The graduate program experience enhanced my teaching skills.	The graduate program experience caused me to have a greater appreciation for advanced coursework in my field.	The graduate program experience enhanced my ability to assess student learning.	Do you have any suggestions for improving the program of study?
Strongly Agree	Strongly Agree	Strongly Agree	I feel that the courses were beneficial in improving my knowledge in early childhood education. I have gained knowledge and strategies to use in my classroom as a Masters level teacher. I am pleased with my experiences with the program.
Agree Strongly Agree Agree	Agree Strongly Agree Strongly Agree	Agree Strongly Agree Agree	
Strongly Agree	Strongly Agree	Strongly Agree	Great. I learned way more and was able to implement more from this program than my undergraduate program in Physical Education.
Agree	Strongly Agree	Agree	Great program, with great Faculty
Neutral	Neutral	Agree	A variety of teachers. Two few teachers, teach the same subjects.
Strongly Agree	Strongly Agree	Strongly Agree	
Strongly Agree	Strongly Agree	Strongly Agree	The program was a great program! Dr. Engley, Dr. King, and Dr. Hilber were always willing to help!
Strongly Agree	Strongly Agree	Strongly Agree	none...great experience

No suggestions. I really enjoyed the program. Felt like it really helped broaden my knowledge. It was a great experience to go through the program while also teaching full time. The program design made it easy to gain valuable knowledge from the courses while also advancing my career goals and teaching full time.

NO

The courses that required more hands-on work were the most beneficial for me. When I was able to apply what I was learning to my classroom, I learned much more. Overall, my graduate experience at JSU was fantastic.

I just wish that I did not have to come there to take the writing comps test after taking 11 classes just to prove myself worthy of the degree. I would think that my coursework and GPA would speak volumes of what I learned.
