Assessment

Each fall during the Freshman Convocation, an incoming freshman is selected to ring the bell to mark the symbolic start to the new academic year.

Assessment

“Assessment is the systematic collection, review, and use of information about educational programs undertaken for the purpose of improving student learning and development.”¹ -

T. J. Marchese

JSU has a comprehensive system of continuous improvement that unites institutional research, strategic planning, operational planning, program review, and assessment of student learning. All pieces fit together to inform decision-making and purposeful improvements across every level of operations.

One important piece of this large puzzle is assessment of student learning. This assessment focuses on student learning outcomes and is facilitated by university-wide, college-level, department-level and classroom-level initiatives that assess student knowledge, engagement, and success. After the goals and objectives for learning are identified and defined, a workable assessment plan is required, if assessment is to succeed. A sample assessment plan shown in this section demonstrates 4 levels of measurement for an academic program. The framework and key questions that this assessment plan is based on are also available in this section.

Department heads and directors and other administrators can find additional assessment data and filter data by college, department or major on Tableau Server, JSU’s Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available by calling the Office of Institutional Research and Assessment at 782-8144 or 782-8157.

Assessment Plans

The sample assessment plan below demonstrates four levels of measurement for a graduate program ensuring students have the best opportunities to be successful. Level 1 refers to indirect measures of student learning that reflect student reaction or satisfaction. IDEA course evaluation items, like “Overall, this is an excellent course,” are examples of indirect measures. Level 2 is direct measurement of student knowledge, concepts or skills learned. Departments using C-BASE, or MFAT are measuring at level 2. Soon, we’ll have the Collegiate Learning Assessment as a Level 2 measure. Also, if you’re using a rubric to rate demonstration of concepts or skills learned, you are measuring at level 2. Level 3 refers to application of what was learned. We often use alumni or employer surveys for level 3. Level 3 must focus on changes in behavior or actions as a result of learning. Level 4 focuses on impact in the program or organization as a result of learning. Also known as business impact measures, your department may focus on student retention, graduation rates, or professional certifications awarded. The first two examples focus on JSU or your department as the point of impact related to student success, while the last example focuses on the profession or perhaps state-wide impact of more certified professionals. Take a look at your assessment plan and identify the levels of measurement. Also, make sure they’re identified under your e-objectives in PRISM. Contact OIRA at 8144 if you have any questions.

Sample Graduate Program Assessment Plan

Level	E-Objectives	Measures	Data Collection Method	Data Sources	Timing	Responsibility
1. Indirect	New students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	New Graduate Student Survey	Students	Beginning of first semester	Program Director
	Students will indicate satisfaction with courses by rating course excellence as at least 4 out of 5.	Item on IDEA Course Evaluation System	IDEA Course Evaluation	Students	Every semester	Faculty
	Graduating students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	Graduate Student Exit Survey	Students	During application for graduation	Office of Graduate Studies
2. Direct	Group comparisons will indicate statistically significant differences between pre- and post-tests for graduating students.	Accuracy on pre- and post-tests	Pre-test and Post-test	Students	End of course work	Program Director
	Student responses to questions asked during Comprehensive Orals will average to at least 4 out of 5	Average ratings on course knowledge discussion items	5-point rubric	Faculty on Orals committee	End of course work	Faculty Chair for Orals
3. Applied	Graduates will indicate that they use or plan to use at least 85% of the knowledge and skills that they learned from the program in their work.	Report of use of knowledge and skills	Alumni Survey	Graduates	1-3 years after graduation	Program Director
	Employers will indicate that graduates use or plan to use at least 80% of the knowledge and skills taught in the program.	Report of use of knowledge and skills	Employer Survey	Employers	3 months after alumni survey	Program Director
4. Impact	At least 85% of students will be retained in the program each academic year.	Monitored retention of students through program	Retention data each semester	Institutional Research & Assessment	Annually	Faculty Member
	At least 80% of students will make satisfactory academic progress each academic year.	Monitored student progress to graduation	Student progress reports	Faculty Advisor Records	Annually	Faculty Member

