will be required.

462. Effective Teaching in HPE (3). Prerequisites: HPE 355, 356, and 357. Teacher Education program eligibility. Corequisite: To be taken concurrently with HPE 409, 410, and 411. Methods and techniques of teaching 6-12 physical education instruction are taught.

465. Practicum in Exercise Science and Wellness (6). Prerequisites: HPE 441, senior standing, assessment into the Exercise Science and Wellness program, and successful completion of an advisor approved national certification from the American College of Sports Medicine (ACSM) or the National Strength and Conditioning Association (NSCA). Practicum experiences in rehabilitative and/or preventative medicine with respect to ESW programming.

482. Seminar in HPE (3). Corequisites: To be taken concurrently with ED 495 and 496. This course contributes to the preparation and meaningfulness of the student internship.

484. Advanced Practicum in Athletic Training (1). Prerequisite: Consent of instructor. An introduction to the advanced principles of athletic training in the college environment. May be repeated a total of four times for credit.

485. Advanced Practicum in Strength and Conditioning (1). Prerequisite: Consent of instructor. An introduction to the advanced principles of strength and conditioning in the college environment. May be repeated a total of four times for credit.

486. Advanced Practicum in Personal Training (1). Prerequisite: Consent of instructor. An introduction to the advanced principles of personal training in the university wellness setting. May be repeated a total of four times for credit.

SPORT MANAGEMENT AND RECREATION STUDIES (SMR)

COURSE DESCRIPTIONS

221. Foundations in Sport Management and Recreation (3). The basic concepts of sport management and recreation fields. Theories, concepts, philosophies, and common industry practices in sport management and recreation.

231. History of Sport (3). This course will provide students with an understanding of the historical context on the development of sport. Students will learn how sport has shaped society, and how society has shaped sport over the course of time.

271. Recreational Games and Group Development Activities (2). An introduction to games for all populations, including recreational, educational, developmental, and therapeutic settings. Emphasis is on cooperative games and group development activities.

275. Outdoor Pursuits Expedition Field Seminar (3). Focused outdoor experience in outdoor pursuits, such as backpacking, canoe/kayak, and Wilderness First Aid leading to certification. Student pays all expenses.

301. Youth Sports Program (3). Methods and principles of organizing and administering youth sports programs. Activities include direct practical experiences.

302. Field Experience in Recreation and Youth Leadership (3). A minimum of 100 clock hours required. This course will provide practical field experiences in one of the following areas of concentration: community recreation and youth sports, camping and outdoor education, and youth development.
310. **Camping and Outdoor Education (3).** The out-of-doors and its potential for enhancing the recreation program. Special emphasis is placed on activities in the out-of-doors. A review of the developments in out-of-doors education. Student pays all expenses.

311. **Recreation for the Aged (3).** The course provides the student with knowledge of recreational activities suitable for the older adult. The class includes directed practical activities.

312. **Organization and Administration of Camp Programs (3).** Methods of organization and administration of camp programs, including knowledge of standards, utilization of facilities, and personnel roles.

321. **Sports Officiating I (3).** Basic principles, concepts, mechanics, and rules applications for officiating football and/or volleyball athletic contests according to the policies of the National Federation of High School Associations.

322. **Sports Officiating II (3).** Basic principles, concepts, mechanics, and rules applications for officiating basketball, and/or baseball/softball athletic contests according to the policies of the National Federation of High School Associations.

331. **Topics in International Sport Management and Recreation (3).** The purpose of this course is to introduce students to the fundamental concepts associated with effective and successful international management strategies within the sport management and recreational leadership field.

335. **Human Resource Management (3).** Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts, principles, and application associated with managing employees in relation to the sport management and recreational leadership field.

340. **Legal and Ethical Aspects of Sport Management and Recreation (3).** Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts, principles, and application associated with the legal system in relation to sport management and recreation. This course was developed with the purpose of providing students with a general overview of legal issues that professionals in the sport management and recreational leadership field encounter.

355. **Principles of Finance in Sport Management and Recreation (3).** Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts, principles, and application associated with finance in recreation and sport management. It is a general sport finance course covering a broad variety of topics ranging from basic financial concepts to budget formats. This course was developed with the purpose of providing students with a general overview of the recreation and sport financial issues they are likely to encounter in their professional careers.

360. **Challenge Course Programs and Management (3).** Provides theoretical and experiential understanding of program management practice associated with the use of the low challenge courses in education, recreation, and therapeutic settings. Technical skill development, facilitation strategies, safety procedures, equipment management, and program design are addressed.

410. **Business of Sport. (3)** Prerequisite: EC 221 or EC 222. A macro-economical view of the professional and intercollegiate sport industry. Topics will include: revenue sharing, collective bargaining, labor issues, antitrust issues, sport franchise valuation, Olympics, and athlete compensation mechanisms.

420. **Youth Development Leadership (3).** A comprehensive examination of theory and practice in contemporary youth development leadership and youth serving agencies.

