Jacksonville State University

History

From modest beginnings, Jacksonville State University has evolved into the educational center of northeast Alabama. The Alabama Legislature, in the 1882-83 session, created a state normal school when Governor Edward O'Neal signed into law a bill creating the school on February 22, 1883. Jacksonville State Normal School acquired the facilities and equipment of Calhoun College, consisting of twelve acres of land and a two-story brick building. The Board of Directors elected James C. Ryals, Jr. as the first president. The school opened with three instructors: W. J. Borden, mathematics; Eliza A. Bowen, English; and Ida J. Woodward, primary department.

The Normal School remained in operation until 1930 when it became Jacksonville State Teachers College, reflecting an increasingly higher education role for the Institution. Five years later, the College earned regional accreditation from the Southern Association of Colleges and Schools. In 1957, the name again changed to Jacksonville State College when the first graduate program - the master's degree in elementary education - was created.

On August 2, 1966, the State Board of Education was authorized to elevate the College to university status. On August 17, 1967, the Legislature established an independent Board of Trustees for the University and divested jurisdiction from the State Board of Education.

Presidents

Jacksonville State University has been served by twelve presidents: James G. Ryals, Jr. (1883-85); J. Harris Chappel (1885-86); Carlton Bartlett Gibson (1886-92); J. B. Jarrett (1892-93); Jacob Forney, IV (1893-99); Clarence William Daugette (1899-1942); Houston Cole (1942-71); Ernest Stone (1971-81); Theron E. Montgomery (1981-86); Harold J. McGee (1986-99); William A. Meehan (1999-2015); and John M. Beehler (2015-present).

Economic Impact on Calhoun and Etowah Counties

The direct local expenditure of the University, faculty, staff, legacy students and retirees is approximately $327.6 million. This amount is composed of $27.0 million spent by faculty and staff, $83.0 million spent by students, $184.7 million by legacy students, $8.0 million spent by retirees and $24.8 million (excluding wages and salaries) spent by the University. The direct impact of $327.6 million with the multiplier or re-spending resulted in a total of $589.8 million. The University employs 1,107 persons in various faculty and staff positions. In addition to these jobs, 13,000 jobs exist because of the direct and indirect University-related spending.

Accreditation

Jacksonville State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor's, master's, educational specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Jacksonville State University.

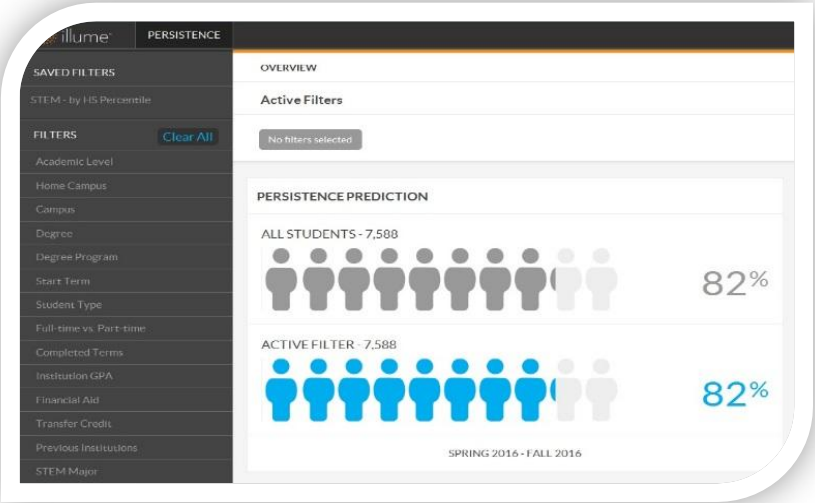
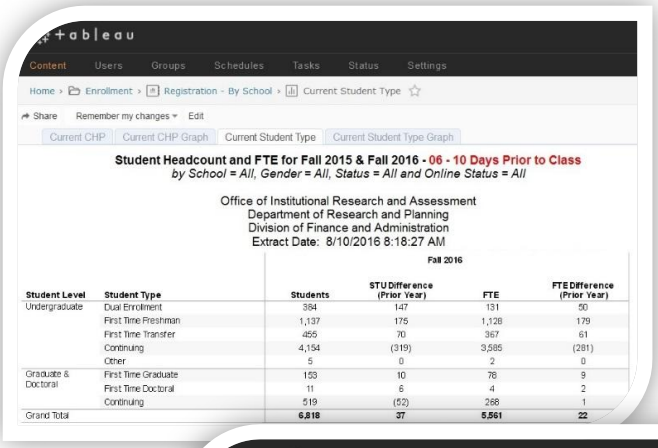
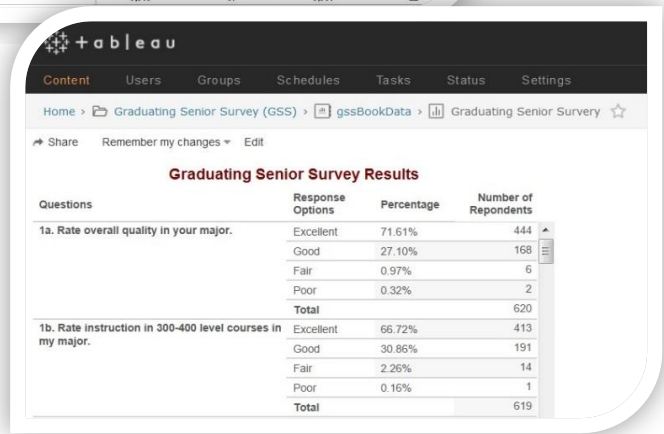
Institutional Research and Assessment

