

Setting Up Your Refund Preference

Jacksonville State University has partnered with BM Technologies to deposit your money, refund, or grant award quickly and securely.

In an email from BM Technologies - BankMobile, you were sent a Personal Activation Code. This Activation Code does not expire.

Go to: <https://www.refundselection.com>

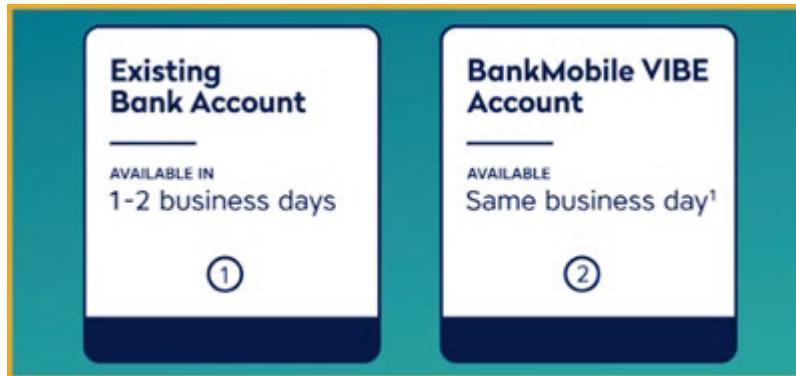

There are two options to deposit your money.

Have a username/password? Log in

Choose an option

Existing Bank Account: You will set up the deposit to transfer to your own existing checking/savings account. Each transfer from the Jacksonville State University, to BankMobile, to your account takes 1-2 business days for the money to transfer.

BankMobile Vibe Account: If you don't have a personal bank account or don't want to use your account, you can set up an account with BankMobile. It is a FTC insured, digital only banking product. Transfers are deposited the same business day.

If you have lost your activation code, a BM Technologies - BankMobile administrator can resend one to you. Go to: <https://www.refundselection.com>

I need a code

It's an easy process

1. Get started by requesting your personal code. Why is this needed? To confirm you are a student at your college or university.
2. Your code will be emailed to you. Come back and enter it to select your refund method.

For your security, please provide us with the information below.