425. **Contemporary Issues in Sport Management and Recreation (3).** Prerequisite: Senior standing. The purpose of this course is to introduce students to the fundamental concepts associated with current issues and trends within the sport management and recreational leadership field.

440. **Communication in Sport (3).** Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts and common practices associated with communicating in the sport industry that include: history and development; role of mass media, digital, mobile, and social media; integrated communication; crisis communication; sociological aspects of communication; legal issues in sport communication.

450. **Sport and Recreation Facility Management (3).** Prerequisite: Junior standing. This course is designed to introduce students to the principles, application, and topics of sport and recreation facility management. After completing this course students will have gained valuable insight into theory and practice of sport and recreation facility management for a diverse range of sport and recreation facilities.

466. **Public and Media Relations (3).** Prerequisite: Senior standing. The purpose of this course is to introduce students to the fundamental concepts associated with public and media relations within the sport management and recreation field.

476. **Sport Management and Recreation Marketing (3).** Prerequisite: Junior standing. This course is designed to introduce students to the principles and application of marketing theory to the sport and recreation industries. This is a general course covering a wide range of sport marketing topics. These topics include promotion and media relations in sport and recreation, licensing and sponsorship of sport products, and the marketing mix strategies for sport and recreation organizations. After completing this course, students will have gained valuable insight into the theory and practice of sport marketing strategies for a diverse range of sport and recreation organizations.
486. Sport Management and Recreation Promotion and Event Planning (3). Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts associated with promotion and event management within the sport management and recreation field.

490. Foundations of Recreation and Sport Administration (3). Prerequisite: Junior standing. The purpose of this course is to introduce students to the fundamental concepts, principles, and application associated with managing recreation and sport organizations. It is a general recreation course covering a broad variety of topics ranging from the functions of management to organizational effectiveness.

492. Internship in Sport Management and Recreation (6). Prerequisites: SMR 490 and senior standing. Practical field experience in selected programs.

DEPARTMENT OF NURSING AND RESPIRATORY THERAPY

NURSING

Accredited by:
Commission on Collegiate Nursing Education
655 K Street, NW Suite 750
Washington, DC, 20001 (202) 887-6791

Department Head: Elizabeth Gulledge
Professor: Prickett
Associate Professor: Gulledge, Shelton, Waits, Walker
Assistant Professor: Akisanya, Barrow, Gramling, Hill
Instructor: Acker, Bougere, Burgess, Chandler, Crabtree, Daugherty, DeWeese, Duckett, Frank, Goodwin, Key, Killen, Mikel, Morrow, Pearce, Robinson, Scroggin, Smedley

The Lurleen B. Wallace Department of Nursing is approved by the Alabama Board of Nursing, which entitles its graduates to apply to write the National Council Licensure Examination for Registered Nurses (NCLEX-RN®). The department is accredited by the Commission on Collegiate Nursing Education. Accreditation is an indication of public approbation, attesting to the quality of the educational program and the continued commitment of the sponsoring institution to support the program.

Students begin the nursing program by taking core requirement courses. A separate application is filed to request assessment into the clinical portion (upper division) of nursing. The department assesses students for eligibility for the upper division nursing program in the spring and fall of each year. The deadline for submission of applications for assessment to the upper division program of nursing is June 1st for fall and October 1st for spring. Late applications are not accepted. Only students who have been admitted to Jacksonville State University and who meet eligibility requirements may apply for assessment into the upper division nursing program. Those planning to apply for assessment into the upper division nursing program should contact the Director of Academic Services in the School of Health Professions and Wellness well in advance of the application deadline in order to confirm eligibility.

Entry into the upper division of nursing requires completion of all core requirement courses with a core requirement grade point average (GPA) of 2.75 or above and a minimum grade of “C” in each core requirement course. If a course is taken more than one time, the highest grade earned will be used in the calculation of the core requirement GPA. Once a passing grade of “C” or above has been earned in a course, that course cannot be repeated for a higher grade. Students who do not meet the above standards are not eligible to apply for assessment into upper division. Each student’s record will be assessed for completion of core requirements and as a basis for approval to enter the upper division. The review process may include a personal interview with the candidate, a background check, contact with personal references, and, if the student has been enrolled in other nursing programs, contact with previous nursing faculty. The assessment process may also include evaluation of essential academic skills and critical thinking. Students admitted to the university Fall 2014 and thereafter must have a current ACT score of 20 (within five years). Students who have English as a second language must present a minimum score on the TOEFL (Test of English as a Foreign Language) exam taken within four years. To be eligible for assessment into upper division, minimum scores are: 560 for TOEFL Written (paper based), 220 for TOEFL CBT (computer based), or 83 for iBT (internet based). Students native to countries where English is a commonly used language and/or those who have been living in a country for many years where English is a primary spoken language may request a waiver of this requirement. A student who has been enrolled in any upper division nursing program (RN or LPN) and was unsuccessful in progressing satisfactorily in that program is not eligible to apply. The Department of Nursing reserves the right to limit the number of students enrolled in nursing courses in order to make the most effective use of the educational resources available. Because of limited resources, eligibility for the program is competitive; all students who qualify may not be selected. Students must comply with all Department of Nursing policies for entrance into and continuation in the nursing program, which include, but are not limited to, a clear criminal background check and drug screen.