The Office of Institutional Research and Assessment has a staff of five and is responsible for collecting, managing and reporting institutional level data to stakeholders at all levels, while providing business intelligence for university decision makers.



OIRA is using Civitas Learning's Illume product to drive institutional decisions using predictive analytics to support persistence and graduation initiatives. Other modules, including Inspire for Advisors and Inspire for Faculty will be utilized to support student advisement and early interventions.





OIRA enhanced the university credit hour production dashboard to not only report CHP and enrollment but to incorporated filters that will provide additional insights into areas such as full-time equivalency, online enrollment, student status and departmental trends.

OIRA also enhanced the university's online assessment reporting system by creating easy to use dashboards with filters that include academic year and department to provide trend analysis and additional insights into how well the institution meets the needs of its students.

Dashboards for both are located in Tableau Server.

The annual three-day CORE Professional Development Conference has had attendance from approximately 1,333 P-12 educators and administrators from across the country since its inception at JSU four years ago.

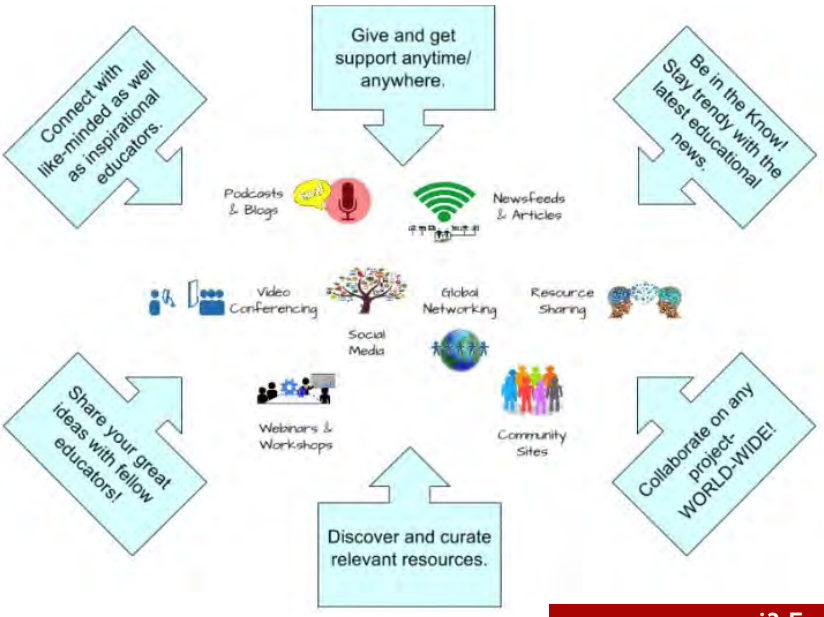
CORE University Partners include:

- Fayetteville State University in North Carolina
- Louisiana Tech in Louisiana
- Savannah State University in Georgia
- Southeast Missouri State
- Tarleton State in Texas
- West Texas A&M
- University of Arkansas at Little Rock

Technology and Learning

The Office of Technology and Learning currently has seven staff members. During the local phase of the i3 grant study, our staff served 48 middle and high school teachers in 48 separate schools in Alabama. We have since expanded as we implement the national phase of the i3 study and we are now actively serving 63 middle and high school teachers in seven states by way of regional university partnerships.

How a Professional Learning Community Supports Educators



The Office of Technology and Learning provides professional development and technology support to i3 study participants.

Results of the ICF evaluation support the impact of the CORE Program interventions provided to i3 participating educators on college and career readiness improvements.

Current AASCU Projects

Jacksonville State University is one of 44 institutions selected nationwide to participate in the Re-Imagining the First Year project with a focus on redesigning first-year courses, instructional practices, and academic support to increase first-year learner success.

Jacksonville State University has been chosen to participate in the ETS WAVES study; this national project is motivated by an awareness that writing is a challenge, especially for at-risk students who may struggle to complete degrees from four-year postsecondary institutions.
