History of JSU

From modest beginnings, Jacksonville State University has evolved into the educational center of northeast Alabama. The Alabama Legislature in the 1882-83 session created a state normal school when Governor Edward O'Neal signed into law a bill creating the school on February 22, 1883. Jacksonville State Normal School acquired the facilities and equipment of Calhoun College, consisting of twelve acres of land and a two-story brick building. The Board of Directors elected James C. Ryals, Jr. as the first president. The school opened with three instructors: W. J. Borden, mathematics; Eliza A. Bowen, English; and Ida J. Woodward, primary department.

As stipulated in the establishing act, the Normal School conducted a preparatory school for children of the town and surrounding areas. At the end of the first year, on August 15, 1884, William Mark Haymes, President of the Board of Directors, reported that funds totaling \$4,751.25 had been received, including \$2,500 from the state, that 25 students were enrolled in the Normal School, and that 222 were in the preparatory school.

The Normal School remained in operation until 1930 when it became Jacksonville State Teachers College, reflecting an increasing higher education role for the Institution. Five years later, the College earned regional accreditation from the Southern Association of Colleges and Schools. In 1957, the name again changed to Jacksonville State College when the first graduate program - the master's degree in elementary education - was created. On August 2, 1966, the State Board of Education was authorized to elevate the college to university status. On August 17, 1967, the Legislature established an independent Board of Trustees for the University and divested jurisdiction from the State Board of Education.

Jacksonville State University has been served by eleven presidents: James G. Ryals, Jr. (1883-85); J. Harris Chappel (1885-86); Carlton Bartlett Gibson (1886-92); J. B. Jarrett (1892-93); Jacob Forney, IV (1893-99); Clarence William Daugette (1899-1942); Houston Cole (1942-71); Ernest Stone (1971-81); Theron E. Montgomery (1981-86); Harold J. McGee (1986-99); and William A. Meehan (1999-present).

Jacksonville State University has developed into a regional university serving northeast Alabama on a 459-acre campus with 59 buildings and multiple locations. Through its programs of teaching, research and service, Jacksonville State University has served the region and state for over 125 years.

William A. Meehan, President 1999 - Current

William A. Meehan has a long-term association with Jacksonville State University that began when he enrolled as a first-time freshman in 1968. He completed his Bachelor of Science in biology in 1972 and began a career in education that same year. He earned his Master's of Science degree in biology at Jacksonville State University in December of 1976 and returned in January 1977 to serve as an instructor in the Department of Biology. He completed a Doctorate of Education in the field of higher education administration from the University of Alabama.

Prior to becoming president, Dr. Meehan served in numerous administrative and teaching positions at the University. Among these are Coordinator of Medical Technology Program, Director of Academic Advisement, Assistant Vice President for Academic Affairs, Associate Vice President for Academic and Student Affairs, Acting Vice President for Academic Affairs and Acting Vice President for Institutional Advancement. He assumed the helm as president on July 1, 1999.

Dr. Meehan's expansive vision for JSU includes looking to the future while drawing on the strengths of the past. A top goal is knocking down the walls of the ivory tower through such innovations as distance education. Through the use of the internet the University is able to make a college education more accessible to those who work, or for other reasons are not able to reside on or near the main campus. Under Meehan's leadership, JSU is working to extend classrooms and remove barriers to a college degree.

President Meehan says JSU has a bright future, one that depends in large part on gaining more cooperation among the institutions of higher education, such as the state's community colleges. Meehan wants to turn JSU into a campus where education can be seen as a seamless process flowing from kindergarten through graduate school.

Overseeing the development of the University's first strategic plan, Dr. Meehan says that JSU will more accurately accomplish the institution's mission, which means integrating traditional academic programs with career oriented programs for students. His vision for the future is based on the philosophy that education is a utility for economic development.

Dr. Meehan has been and continues to be very active in numerous civic organizations. He has been an executive committee member of the Board of Directors of the United Way of East Central Alabama and is active in the area Chambers of Commerce of both Calhoun and Etowah Counties. He is a member of the First Baptist Church of Jacksonville, Alabama, and is married to the former Elizabeth Stevens. Together they are the parents of twin boys, Drew and Will, and a daughter, Carol Grace.