Assessment Framework and Key Questions

Levels of Assessment	Key Questions Answered
Level 1 INDIRECT: Reaction, Satisfaction and Planned Action	<ul style="list-style-type: none"> • Was the program relevant to students? • Was the program important to students' success? • Did the program provide new information? • Do students intend to use what they learned? • Would students recommend it to others? • Is there room for improvement with facilitation, materials, and the learning environment?
Level 2 DIRECT: Learning knowledge and skills	<ul style="list-style-type: none"> • Do students know what they are supposed to do with what they learned? • Do students know how to apply what they learned? • Are students confident to apply what they learned? • Did students gain new knowledge, skills, change their attitude, increase awareness?
Level 3 APPLIED: Application and Implementation	<ul style="list-style-type: none"> • How effectively are students applying what they learned? • How frequently are they applying what they learned? • If they are applying what they learned, what is supporting them? • If they are not applying what they learned, why not?
Level 4 IMPACT: Business or Professional Impact	<ul style="list-style-type: none"> • So what? • To what extent does student application of what they learned improve the measures the program was intended to improve? (Retention, graduation, etc.) • How did the program impact output, quality, cost, time, customer satisfaction, employee satisfaction, work habits? • What were the consequences of students' application of knowledge and skills acquired during the program, process, intervention, change? (certification, licensure, etc.) • How do we know it was the program that improved these measures?

JSU General Education Student Learning Outcomes

Upon graduation, all JSU students will be able to:

1. Demonstrate the ability to write competently
2. Demonstrate knowledge of mathematical concepts
3. Understand the role of American citizenship
4. Understand the role of science and the scientific method
5. Apply critical thinking and reasoning skills
6. Demonstrate basic computer skills
7. Demonstrate leadership skills
8. Experience engaging and excellent educational experiences, including:
 - a. enriching educational experiences,
 - b. active and collaborative learning,
 - c. academic challenge,
 - d. student-faculty interaction,
 - e. supportive campus environment, and
 - f. excellent courses.

JSU's Comprehensive System of Continuous Improvement

PRISM Planning and Reporting Schedule

Reporting	
October 15, 2011	All units complete 2010-2011 reporting by completing: <ul style="list-style-type: none"> • Results of Evaluation/Assessment • Use of Results • Status boxes for each objective • Significant Accomplishments
October 15, 2011	Annual Report of Significant Accomplishments provided to the President and Vice Presidents for 2010-2011.
Planning	
December 15, 2010	All units revise/develop and enter into PRISM their 2011-2012 plans with goals, objectives, evaluation strategies and new funding requests for 2011-2012.
February 1, 2011	Deans/AVPs review, revise and approve unit plan and requests.
March 1, 2011	Vice Presidents review and approve/disapprove unit plans and budget requests.

PRISM Planning and Reporting

All academic and non-academic units at Jacksonville State University are responsible for the planning and reporting that lead to increased student success and an improved learning environment. Goals, objectives, strategies, budget justifications, results, use of results, and significant accomplishments are documented in PRISM, JSU's web-based system for planning and reporting. Every unit develops operational goals and objectives in PRISM for administrative functions, professional development, strategic planning, and other functions. Unlike operational goals and objectives each unit is also responsible for developing e-goals and e-objectives that focus on student outcomes.

Below are guidelines for PRISM planning and reporting. Units should review the guidelines every year before finalizing PRISM planning due on December 15th and reporting due on October 15th.

PRISM Planning (Due December 15th)

Mission

- _____ 1. The unit's mission is clearly stated.
- _____ 2. The unit's mission is consistent with the purpose of the unit.
- _____ 3. The unit's mission clearly supports the University mission statement.

Goals

- _____ 4. The unit's goals are clearly stated.
- _____ 5. The unit's goals clearly support the unit's mission.
- _____ 6. The unit's goals are linked to the University's goals.
- _____ 7. The unit's e-goals are focused on student outcomes.

Objectives

- _____ 8. The unit's objectives are clearly stated.
- _____ 9. The unit's objectives are measurable.
- _____ 10. The unit's objectives are meaningful in supporting continuous improvement.
- _____ 11. The unit's e-objectives are focused on student outcomes.
- _____ 12. Academic units have at least 3 e-objectives related to student learning outcomes OR non-academic units have at least 1 e-objective related to student outcomes.

Strategy/Assessment/Success Criteria

- _____ 13. Strategies or criteria are documented for each objective.
- _____ 14. Strategies or criteria are appropriate for the objectives.
- _____ 15. The strategies or criteria are realistic.
- _____ 16. The assessment methods or tools are appropriate for the objectives being evaluated.

- _____ 17. Multiple methods of assessment are used where appropriate.
- _____ 18. Baseline or comparison data are provided.
- _____ 19. The methods of evaluation are consistent with best practices.

Budget Justification

- _____ 20. The budget requests are realistic.
- _____ 21. The budget request types are completed accurately.
- _____ 22. The budget justifications are clear.
- _____ 23. The budget justifications appropriately use data to support requests.