The student is advised to review qualifications for licensure as well as grounds for denial of licensure before beginning the nursing major. Qualifications for RN licensure by examination in Alabama include: high school graduation or the equivalent, as determined by the Board; good moral character, and successful completion of requirements for graduation from a Board-approved registered nurse program (Alabama Board of Nursing
BACHELOR OF SCIENCE IN NURSING
MAJOR: NURSING

The following list of courses is not intended to be a substitute for individual advisement by a Department of Nursing academic advisor.

Area I (6 Semester Hours)

EH 101 English Composition I ................................................................. (3)
EH 102 English Composition II ............................................................... (3)

* All students with less than 24 earned hours must take STU 101: First Year Experience Course.

Area II (12 Semester Hours)

Literature ................................................................................................. (3)
Fine Arts .................................................................................................. (3)
EH 141 Oral Communication ................................................................. (3)

*Minimum of three hours of literature required (select from: EH 201, EH 202, EH 203, EH 204, EH 231, EH 232, EH 219, EH 220); a six-hour sequence of either literature or history is required. Minimum three hours fine arts required (Select from ART 202, DR 242, MU 233, or FL 101).

If student chooses only three hours of literature, then history must be a six-hour sequence, and an additional three hours of approved fine arts or humanities will be necessary.

Area III (11 Semester Hours)

BY 101/103 Introductory Biology I ............................................................ (4)
CY 115 Concepts of General Chemistry .................................................... (4)
MS 112 Precalculus Algebra ................................................................. (3)

Area IV (12 Semester Hours)

History .................................................................................................... (3)
PSY 201 Principles of Psychology ......................................................... (3)
PSY 222 Human Development ............................................................... (3)

** Minimum of three hours of history required (select from HY 101, HY 102, HY 201, HY 202); a six-hour sequence of either literature or history is required. If student chooses only three hours of history, then literature must be a six-hour sequence and an additional three hours of approved social/behavioral science will be necessary.

Area V (21 Semester Hours)

BY 263 Anatomy and Physiology I ......................................................... (4)
BY 264 Anatomy and Physiology II ....................................................... (4)
BY 283 Health Microbiology ................................................................. (4)
MS 204 Basic Statistics ................................................................. (3)
FCS 322 Normal Nutrition ................................................................. (3)
NU 121 Nursing Ethics ................................................................. (3)
Upper Division Nursing Courses (67 Semester Hours)

**First Semester (14 Semester Hours)**
- NU 305 A Bridge to Success ......................................................... (0)
- NU 306 Pharmacology ................................................................. (4)
- NU 309 Health Assessment ......................................................... (4)
- NU 311 Foundations of Nursing Practice ................................. (6)

**Second Semester (13 Semester Hours)**
- NU 322 Health Deviations and Clinical Interventions ............. (3)
- NU 325 Adult Health in Secondary and Community Settings ..... (5)
- NU 326 Psychiatric Mental Health Nursing ............................... (5)

**Summer Semester (3 Semester Hours)**
- NU 340 Professional Practice and Care of the Aging Population (3)

**Third Semester (12 Semester Hours)**
- NU 403 Nursing Care of Children and Families ....................... (5)
- NU 404 Childbearing Families .................................................. (5)
- NU 422 Nursing Leadership and Health Policy ......................... (2)

**Fourth Semester (13 Semester Hours)**
- NU 424 Adult Health in Secondary, Tertiary and Community Settings (5)
- NU 426 Community Health Across the Lifespan ....................... (5)
- NU 433 Advanced Health Deviations and Clinical Interventions (3)

**Fifth Semester (12 Semester Hours)**
- NU 428 Practicum ........................................................................ (6)
- NU 455 Transition to Professional Nursing ............................... (4)
- NU 400 Research and Outcomes Management ......................... (2)

**TOTAL 120-129 Semester Hours**

Online@JSU STEP Program RN-BSN

The Department of Nursing embraces the concept of nursing education advancement for individuals holding an associate degree or diploma in nursing. The Strategic Teaching for Enhanced Professional Preparation (STEP) program is a quality program designed to provide a seamless educational transition for registered nurses. The completely online delivery of this curriculum allows students to advance their nursing education while continuing to fulfill personal and professional responsibilities.

After completion of general studies requirements, nursing courses may be completed in one calendar year online for the full time student. Courses in the professional component of the BSN program are delivered via the internet utilizing Blackboard as the educational platform for teaching.

**Application deadlines:**
- August 1st for fall assessment
- December 1st for spring assessment
- April 1st for summer assessment

**Core Requirement Courses for STEP Program in Nursing (62 Semester Hours)**

The following list of courses is not intended to be a substitute for individual advisement by a Department of Nursing academic advisor. Students with a four-year degree from a US accredited college or university, who also have an associate degree in nursing, will be admitted to the STEP Program with no additional core requirements.