Southern Association of Colleges and Schools Commission on Colleges 2014 Reaffirmation

In 2014 we prepare for our Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) reaffirmation. Our Fact Book will serve as a source of information for JSU's faculty, staff and other stakeholders. The SACSCOC reaffirmation process is a collaborative effort that illustrates our commitment to institutional effectiveness and continuous improvement, all of which is measured in accordance with the accrediting standards. The reaffirmation process includes administrators, faculty and staff in a process that highlights academic excellence, integrity and service at JSU.

Please review our vision, mission, core values and strategies. These ensure that all departments, offices and initiatives are consistent with important components of our strategic plan. I look forward to the opportunity to showcase our strengths and commitment to continuous improvement during this comprehensive review process.

Each member of our university is part of this process. Whether you make your accomplishments visible in Digital Measures, define your department's student learning outcomes, assess student outcomes, use data for decision-making by participating in shared leadership through committees or other initiatives on campus, your contribution is important. I appreciate all of you and thank you for your continued work as we prepare for SACSCOC reaffirmation and improve JSU through excellent teaching, service, research and professional practices.

If you have questions about SACSCOC or the reaffirmation process, please contact Dr. Louise Clark, Chair of the SACSCOC Reaffirmation Committee, Dr. Alicia Simmons, Co-Chair or Dr. Rebecca Turner, SACSCOC Liaison.

Southern Association of Colleges and Schools Commission on Colleges Mission and Purpose

The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) is the regional accrediting body for Jacksonville State University (JSU). JSU is in the process of developing a compliance report for SACSCOC in preparation for a 2014 onsite peer review.

SACSCOC defines its mission as:

The Southern Association of Colleges and Schools Commission on Colleges is the regional body for the accreditation of degree-granting higher education institutions in the Southern states. The Commission's mission is the enhancement of educational quality throughout the region and the improvement of the effectiveness of institutions by ensuring that they meet standards established by the higher education community that address the needs of society and students. It serves as the common denominator of shared values and practices among the diverse institutions in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia, Latin America, and other international sites approved by the Commission on Colleges that award associate, baccalaureate, master's, or doctoral degrees. The Commission also accepts applications from other international institutions of higher education.

Accreditation by SACS Commission on Colleges signifies that the institution (1) has a mission appropriate to higher education, (2) has resources, programs, and services sufficient to accomplish and sustain that mission, and (3) maintains clearly specified educational objectives that are consistent with its mission and appropriate to the degrees it offers, and that indicate whether it is successful in achieving its stated objectives (SACS, 2012 p. 1).

Southern Association of Colleges and Schools (2012). Principles of Accreditation: Foundations for Quality Enhancement. Southern Association of Colleges and Schools Commission on Colleges: Atlanta, GA. p. 1.

SACSCOC describes accreditation as (SACS, 2012 p. 3):

- Participation in the accreditation process is voluntary and is an earned and renewable status.
- Member institutions develop, amend, and approve accreditation requirements.
- The process of accreditation is representative, responsive, and appropriate to the types of institutions accredited.
- Accreditation is a form of self-regulation.
- Accreditation requires institutional commitment and engagement.
- Accreditation is based upon a peer review process.
- Accreditation requires an institutional commitment to student learning and achievement.
- Accreditation acknowledges an institution's prerogative to articulate its mission, including a religious mission, within the recognized context of higher education and its responsibility to show that it is accomplishing its mission.
- Accreditation requires institutional commitment to the concept of quality enhancement through continuous assessment and improvement.
- Accreditation expects an institution to develop a balanced governing structure designed to promote institutional integrity, autonomy, and flexibility of operation.
- Accreditation expects an institution to ensure that its programs are complemented by support structures and resources that allow for the total growth and development of its students.

Southern Association of Colleges and Schools (2012). Principles of Accreditation: Foundations for Quality Enhancement. Southern Association of Colleges and Schools Commission on Colleges: Atlanta, GA. p. 3.

Southern Association of Colleges and Schools Commission on Colleges Reaffirmation Process

As part of the reaffirmation process, JSU will provide two separate documents.

1. Compliance Certification (Due September 20, 2013)

The Compliance Certification, submitted approximately fifteen months in advance of an institution's scheduled reaffirmation, is a document completed by the institution that demonstrates its judgment of the extent of its compliance with each of the Core Requirements, Comprehensive Standards, and Federal Requirements. Signatures by the institution's chief executive officer and accreditation liaison are required to certify compliance. By signing the document, the individuals certify that the process of institutional self assessment has been thorough, honest, and forthright, and that the information contained in the document is truthful, accurate, and complete (SACS, 2012, p. 7).

