

UPDATED 2011-2012 Faculty Evaluation Data Summary: Teaching, Advisement, Scholarship, Service,  
Recent P-12 Experience, and Overall Performance

In the 2011-2012 academic year, 40 full-time professional education unit faculty were evaluated using the annual evaluation process and instrument. Other college faculty were also evaluated but have been removed from the data set for this report as they do not teach courses for the unit as defined by NCATE. The numbers above represent the number (not percentage) of faculty who exceeded, met, or fell below expectations in each of the six areas.
