## 2006-2007 Highlights

---

The Jacksonville State University College of Commerce and Business Administration is included in the 2006 Princeton Review of “The Best 237 Business Schools”. This places the JSU College of Business among the top 10% of all business schools in the US. In describing the JSU Business School, the Princeton Review quoted business students as follows: The [CCBA’s Administration] “... has good vision and is focused.” In commenting on the CCBA’s faculty, students explained they found them “... well-read, detail oriented, and dedicated professors who have good experience in the fields in which they teach.”

---

Beginning Fall 2006 the College of Commerce and Business Administration began offering its MBA in traditional format as well as online.

---

The effects of the Banner project were first seen on October 1, 2006, when the university finance system was replaced with Banner Finance. Changes continued with the human resources and payroll system being replaced with the Banner Human Resources and Payroll System on December 21, 2006, when the university produced its January 2007 monthly payroll checks. With the beginning of the new year came the go-live of the Banner Student System for student class registration on February 17, 2007, for the fall 2007 term. The Financial Aid Office began using Banner Financial Aid in February of 2007 and awarded the first financial aid to students in June of 2007. Students began paying money into the Banner Accounts Receivable on July 30, 2007, for the fall 2007 term. The first students were admitted in Banner Admissions on August 8, 2007. Students will soon be able to run their own Curriculum, Advising and Program Planning (CAPP) reports online, which is a replacement of the existing Degree Audit Report System (DARS).

---

New labs were established in Wallace Hall, which houses our nursing program; Brewer Hall, which houses our social work program; and the Field House.

---

JSU now provides wireless (WiFi) access to JSU students, faculty and staff at locations throughout the campus. This allows members of the university community to use their own computers or PDAs with wireless capability to access the Internet.