PRISM Reporting (Due October 15th)

Results

- _____ 24. Results, including data where appropriate, are clearly reported for all objectives.
- _____ 25. Results, including data where appropriate, are clearly reported for all methods of assessment.
- _____ 26. Well thought-out analyses of all objectives are presented.

Use of Results

- _____ 27. Actions prompted by the results are clearly described.
- _____ 28. Responses indicate thoughtful use of data for improvement.

Significant Accomplishments

- _____ 29. Significant accomplishments are clearly reported.

Improvement Across Years

- _____ 30. A review of PRISM plans & results across 3 years clearly demonstrates progress toward improvement of the unit.

The 2009-2010 Graduate Student Exit Survey Results

Of the 561 graduate students responding to the 2009-2010 Graduate Student Exit Survey, 66% were female, 34% were male. Over three-quarters (76%) were White, 20% were Black, 1% were Hispanic, and American Indian, Asian, and Pacific Islander made up another 1% of the respondents. Six percent were enrolled in Master of Arts programs, 26% in Master of Science programs, 4% in Master of Business Administration programs, 3% in Master of Science in Nursing program, 10% in Master of Public Administration programs, 32% in Master of Science in Education programs, and 19% in Educational Specialist programs. Nearly one-half (49%) earned their degree in two years or less.

Factors that impact students' decision to attend JSU the most:

- Reputation of their department (94%)
- Unique features of their degree program (93%)
- Cost of attending JSU (92%)
- JSU's reputation (90%)
- JSU's convenient location (85%)
- Availability of on-line courses (83%)

Perceptions of their degree program

- Nearly all indicated the overall quality of their program was good or excellent (94%);
- Nearly all respondents who were graduate assistants (14%) reported that they had a positive experience as a graduate assistant (96%);
- Nearly all respondents indicated that their program:
 - encouraged academic/professional interactions with other students (97%)
 - adequately prepared them for career (95%)
 - had adequate instructional supplies and equipment (97%)
 - requirements were explained clearly (94%)
 - had adequate classroom facilities (97%)
- Frequently had classes that required some form of research (84%);
- Faculty were highly competent instructionally (95%) and professionally (95%);
- Good quality of courses as preparation for employment after graduation (92%); and
- Good curricular advising (86%)

When asked to reflect on the courses they took toward their degree, nearly all indicated that:

- Courses provided an understanding of the major theories (98%), accepted professional practices (97%), necessary knowledge (97%), research methodology (98%), and necessary bibliographical skills (97%) in respondents' disciplines
- Faculty provided clear understanding of evaluation methods used in each class (97%) and of the class goals and requirements (97%), and allowed students a reasonable degree of freedom-independence in the way assignments were conducted (97%)
- The sequencing of courses was appropriate (95%)
- The evaluation methods, and grades awarded, properly differentiated levels of student performance (95%)

Perceptions of the University services

- Graduate Studies Office provided good advisement (92%), accurate information (95%) on admissions (97%) and graduation application procedures (94%), and had personnel who were courteous (97%) and prompt in responding to requests (94%).
- Houston Cole Library provided adequate library access for off-campus students (97%), personnel to meet the needs (97%), services (98%), book and periodical collections (98%), and operating hours (95%).
- Computer facilities/services provided adequate computer lab services (96%), academic computer software (97%) and hardware (98%), and operating hours (96%).
- Easy and convenient registration process (94%) and obtaining GEM account (96%) satisfied most.

The 2009-2010 New Student Survey Results

Of the 1224 prospective students responding to the 2009-2010 New Student Survey, 58% were female, 42% were male. Fifty-seven percent were 19 years of age or younger. The majority (81%) were not married. Nineteen percent had dependent children living with them. Thirty-six percent were first-generation college students. Fifty-six percent were first-time college students, 35% had transferred from elsewhere, and 6% were just taking a few courses. Forty percent were likely to reside in residence halls during their first semester. Most (70%) depended on their parents, relatives, or friends as the primary source of their first year educational expenses, 49% relied on Pell Grants, 36% on Federal direct loans, and 47% on other scholarships.

Their college choice

Factors that impacted their decision to attend college the most were:

- To be able to get a better job (80%)
- To be able to earn more money (79%)
- To learn more about things that interest them (75%)
- To gain a general education and appreciation of ideas (73%)
- To prepare for graduate or professional school (67%)

To obtain a bachelor's degree from JSU was the primary goal for the majority (85%).

