FINANCIAL LITERACY

REAL SKILLS. REAL MONEY. REAL LIFE.

the way you think about money.

WHAT STUDENTS ARE SAYING

After finishing Chapter 2, I realized my debt ratio is horrible. This class has really opened my eyes.

My boss is so excited I'm taking this course because she knows I need to work on my budgeting skills.

The real-world applications were my favorite assignments because they helped me connect what we learned to everyday life.

I didn't realize how important retirement planning was. I have been at my job almost 13 years and hadn't started. This class showed me I need to better prepare for my future.

I wish this class had been available when I first started college. It would have made such a difference.
