MEDICAL INFORMATION & IMMUNIZATION

Medical information and immunizations:

All students admitted to Jacksonville State University for the first time must meet the Jax State Immunization Requirements. Students are required to provide evidence of vaccinations through the Medcat Immunization Portal.

To access the Medcat Immunization Portal:

- Log into your MyJaxState.
- Select the Student Card.
- Select Medcat Immunization Portal.
- **MMR (Measles, Mumps, Rubella)** | Students born after 1956 -2 doses of MMR at least 28 days apart after 12 months of age OR a copy of a lab report showing proof of immunity from measles (rubeola), mumps, and rubella can be submitted in lieu of the vaccine.
- **VARICELLA (Chickenpox/Shingles)** | Students born after 1979- 2 doses of Varicella vaccine at least 28 days apart OR healthcare provider documented history with the date of the disease (or documented history of chicken pox by provider).
- **HEPATITIS B** | Three doses are required for all students or a blood test showing immunity. All students will be required to have all three doses of the hepatitis B vaccine as outlined in the following schedule. The second dose should be at least 28 days after the first dose and the third dose at least 16 weeks after first dose and at least 8 weeks after the second dose. If there is no time to complete a series before enrollment, an appointment may be made at the SHC when the next dose of vaccine is due.
- **TUBERCULOSIS SCREENING** | All students are required to complete the Tuberculosis Screening questions. Further tuberculosis testing may be required based upon information received from the screening questions. Students who are screened and found to have a positive screening test will not be permitted to attend classes until follow-up testing determines there is no active Tuberculosis disease. All TB testing must be performed in the United States.
- The Student Health Center advises all adults to be properly immunized. If your classes are fully online and you will not be on campus, you may request consideration for exemption by waiver.
- You should submit an Appeal for Exemption from Immunization for each vaccine requirement that is not met, regardless of the reason. You will need to submit a signed statement of medical exemption from your primary care provider to studentaffairs@jsu.edu. This confirms with your health care provider if your “medical reason” is based on current information.
- You may also be exempt from immunizations due to your religious beliefs. In this case, you should submit an Appeal for Exemption from Immunization, explaining how immunizations conflict with your religious beliefs. This statement should be submitted to studentaffairs@jsu.edu.
- Students that have not completed the immunization requirements by the first day of class will be assigned a default temporary waiver and asked to schedule an appointment at the Student Health Center. Students that default into a non-compliance waiver, may be prohibited from registering for classes the following semester.

- Please visit www.jsu.edu/studenthealth/forms.html to complete required student health forms and submit forms to MedicaT.
