Student Perception Survey (Subjective Faces)

The teacher or designee will read, "Today you will select a face to tell how you feel about your teacher. Look at the faces. The one with the biggest smile means that you strongly agree with the statement about your teacher. The one with the biggest frown means that you strongly disagree. The one with the straight face means that you don't have an opinion on the statement. The other two faces show that you agree or disagree but not strongly. Listen to each statement, then circle the face that shows how you feel."