**Area I (6 Semester Hours)**
- EH 101 – English Composition I ................................................. (3)
- EH 102 – English Composition II ............................................. (3)

*All students with less than 24 hours earned must take STU 101: First Year Experience Course.

**Area II (12 Semester Hours)**
- Literature .................................................................................... (3)
- Literature .................................................................................... (3)
- Fine Arts ..................................................................................... (3)
- Humanities or Fine Art ............................................................. (3)
*Minimum of three hours of literature required (select from: EH 201, EH 202, EH 203, EH 204, EH 231, EH 232, EH 219, EH 220); a six-hour sequence of either literature or history is required. Minimum three hours of fine arts required (Select from ART 202, DR 242, MU 233 or FL 101). If student chooses only three hour of literature, then history must be a six-hour sequence, and an additional three hours of approved fine arts or humanities will be necessary.

**Area III (11 Semester Hours)**

BY 101 / 103 Introductory Biology I ................................................................. (4)
*CY 115 Concepts of General Chemistry ......................................................... (4)
*MS 112 Precalculus Algebra ........................................................................... (3)

*Approved Science from STARS Guide may be substituted for CY 115. MS 110 may be substituted for MS 112.

**Area IV (12 Semester Hours)**

History .............................................................................................................. (3)  
History .............................................................................................................. (3)  
PSY 201 Principles of Psychology ................................................................. (2)  
Social Science or Behavioral Science ...........................................................(3)

**Minimum of three hours of history required (select from HY 101, HY 102, HY 201, HY 202); a six-hour sequence of either literature or history is required. If student chooses only three hours of history, then literature must be a six-hour sequence and an additional three hours of approved social/behavioral science will be necessary.

**Area V (21 Semester Hours)**

BY 263 Anatomy and Physiology I ................................................................. (4)  
BY 264 Anatomy and Physiology II ................................................................. (4)  
BY 283 Health Microbiology ......................................................................... (4)  
Preprofessional, Major and Elective Courses ................................................. (9)

**REQUIRED NURSING COURSES**

The required nursing courses can be completed online in three semesters (one calendar year). Completion of the upper division STEP nursing courses must occur in ten (10) semesters. Using the internet, Blackboard, and other distance learning modalities, the program is delivered at a time and place convenient to the individual student. The following courses are required for registered nurses in the STEP program.

**Semester I**

NU 313 Online Orientation to the STEP Program ............................................. (0)  
NU 345 Communication of Ethical Issues ....................................................... (4)  
NU 352 Health Assessment Across the Lifespan ............................................. (3)  
NU 365 Pharmacology for Practicing Nurses ................................................ (2)

_____________  
9 hrs.

STEP recognizes the past academic and experiential knowledge of the registered nurse. RN students are awarded 35 hours of STEP nursing credit after successful completion of the first semester courses.

**Semester II**

NU 350 Professional Roles and Issues ............................................................. (5)  
NU 401 Research Outcomes Management for the Practicing Nurse .............. (3)  
NU 423 Nursing Management and Leadership ............................................. (3)  

_____________  
11 hrs.

**Semester III**

Nursing Elective ............................................................................................... (3)  
NU 343 Concepts of Emergency/Disaster Nursing ......................................... (3)  
NU 456 Population Based Health Care ........................................................... (6)

_____________  
12 hrs.

**Total Hours: 120 – 129**

**NURSING (NU) COURSE DESCRIPTIONS**

121. **Ethics in Nursing (3).** Examines ethical reasoning and decision-making in relation to moral, legal, and professional standards. Specific issues confronting the health care delivery system will be analyzed.
130. Medical Terminology (3). This online course introduces the elements of medical terminology and provides students with a basic understanding of the language used by healthcare professionals. Knowledge of prefixes, suffixes, word roots is emphasized. Singular and plural forms of medical terms are identified, along with emphasis on word analysis, word building and pronunciation. These guidelines are applied to diverse body systems. Each body system is briefly reviewed and common diagnostic, laboratory, and surgical procedures are introduced.

301. RISE to Success: Leadership in Critical Thinking and Clinical Prevention (1). Prerequisite: Assessment into upper division. This course is designed to broaden student understanding of key nursing concepts. Through a variety of learning strategies students will develop decision-making skills applicable to the clinical setting. Lab required.

302. Preparation for NCLEX Success (2). Prerequisite: Assessment into upper division. This course offered during the fifth semester of the nursing curriculum is designed to prepare students for the NCLEX-RN® exam. Individual plans for success are established based on areas of deficiency. Through standardized testing and self-analysis, students identify areas needing improvement and work to increase knowledge.