2. Quality Enhancement Plan (Due Mid-February 2014)

The Quality Enhancement Plan (QEP), submitted four to six weeks in advance of the on-site review by the Commission, is a document developed by the institution that (1) includes a process identifying key issues emerging from institutional assessment, (2) focuses on learning outcomes and/or the environment supporting student learning and accomplishing the mission of the institution, (3) demonstrates institutional capability for the initiation, implementation, and completion of the QEP, (4) includes broad-based involvement of institutional constituencies in the development and proposed implementation of the QEP, and (5) identifies goals and a plan to assess their achievement. The QEP should be focused and succinct (no more than seventy-five pages of narrative text and no more than twenty-five pages of supporting documentation or charts, graphs, and tables) (SACS, 2012, p. 7-8).

The reaffirmation process includes three reviews.

1. The Off-Site Review (November 5-8, 2013)

The Off-Site Reaffirmation Committee, composed of a chair and normally eight to ten evaluators, meets in Atlanta, Georgia, and reviews Compliance Certifications of a group of institutions to determine whether each institution is in compliance with all Core Requirements (except Core Requirement 2.12), Comprehensive Standards (except Comprehensive Standard 3.3.2), and Federal Requirements. The group of institutions evaluated, called a cluster, consists of no more than three institutions similar in governance and degrees offered. At the conclusion of the review, the Off-Site Reaffirmation Committee will prepare a separate report for each institution, recording and explaining its decisions regarding compliance. The report is forwarded to the respective institution's On-Site Reaffirmation Committee which makes its final determination on compliance (SACS, 2012, p.8).

2. The On-Site Review (April 8-10, 2014)

Following review by the Off-Site Reaffirmation Committee, an On-Site Reaffirmation Committee will conduct a focused evaluation at the campus to finalize issues of compliance with the Core Requirements, Comprehensive Standards, and Federal Requirements; provide consultation regarding the issues addressed in the QEP; and evaluate the acceptability of the QEP. At the conclusion of its visit, the On-Site Committee will finalize the Report of the Reaffirmation Committee, a written report of its findings noting areas of non-compliance, including the acceptability of the QEP. The Report of the Reaffirmation Committee, along with the institution's response to areas of non-compliance, will be forwarded to the Commission's Board of Trustees for review and action on reaffirmation (SACS, 2012, p. 8).

3. Review by the Commission's Board of Trustees (December 5-9, 2014)

The Committees on Compliance and Reports (C & R), standing committees of the Board, review reports prepared by evaluation committees and the institutional responses to those reports. A C & R Committee's recommendation regarding an institution's reaffirmation of accreditation is forwarded to the Executive Council for review. The Executive Council recommends action to the full Board of Trustees which makes the final decision on reaffirmation and any monitoring activities that it may require of an institution. The full Board convenes twice a year (SACS, 2012, p. 8-9).

Southern Association of Colleges and Schools (2012). Principles of Accreditation: Foundations for Quality Enhancement. Southern Association of Colleges and Schools Commission on Colleges: Atlanta, GA. p. 7-9.

2011-2016 Jacksonville State University Strategic Plan

Strategy #1 - Employ new methodologies and technologies in the classroom

JSU faculty are aware of the changing characteristics and behaviors of students as they relate to learning. The faculty change teaching styles as needed to better match students' learning styles. An attitude of achieving excellence in teaching currently exists among faculty at JSU. Couple that with the increased allocation of resources to attract quality students, and JSU can and will achieve a competitive advantage redefining and improving the classroom.

Strategic Objectives:

- 1.1 Create, furnish, equip, and staff a Teaching and Learning Center (TLC).
- 1.2 Create, furnish, equip, and staff a multimedia center.
- 1.3 Update and expand classroom technology.
- 1.4 Update and expand faculty technology.
- 1.5 Increase number of instructional design personnel.
- 1.6 Implement student portable computing program.

Strategy #2 - Expand quality online programs and services

Online programs provide the freedom that students need to work, care for families and engage in course work at times and locations convenient for them. Furthermore, quality online programs are in demand. Relationships with faculty, Blackboard and other service providers ensure that JSU carries the best in technology training and student learning assessment. Additionally, regional accrediting bodies, including the Southern Association on Colleges and Schools (SACS), require that online students receive comparable services to those available to traditional students.

