Technology Resources Available to Students

Ramona Wood Hall

There are three computer laboratories. These are available 8 am-10 pm Monday through Thursday and 8-4:30 Fridays when not scheduled for a class.

The 210 laboratory has 24 student stations and one instructor station. The Instructor station has a photo/document scanner, an Elmo document scanner, a Smart Board, a DVD/VCR player, a HP Laserjet printer, an LCD projector, and a robust speaker system.

The 309 Laboratory has 30 student stations and one instructor station. The Instructor station has a lavaliere microphone system, an Elmo document scanner, a Smart Sympodium, a DVD/VCR player, a HP Laserjet printer, a Smart Tablet, an LCD projector, and a robust speaker system.

The 105 Laboratory has nine Macintosh computers, a Smart Sympodium, an Elmo document scanner, a Smart Board, a DVD/VCR player, a HP Laserjet printer, a Smart Tablet, and a robust speaker system, an LCD projector, and one instructor station.

A mobile laboratory of 30 MacBooks is available for use in a classroom.

Classrooms 201, 202, 218, 219, B-5, 301, 308, 310, 316, 317 have an Elmo document scanner, a Smart Board, a DVD/VCR player, an LCD projector, and a robust speaker system.

Five sets (30) of student Response clickers can be placed in any classroom.

Ramona Wood Hall is wireless throughout the building. The system is JSU-Wan2, the building has two Cisco 4400 Wireless Controllers with wireless control software (WCS) version 5.2.193.0 with ten Cisco 1142 access points.

Pete Mathews Coliseum
Health, Physical Education, and Recreation (HPER)

There are five technology enhanced classrooms 325, 326, 329, 330, and 331 which have a Smart Boards (329 has a Smart Sympodium), an Elmo document scanner, a Smart Board, a DVD/VCR player, an LCD projector, and one instructor station. Room 327 is a student laboratory with six computer workstations.
**Ayers Hall**  
**Technology and Engineering**

The area used by Technology and Engineering houses five Technology enhanced classrooms containing an LCD projector and an instructor station with Internet access. Among the classrooms are distributed thirty-two computers for student use.

The area has two computer laboratories with twenty-four student workstations and a printer, the other with twenty student workstations and a printer.

**Mason Hall East**  
**Family and Consumer Sciences**

In the area of Mason used by FCS there are four technology enhanced classrooms, 114, 118, 123c, and 202, having a Smart Board, a DVD/VCR player, an LCD projector, and a robust speaker system. Room 202 also has an Elmo document Scanner.

There is an FCS Student Resource Library (room 123a) housing four student computer workstations.

**Self Hall**  
**Communications**

The areas occupied by Communication involve three classrooms 236, 237, and 207. The rooms have a Smart Sympodium, an LCD projector, a DVD/VCR player, and a robust speaker system. Room 207 has a document camera.

The computer laboratory has twenty-one Macintosh computers, a Promethium interactive whiteboard, an LCD projector, and a printer.

The Student Resource Room has a Smart Sympodium, an LCD projector, a DVD/VCR player, and a robust speaker system. Two student computers are available and one instructor workstation. The library contains print, video and sound resources for projects.

Available are four video cameras for check-out. There are four student video editing bays with Macintosh computers and non-linear editing software. There are two TV production studios one large (shared with TV-24) and one smaller.

There is a radio classroom, a radio production studio.