303. RISE to Success: Integration of Knowledge and Skills into Practice (3). Prerequisite: Assessment into upper division. This course is designed as the initial course to assist students who are identified as at-risk and admitted to the RISE program. Students are introduced to effective strategies to promote learning and are individually guided by the instructor. Diverse strategies are utilized to increase perceived self-confidence and knowledge to facilitate success in nursing school. Assigned activities will include a variety of learning experiences, i.e., online, classroom, clinical laboratory or simulation.

304. RISE to Success: Scholarship of Nursing Practice (3). Prerequisite: Assessment into upper division. This is a clinical course designed to facilitate essential skills for safe, effective nursing practice. Evidence-based research, clinical judgment, and interprofessional perspectives are incorporated into making decisions related to all steps of the nursing process. This course is designed to facilitate competency in clinical skills.

305. A Bridge to Success (0). Prerequisite: Assessment into upper division. This course is a one day workshop offered just prior to the first semester nursing courses, designed to enhance skills needed for success in the baccalaureate nursing program. Emphasis will be on the acquisition, development, and utilization of proper study, time management, stress management, and learning style strategies to enhance success and thus improve retention.

311. Foundations of Nursing Practice (6). Co-Requisite: Assessment into upper division. Concurrent enrollment in NU 306, 309 and 311 required. This clinical nursing course provides the first contact with individuals/families as clients/patients and emphasizes the development of skills in problem-solving, nursing process, communication, and therapeutic nursing interventions. Lab required.

313. Online Orientation to the STEP Program (0). Required course for all new admissions to the STEP program and provides each student with valuable information about Blackboard, distance learning, GEM (Gamecock Electronic Mail), book lists and policies with the Department of Nursing.

322. Health Deviations and Clinical Interventions (3). Prerequisite: Completion of first semester upper division courses. An in-depth study of disease processes across the life span. Health promotion and disease prevention will be integrated by emphasizing risk factors and relevant therapeutic approaches to reduce the incidence of acute and chronic health problems.

325. Adult Health in Secondary and Community Settings (5). Prerequisite: Completion of first semester upper division courses. Course through which students learn the responsibilities of professional nursing in providing nursing care to the adult patient with various medical-surgical problems. Lab and clinical required.

326. Psychiatric Mental Health Nursing (5). Prerequisite: Completion of first semester upper division courses. This course is designed to enable students to understand the dynamics of psychiatric nursing and mental health, with an emphasis on the holistic therapeutic care of psychiatric patients/families as well as the therapeutic use of self. The concentration of the course will be focused on the attainment of knowledge regarding psychiatric diagnoses, utilization of the nursing process in providing therapeutic nursing care, understanding appropriate treatment modalities and the establishment of the nurse-patient relationship as it deals with the psychopathological behavior found in the psychiatric patient. Clinically, the student will be utilizing and employing the theoretical aspects in nursing assessment and patient care, one-to-one interactions, group situations, healthcare team discussions, as well as supervision sessions. Lab and clinical required.

344. Perspective in Women’s Health (3). Elective in nursing. Prerequisite: For RN students only. Provides an overview of current women’s health issues across the lifespan. Course focuses on the social, political, economic, and cultural influences on women’s health.
scholarly writing. Personal and professional values will be identified through technical, analytical, persuasive, and creative writing.

352. Health Assessment Across the Lifespan (3). Prerequisite: Assessment into STEP program. For RN students only. Provides a foundation for developing a holistic approach as it applies to the physiological, psychological, sociocultural, and environmental health status of individuals. Designed to assist the registered nurse with improving communication skills, interview techniques, history-taking, and physical examination techniques in patient/client evaluations.

365. Pharmacology for Practicing Nurses (2). Prerequisite: Assessment into STEP program. For RN students only. This course focuses on current pharmacological concepts for practicing nurses. Emphasis is on current drug classifications, commonly used drugs, assessing client responses to drug therapy, client teaching and nursing interventions related to drug therapy.

400. Research and Outcomes Management (2). Prerequisite: Completion of first semester courses. Designed to assist students to develop knowledge and skills in the research process, to become consumers of research, and to conceptualize the significance of research as the foundation of evidence-based nursing practice.

401. Research and Outcomes Management for the Practicing Nurse (3). Prerequisite: Admission to STEP program. For RN students only. Designed to assist students who are practicing nurses to develop knowledge and skills in the research process, to become consumers of research, and to conceptualize the significance of research as the foundation of evidence-based nursing practice.

403. Nursing Care of Children and Families (5). Prerequisite: Completion of first and second semester upper division courses. This course presents nursing care of children and families from well-child care through acute and chronic illnesses in a variety of settings from schools, hospitals to specialty areas that focus on early intervention and special needs. The nursing care of children and families centers on understanding growth and development, health promotion, and interventions to maximize optimal health. Lab and clinical required.

404. Childbearing Families (5). Prerequisite: Completion of first and second semester upper division courses. Clinical course designed to enable the student to practice the various roles assumed by professional nurses in the provision of family centered maternal-infant care. Lab and clinical required.