Strategic Objectives:

- 2.1 Expand the number of online programs.
- 2.2 Develop new unique online programs that have universal appeal.
- 2.3 Develop a centralized process for establishing programs online.
- 2.4 Increase the number of instructional designers.
- 2.5 Raise adjunct faculty salaries to attract new qualified online instructors.
- 2.6 Create a certification program for online instructors.
- 2.7 Implement new technologies online and in the classroom.

Strategy #3 - Improve the campus experience

An emphasis on campus amenities that support the college experience continue to be an important draw for the student seeking a traditional campus experience. This strategy focuses on continued improvement of the JSU residential campus in an effort to attract and retain highly prepared students.

Strategic Objectives:

- 3.1 Develop a marketing plan for JSU events.
- 3.2 Increase campus outreach to the local community.
- 3.3 Invest in a firm to conduct a market study for constructing a Student Commons Building.
- 3.4 Re-establish and complete Paul Carpenter Village for all recognized JSU national Greek organizations.

Strategy #4 - Increase collaboration to better serve undergraduate students

The “Y” generation sees education as a commodity, so if they do not receive the service they expect, they go to another provider. At JSU, our student services personnel are committed to providing the best service possible. In fact, the National Survey on Student Engagement finds that JSU students often rank JSU’s support environment higher than the average of peer institutions.

Strategic Objectives:

- 4.1 Develop and maintain a virtual one stop shop.
- 4.2 Implement a customer service training campaign.
- 4.3 Establish a Professional Development Center for JSU employees.

Strategy #5 - Ensure student job readiness

JSU will gain competitive advantage when university graduates are productive members of society who are self-sufficient, giving more to their community than they receive. JSU has made strides in developing quality, productive citizens. Moreover, quality undergraduates and graduates are in demand and a skilled, trained work force are requirements of employers; healthy relationships with faculty, staff, employers and our workforce, ensure that JSU promotes collaboration among colleges and support services campus-wide. Through interactions with JSU services, departmental staff and faculty, students will learn about social, intellectual, cultural and physical development lifestyle choices.

Strategic Objectives:

- 5.1 Institute a university-wide Job Readiness Survey and Employer Survey, by major, to recent graduates and their employers.
- 5.2 Increase student awareness and understanding of professionalism in the workforce.
- 5.3 Increase service learning opportunities with a component of common student learning themes and outcomes.
- 5.4 Ensure all undecided undergraduate students (freshmen and transferring) receive career assessment as a pre-requisite for advisement.

Strategy #6 - Recruit and retain qualified undergraduate students

Understanding that students are choosing an institute of higher learning based on the institution's curriculum, services, and cost-effectiveness, we are beginning to develop relationships with qualified prospective students based on these advantages we currently hold over our competitors. Understanding that recruiting qualified students is the antecedent of retaining qualified students, we recognize the need to increase efforts by employing various efforts.

Strategic Objectives:

- 6.1 Better track students through the academic progression.
- 6.2 Implement the Strategic Enrollment Management Plan to increase recruitment and retention of qualified students.

Strategy #7 - Recruit and retain graduate students and streamline the graduate admissions process

Graduate students are primarily choosing institutions and programs on the basis of convenience and career enhancement. Convenience considerations include clarity and ease of the admission process, curricular requirements for an advanced degree, the availability of hybrid or blended, and online instructional formats. The commitment of the institution to accreditation of graduate programs, and the acquisition and maintenance of those accreditation assures rigorous program quality that meets the expectations of the marketplace and results in the recruitment of qualified students.

Strategic Objectives:

- 7.1 Ensure all graduate degree programs establish and adhere to application/admission deadlines.
- 7.2 Identify graduate programs where impediments to admission/retention exist due to unnecessary or redundant curricular requirements, and improve.
- 7.3 Develop a marketing plan to improve visibility of online and traditional graduate programs through more effective use of program websites and the online version of the graduate bulletin.

Strategy #8: - Increase international engagement for the University community

JSU seeks to increase the number of international students, foster curricular innovations and expand international collaboration. JSU is well positioned to build on current efforts to attract international students, provide English language support, expand study abroad opportunities for JSU students and faculty, and increase cultural exchange for the JSU community and its international partners.

Strategic Objectives:

- 8.1 Increase number of international students.
- 8.2 Foster curricular innovations that increase access to language and culture.
- 8.3 Expand international collaboration and cross-cultural opportunities.
- 8.4 Strengthen university infrastructure to support international students.