A majority of respondents indicated the following were "very important" reasons for their decision to attend JSU:

- Availability of a particular program of study, or major (76%)
- JSU's academic reputation (64%)
- The variety of courses offered (59%)
- The availability of financial aid or scholarship (59%)
- The location of JSU (57%)
- Cost of tuition and fees (56%)

Nearly one-half (49%) learned about JSU through the JSU Web site, 45% from friends at JSU, and 44% from their parents or relatives.

Expectations

Nursing was the most popular choice of major (18%) followed by Elementary Education (6%), Criminal Justice (6%), Pre-Business Management (4%), Psychology (4%), and Emergency Management (3%).

Most respondents (67%) estimated that they would have a very good chance to earn a bachelor's degree at JSU. In addition, 67% expected to find a good job after graduation in the field for which they studied. Sixty-eight percent thought they would have no chance of failing any courses.

Over one-half (57%) anticipated spending up to 20 hours a week working on a job while studying at JSU, 28% spending 30 hours or more a week, and 13% would not be working. While a majority (78%) planned to spend 20-40 hours a week on school work, 13% planned to spend 50 hours a week and 6% planned to spend less than 20 hours a week on school work.

Self-rating

When compared to other people their age, a majority rated themselves above average or in the highest 10% in the following traits:

- Drive to achieve (82%)
- Cooperativeness (80%)
- Understanding of others (73%)
- Leadership ability (69%)
- Emotional health (67%)

The data were collected from summer 2009 through spring 2010.

The 2010 National Survey of Student Engagement (NSSE) Results

Jacksonville State University has participated in the National Survey of Student Engagement (NSSE) every other year since 2006. In spring 2010, 1636 freshmen and 1860 seniors were invited to participate. Ninety-two percent of the freshmen participants were traditional (less than 24 years of age) students and 50% of the seniors were reported as traditional. Full-time students made up 91% of the freshmen participants and 76% of the seniors. Over two-thirds of female participants (67% freshmen/67% seniors) completed the survey.

NSSE compared JSU data with that of southeastern public four year schools, universities in JSU's Carnegie classification, and with all NSSE 2010 participants. Mean comparisons suggested:

JSU students (freshmen and seniors)

- Were more likely to ask questions in class or contribute to class discussions;
- Were more likely to work with other students on projects during class;
- Were more likely to discuss grades or assignments with an instructor;
- Were more likely to discuss ideas from their readings or classes with faculty members outside of class;
- Were more likely to receive prompt written or oral feedback from faculty on their academic performance;
- Were more likely to work harder than they thought they could to meet instructor's standards or expectations;
- Were more likely to have serious conversations with students of a different race or ethnicity than their own;
- Were more likely to participate in activities to enhance their spirituality (worship, meditation, prayer, etc.);
- Were more likely to examine the strengths and weaknesses of their own views on a topic or issue;
- Reported higher quality of relationships with administrative personnel and offices, and faculty members than their peers;
- Were more likely to work for pay off campus and provide care for dependents living with them;
- Reported higher satisfaction with the quality of academic advising than their peers at other universities.

JSU seniors

- Were more likely to tutor or teach other students (paid or voluntary);
- Reported they were more likely to participate in a community-based project (e.g. service learning) as part of a regular course, use an electronic medium to discuss or complete an assignment, and use email to communicate with an instructor than their peers at other universities;
- Were more likely to talk about career plans with a faculty member or advisor;

- Were more likely to discuss ideas from their readings or classes with others (students, family members, co-workers, etc.) outside of class;
- Were more likely to memorize facts, ideas or methods from courses and readings;
- Reported they were more likely to take exams that challenged them to do their best work than their peers;
- Responded more favorably that their experience at JSU contributed to acquiring job or work-related knowledge and skills; writing clearly and effectively; using computing and information technology; working effectively with others; voting in local, state, or national elections; learning effectively on their own; and solving complex real-world problems.

JSU freshmen

- Were more likely to make a class presentation and to work with faculty members on activities other than coursework (committees, orientation, student life activities, etc.);
- Were more likely to memorize facts, ideas or methods from courses and readings; while they were less likely to analyze and apply theories and concepts for their course work;
- Were more likely to write papers or reports of 20 pages or more than their peers;
- Reported more likely to spend less than an hour to complete 3-4 homework problem sets than their peers;
- Reported higher quality of relationships with other students than their peers;
- Reported spending more hours per week commuting to class (driving, walking, etc.) than their peers;
- Reported higher satisfaction with their entire educational experience at JSU than their peers at other universities;
- Reported higher probability than their peers at other universities of choosing the same institution they were attending again if they would start over.
