Notes:

Students must meet eligibility requirements for the alternative fifth-year teacher certification program.

Completion of this program leads to eligibility for fifth-year (master’s) teacher certification in mathematics (6-12).

Candidates admitted (to enroll in courses in a Class A teaching field program) may complete no more than five approved program courses prior to unconditional admission to the program (this includes transfer credit). Exceptions to this rule must be approved by the Dean of the College of Education and Professional Studies and the Dean/Associate Dean of Graduate Studies.

Successful completion of the appropriate Praxis II examination is required prior to internship for all alternative fifth-year programs.