JSU Mission, Vision, Goals and Core Values

Mission Statement

Jacksonville State University provides distinctive educational, cultural and social experiences for a diverse student population. As a learning centered university, Jacksonville State University strives to challenge students academically in a responsive environment, meeting students' educational, career and personal goals. As an academic institution, Jacksonville State University seeks to produce broadly educated graduates prepared for global engagement. As a public, comprehensive university, Jacksonville State University promotes excellence in scholarly and service activities consistent with its academic and professional strengths.

Vision Statement

Jacksonville State University strives for continuous improvement as a learning centered community committed to developing the ability to think critically, solve problems creatively and collaboratively, and communicate effectively.

University Goals

1. Educate students to be productive, responsible citizens and effective leaders.
2. Advance student learning through academic excellence.
3. Increase student and faculty participation in research and service activities.
4. Create a diverse learning community that facilitates academic and professional excellence.
5. Effectively use technology to support learning, research, information management and evidence based decision-making.
6. Continuously improve administrative processes and services.
7. Enhance revenue growth and financial planning to ensure adequate fiscal resources for the University.

Core Values

1. Quality teaching to enhance student learning and leadership skills for employment, citizenship, and life-long development.
2. Academic as well as overall excellence in all aspects of university life.
3. The ethical, social, intellectual, cultural and physical development of students, faculty, and staff.
4. The support of intellectual and academic freedom, dialogue and the free exchange of ideas.
5. Building effective relationships and communication paths among departments, faculty, staff, students, and alumni.
6. Maintaining diversity in faculty, staff, and student body.
7. Enhanced efforts to accommodate students' understanding and needs regarding University policies and practices.
8. Enhanced use of and access to current technology.
9. Continuous improvement of a learning centered environment.

The U.S. Department of Homeland Security has designated September as National Preparedness Month. In response, the State of Alabama hosted its ninth annual Ready Alabama Day on September 6, 2012 at Jacksonville State University. Ready Alabama Day is a unique opportunity for professional and volunteer responders to interact with citizens by exhibiting response equipment, hosting interactive demonstrations, and stressing the importance of citizen preparedness. The goal of Ready Alabama Day is to increase public awareness about the importance of preparing for any type of disaster or emergency as well as demonstrating our state's response capabilities. Nearly 50 emergency response agencies along with students from area schools gathered outside the JSU Stadium for Ready Alabama Day.

Assessment

Assessment

“Assessment is the systematic collection, review, and use of information about educational programs undertaken for the purpose of improving student learning and development.”¹ -

T. J. Marchese

JSU has a comprehensive system of continuous improvement that unites institutional research, strategic planning, operational planning, program review, and assessment of student learning. All pieces fit together to inform decision-making and purposeful improvements across every level of operations.

One important piece of this large puzzle is assessment of student learning. This assessment focuses on student learning outcomes and is facilitated by university-wide, college-level, department-level and classroom-level initiatives that assess student knowledge, engagement, and success. After the goals and objectives for learning are identified and defined, a workable assessment plan is required if assessment is to succeed. A sample assessment plan shown in this section demonstrates 4 levels of measurement for an academic program. The framework and key questions that this assessment plan is based on are also available in this section.

Department heads and directors and other administrators can find additional assessment data and filter data by college, department or major on Tableau Server, JSU’s Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available by calling the Office of Planning and Research 782-8144 or 782-8157.

Assessment Plans

The sample assessment plan below demonstrates four levels of measurement for a graduate program ensuring students have the best opportunities to be successful. Level 1 refers to indirect measures of student learning that reflect student reaction or satisfaction. IDEA course evaluation items, such as “Overall, this is an excellent course,” are examples of indirect measures. Level 2 is direct measurement of student knowledge, concepts or skills learned. Departments using C-BASE, or MFAT are measuring at level 2. Soon, we’ll have the Collegiate Learning Assessment as a Level 2 measure. Also, if you’re using a rubric to rate demonstration of concepts or skills learned, you are measuring at level 2. Level 3 refers to application of what was learned. We often use alumni or employer surveys for level 3. Level 3 must focus on changes in behavior or actions as a result of learning. Level 4 focuses on impact in the program or organization as a result of learning. Also known as business impact measures, your department may focus on student retention, graduation rates, or professional certifications awarded. The first two examples focus on JSU or your department as the point of impact related to student success, while the last example focuses on the profession or perhaps state-wide impact of more certified professionals. Take a look at your assessment plan and identify the levels of measurement. Also, make sure they are identified under your Student Learning Outcomes in PRISM. Contact the Office of Planning and Research at extension 8144 if you have any questions.