422. Foundations of Nursing Leadership (2). Prerequisite: Completion of first semester courses. Introduction to concepts of professional leadership and management and their use in the practice setting with a concentration on professionalism. Emphasis is placed on leadership theories, leadership and management styles, time and stress management, burnout, types of communication, conflict strategies and conflict resolution, planned change, decision making, delegation and scope of practice, prioritization, legalities, advocacy, and the significance of diversity and inclusion.

423. Nursing Management and Leadership (3). Prerequisite: Assessment into STEP program. For RN students only. Provides an overview of concepts of professional leadership and management and their use in the practice setting for the practicing nurse. Emphasizes organizational structure, management, professional and leadership issues.

424. Adult Health in Secondary, Tertiary, and Community Settings (5). Prerequisite: Completion of first, second, and third semester upper division courses. Enhances and further develops the student's ability and knowledge to care for adults with complex health problems together with their need for sophisticated nursing interventions. Lab and clinical required.

426. Community Health Across the Lifespan (5). Prerequisite: Completion of first, second, and third semester upper division courses. Enables the student to use an epidemiological approach in coping with health and illness problems of families, aggregates of populations, and communities. Lab and clinical required.

428. Practicum (6). Prerequisite: Completion of first, second, third, and fourth semester upper division courses. This course focuses on the synthesis and application of previous and concurrent learning in the clinical setting under supervision of course faculty and a clinical preceptor. Additionally, the course is designed to enhance student success on the National Council Licensure Examination (NCLEX-RN®). Lab and clinical required.

433. Advanced Health Deviations and Clinical Interventions (3). Prerequisite: Completion of first, second, and third semester upper division courses. Enables students to integrate concepts in pathophysiology, health deviations, nursing interventions, laboratory tests, and pharmacology as these topics relate to populations at risk.

442. Transcultural Nursing and Healthcare (3). Elective in nursing. Prerequisite: Assessment into STEP Program. For RN students only. An exploration of theoretical foundations for cultural diversity in health and illness, with emphasis in assessment and analysis of selected cultures as related to nursing and health care practices.

444. Implementation of Professional Nurse Role (3). Prerequisite: Permission of instructor required. Experience an in-depth analysis of professional nurse roles in selected clinical settings. Credit for ROTC Advanced Camp may be given with approval.

446. Independent Study (2). Prerequisite: Permission of advisor. Special project in nursing studies. Pass/Fail grade only.

447. Independent Study (1). Prerequisite: Permission of advisor. Special project in nursing studies. Pass/Fail grade only.

448. Directed Study (3). Elective in nursing. Offers the student the opportunity to explore specific areas of interest in nursing in either the theoretical and/or clinical arenas. Requires completion of coursework to support the areas of interest.
Students begin the respiratory program by taking core requirement courses. A separate application is filed to request assessment into the clinical portion (upper division) of respiratory. The department assesses students for eligibility for the upper division respiratory program in the spring of each year. The deadline for submission of applications for assessment to the upper division program of nursing is June 1st for fall. Late applications are not accepted. Only students who have been admitted to Jacksonville State University and who meet eligibility requirements may apply for assessment into the upper division respiratory program. Those planning to apply for assessment into the upper division respiratory program should contact the Director of Academic Services in the School of Health Professions and Wellness well in advance of the application deadline in order to confirm eligibility.

Entry into the upper division of respiratory requires completion of all core requirement courses with a core requirement grade point average (GPA) of 2.50 or above and a minimum grade of “C” in each core requirement course. If a course is taken more than once, the highest grade earned will be used in the calculation of the core requirement GPA. Once a passing grade of “C” or above has been earned in a course, that course cannot be repeated for a higher grade. Students who do not meet the above standards are not eligible to apply for assessment into upper division. Each student’s record will be assessed for completion of core requirements and as a basis for approval to enter the upper division. The review process may include a personal interview with the candidate, a background check, contact with personal references, and, if the student has been enrolled in other respiratory programs, contact with previous respiratory faculty. The assessment process may also include evaluation of essential academic skills and critical thinking. Students admitted to the university Fall 2018 and thereafter must have a current ACT score of 18 (within five years). Students who have English as a second language must present a minimum score on the TOEFL (Test of English as a Foreign Language) exam taken within four years. To be eligible for assessment into upper division, minimum scores are: 560 for TOEFL Written (paper based), 220 for TOEFL CBT (computer based), or 83 for iBT (internet based). Students native to countries where English is a commonly used language and/or those who have been living in a country for many years where English is a primary spoken language may request a waiver of this requirement. The Department of Respiratory reserves the right to limit the number of students enrolled in nursing courses in order to make the most effective use of the educational resources available. Because of limited resources, eligibility for the program is competitive; all students who qualify may not be selected. Students must comply with all Department of Respiratory policies for entrance into and continuation in the respiratory program, which include, but are not limited to, a clear criminal background check and drug screen.

