## About Me

Hi! My name is Linda Williams. I've been working in childcare for over 20 years with the military and the civilian. I have 7 children. I really enjoy working with the infants as they grow and develop. As a childcare provider I enjoy reading and doing activities that will help in their development in gross and fine motor skills. I enjoy talking and singing with the infants to help with their communication skills as well. I am looking forward to have a good year.
