Master of Social Work

Current AASCU Projects

Jacksonville State University is one of 44 institutions selected nationwide to participate in the Re-Imagining the First Year project with a focus on redesigning first-year courses, instructional practices, and academic support to increase first-year learner success.

Jacksonville State University has been chosen to participate in the ETS WAVES study; this national project is motivated by an awareness that writing is a challenge, especially for at-risk students who may struggle to complete degrees from four-year postsecondary institutions.