Core Requirement Courses for Upper Division in Respiratory Therapy
(57 Semester Hours)

Respiratory Therapy Bridge Program (RRT)

The RRT_BSRT program is designed to allow registered respiratory therapists that have completed an associate-level program the option of obtaining an advanced degree. The student must complete ten (10) online courses for a total of thirty-two (32) semester hours. The program consists of upper-division respiratory courses that provide the student an opportunity for professional growth and development.
Core Requirement Courses for RT Bridge Program (56 Semester Hours)

The following list of courses is not intended to be a substitute for individual advisement by a Department of Respiratory academic advisor. Students with a four-year degree from a US accredited college or university, who also have earned the Registered Respiratory Therapist credential from the National Board for Respiratory Care, will be accessed to the RT Bridge Program with no additional core requirements.

- RT 448 Advanced Practice Elective ............................................................ (3)

The Respiratory Therapy Bridge Program recognizes the past academic and experiential knowledge of the registered respiratory therapist. RRT Bridge students are awarded thirty-three (33) semester hours of RT credit after successful completion of the first semester courses.

TOTAL HOURS REQUIRED FOR DEGREE: 121
300. Fundamentals of Respiratory Care I (4). A study of respiratory care treatment modalities and equipment. Emphasis is placed on understanding application to patient situations, assessment of care, and principles of operation of equipment. Infection control issues will be included. Students will discuss the pathophysiology, health promotion and disease prevention aspects of each modality. Relevant lab exercises will be included.

305. Patient Assessment (4). A study of patient assessment skills and procedures used in the evaluation of the respiratory patient. Emphasis will be on patient care procedures, physical assessment, laboratory assessment, communication skills and documentation. Professionalism, ethics and civic responsibilities of the respiratory therapist will be discussed. Relevant lab exercises will be included.

310. Cardiopulmonary Anatomy and Physiology (3). A study of the structure and function of the respiratory system. Physiology of the respiratory, cardiac, and renal systems will be discussed. Emphasis will be on how each control the body's acid-base status and the effects of respiratory therapeutic modalities on each system.

315. Respiratory Care Pharmacology (2). A study of pharmacological agents used in the treatment of cardiopulmonary disease and critical care. Emphasis will be on drugs used to influence the respiratory, cardiovascular, nervous and renal systems.

320. Clinical I (2). Practical application of respiratory care performed under supervision at clinical sites. This course serves as an introduction to the hospital environment. Proficiency evaluations of selected respiratory care procedures will be completed. Eight hours of clinical experience for four weeks will be included.

325. Fundamentals of Respiratory Care II (4). This course is a continuation of RT 300. It is designed to continue the progression from basic respiratory care modalities to more advanced therapy and equipment. Emphasis will continue to be on understanding application to patient situations, assessment of care, and principles of operation of equipment. Relevant lab exercises will be included.

330. Airway Management and Resuscitation (2). A study of the selection, application, maintenance, and discontinuance of various artificial airways. Emphasis will be on intubation, extubation, tracheostomy care, and suctioning. The role of the respiratory therapist in a cardiopulmonary arrest will be covered in accordance with American Heart Association Advanced Cardiopulmonary Life Support (ACLS) guidelines. ACLS will be taught.

335. Pathology for Respiratory Care (3). A study of the diseases affecting the respiratory system commonly encountered by practicing respiratory therapists. The pathophysiology, clinical signs and symptoms, diagnosis, management, and prognosis of acute and chronic pulmonary diseases will be discussed.

340. Research (3). A study of clinical research methods and concepts related to respiratory care. Emphasis is on an overview of the research process and how to critically evaluate published and empirical research.

345. Clinical II (2). Practical application of respiratory care performed under supervision at clinical sites. Proficiency evaluations of selected respiratory care procedures will be completed, including basic and advanced modalities. Students will prepare and present case studies relevant to this patient population.

350. Ventilatory Support I (4). A study of the basic physics, theory, and methods commonly used in mechanical ventilation. Emphasis will be on patient management and assessment. Invasive and non-invasive ventilation will be discussed, including advanced oxygen delivery systems. Relevant lab exercises will be included.

355. Advanced Critical Care Monitoring (3). A study of advanced cardiopulmonary monitoring used in critical care. Emphasis will be on ventilator waveform analysis, capnography, and hemodynamic monitoring.

360. Clinical III (2). Practical application of respiratory care performed under supervision at clinical sites. Proficiency evaluations of selected respiratory care procedures will be completed, including advanced modalities and mechanical ventilation. Students will prepare and present case studies relevant to this patient population.

400. Ventilatory Support II (4). This course is a continuation of RT 350. A study of advanced mechanical ventilation. Adult, pediatric, and neonatal ventilation will be discussed. Emphasis will be on patient management and assessment. Relevant lab exercises will be included.

405. Neonatal and Pediatric Respiratory Care (3). A study of respiratory therapy involving infants and children. Emphasis will be on patient management and assessment in basic and intensive care settings. Developmental anatomy and physiology, pharmacology, disease management and prevention, health promotion, oxygenation, and resuscitation will be discussed. PALS and NRP will be taught. Relevant lab exercises will be included.

410. Pulmonary Diagnostics (3). A study of diagnostic testing and measurements used in providing care for respiratory patients. Emphasis will be on pulmonary function testing, bronchoscopy, sleep studies, and other special procedures commonly encountered by the practicing respiratory therapist. Relevant lab exercises will be included.

415. Clinical IV (4). Practical application of respiratory care performed under supervision at clinical sites. Proficiency evaluations of selected respiratory care procedures will be completed, including advanced mechanical ventilation, special populations, and diagnostics. Students will prepare and present case studies relevant to this patient population.

420. Palliative, Long-Term, and Preventative Care (3). A study of the respiratory therapist's role in pulmonary rehabilitation, home care, and patient education and motivation in preventative care. Reimbursement issues will
be discussed. This course will also provide an overview of the growing need for quality palliative care. The scope of palliative care and current end-of-life issues will be introduced.

425. Respiratory Therapy Education (3). A study of general educational and instructional methods and techniques. Emphasis will be on patient education and health promotion. The student will learn how to write learning objectives, how to evaluate patient education, how to prepare and present a topic for an in-service presentation, and how to present a lecture in a classroom and in the laboratory environment.

430. Respiratory Therapy Leadership (2). A study of management of a respiratory therapy and cardiopulmonary department. Emphasis will be on regulatory agency and accreditation standards related to respiratory therapy, departmental budgeting, quality assurance, human resource issues, conflict resolution, and staff training.

435. Clinical V (4). Practical application of respiratory care performed under supervision at clinical sites. This course prepares students to perform as advanced-level respiratory therapists. Proficiency evaluations of selected respiratory care procedures will be completed. Emphasis will be on advanced mechanical ventilation in adults, pediatrics, and neonates; special procedure areas may be assigned.

440. Advanced-Level Exam Review (1). This course is designed to assist students in preparing for the Therapist Multiple-Choice and Clinical Simulation Exams offered by the National Board for Respiratory Care (NBRC).

442. Advanced Ventilatory Support (4). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of advanced mechanical ventilation. Adult, pediatric, and neonatal ventilation will be discussed. Emphasis will be on invasive and non-invasive ventilation techniques will be included.

444. Critical Care Monitoring (2). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of monitoring utilized in an intensive care unit. Emphasis will be on ventilator waveform analysis, pulse oximetry, and hemodynamic monitoring.

446. Research for Respiratory Therapists (3). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of clinical research methods and concepts related to respiratory care. Emphasis is on an overview of the research process and how to critically evaluate published and empirical research.

448. Advanced Practice Elective (3). Prerequisite: Assessment into RT Bridge program. For RT students only. The Advanced Practice Elective can be completed in the semester of the student’s choice. Completion of the course requires the student to prepare for and complete the requirements for one of the following advanced practice credentials: Advanced Critical Care Specialist, Neonatal-Perinatal Specialist, Certified Asthma Education, Certified Pulmonary Function Technologist, Registered Pulmonary Function Technologist, Certified Sleep Disorder Specialist, Registered Sleep Disorder Specialist, or Certified Tobacco Treatment Specialist.

450. Healthcare Education for Respiratory Therapists (4). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of the respiratory therapist’s role in patient education and health promotion. General educational and instructional methods and techniques will be introduced. The student will learn how to write learning objectives, how to evaluate patient education, how to prepare and present a topic for an in-service presentation, and how to present a lecture in a classroom and in the laboratory environment.

452. Patient Care Management Strategies (3). Prerequisite: Assessment into RT Bridge program. For RT students only. Prerequisite: RT 446. A study of the current professional environment and the role of the respiratory therapist in patient care management. An introduction to the concept of evidence-based practice and discussion of how to incorporate evidence and best practices into professional work. Therapist-driven protocols, respiratory case managers, and care coordinators/navigators will be introduced.

454. Advanced Neonatal and Pediatric Care (3). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of respiratory care involving infants and children. Emphasis will be on patient management and assessment in basic and intensive care settings. Developmental anatomy and physiology, pharmacology, disease management and prevention, health promotion, oxygenation, and resuscitation will be discussed.

456. Healthcare Leadership for Respiratory Therapists (4). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of the management of a respiratory therapy and cardiopulmonary department. Emphasis will be on regulatory agency and accreditation standards related to respiratory therapy, departmental budgeting, quality assurance, human resource issues, conflict resolution, staff training, and customer service.

458. Special Procedures (3). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of diagnostic testing commonly encountered by practicing respiratory therapists. Emphasis will be on pulmonary function studies. Other special procedures will be introduced.

460. Alternative Care Roles for Respiratory Therapists (3). Prerequisite: Assessment into RT Bridge program. For RT students only. A study of the respiratory therapist’s role in pulmonary rehabilitation, long-term care, long-term acute care, home care and palliative care. Patient education and motivation in preventative care will be discussed. An overview of reimbursement issues will be included. The scope of palliative care and end-of-life issues will be discussed.