Sample Graduate Program Assessment Plan

Level	Student Learning Outcome	Measures	Data Collection Method	Data Sources	Timing	Responsibility
1. Indirect	New students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	New Graduate Student Survey	Students	Beginning of first semester	Program Director
	Students will indicate satisfaction with courses by rating course excellence as at least 4 out of 5.	Item on IDEA Course Evaluation System	IDEA Course Evaluation	Students	Every semester	Faculty
	Graduating students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	Graduate Student Exit Survey	Students	During application for graduation	Office of Graduate Studies
2. Direct	Group comparisons will indicate statistically significant differences between pre- and post-tests for graduating students.	Accuracy on pre- and post-tests	Pre-test and Post-test	Students	End of course work	Program Director
	Student responses to questions asked during Comprehensive Orals will average to at least 4 out of 5	Average ratings on course knowledge discussion items	5-point rubric	Faculty on Orals committee	End of course work	Faculty Chair for Orals
3. Applied	Graduates will indicate that they use or plan to use at least 85% of the knowledge and skills that they learned from the program in their work.	Report of use of knowledge and skills	Alumni Survey	Graduates	1-3 years after graduation	Program Director
	Employers will indicate that graduates use or plan to use at least 80% of the knowledge and skills taught in the program.	Report of use of knowledge and skills	Employer Survey	Employers	3 months after alumni survey	Program Director
4. Impact	At least 85% of students will be retained in the program each academic year.	Monitored retention of students through program	Retention data each semester	Institutional Research & Assessment	Annually	Faculty Member
	At least 80% of students will make satisfactory academic progress each academic year.	Monitored student progress to graduation	Student progress reports	Faculty Advisor Records	Annually	Faculty Member

Assessment Framework and Key Questions

Levels of Assessment	Key Questions Answered
<p>Level 1 INDIRECT: Reaction, Satisfaction and Planned Action</p>	<ul style="list-style-type: none"> • Was the program relevant to students? • Was the program important to students' success? • Did the program provide new information? • Do students intend to use what they learned? • Would students recommend it to others? • Is there room for improvement with facilitation, materials, and the learning environment?
<p>Level 2 DIRECT: Learning knowledge and skills</p>	<ul style="list-style-type: none"> • Do students know what they are supposed to do with what they learned? • Do students know how to apply what they learned? • Are students confident to apply what they learned? • Did students gain new knowledge, skills, change their attitude, increase awareness?
<p>Level 3 APPLIED: Application and Implementation</p>	<ul style="list-style-type: none"> • How effectively are students applying what they learned? • How frequently are they applying what they learned? • If they are applying what they learned, what is supporting them? • If they are not applying what they learned, why not?
<p>Level 4 IMPACT: Business or Professional Impact</p>	<ul style="list-style-type: none"> • So what? • To what extent does student application of what they learned improve the measures the program was intended to improve? (Retention, graduation, etc.) • How did the program impact output, quality, cost, time, customer satisfaction, employee satisfaction, work habits? • What were the consequences of students' application of knowledge and skills acquired during the program, process, intervention, change? (certification, licensure, etc.) • How do we know it was the program that improved these measures?
<p>Level 5 ROI: Return on Investment</p>	<ul style="list-style-type: none"> • Do the monetary benefits of the improvement in impact measures outweigh the cost of the program?

2012 National Survey of Student Engagement (NSSE) Results

In spring 2012, 1,499 freshmen and 1,890 seniors were invited to participate in the National Survey of Student Engagement. One-thousand-forty-eight participants (441 or 29.42% freshmen and 607 or 32.12% seniors) responded. Ninety-two percent of the freshmen respondents were traditional (less than 24 years of age) students and 47% of the seniors were traditional. Full-time students made up 97% of the freshmen respondents and 76% of the seniors. Approximately two-thirds of respondents (65% freshmen/67% seniors) were females.

NSSE compared JSU data with that of southeastern public four year schools, universities in JSU's Carnegie classification, and with all NSSE 2012 participants. Mean comparisons suggested:

JSU students (freshmen and seniors)

- Were more likely to ask questions in class or contribute to class discussions;
- Were more likely to prepare two or more drafts of a paper or assignment before turning it in;
- Were more likely to work with other students on projects during class;
- Were more likely to work harder than they thought they could to meet an instructor's standards or expectations;
- Were more likely to work with faculty members on activities other than coursework (committees, orientation, student like activities, etc.);
- Were more likely to memorize facts, ideas or methods from courses and readings;
- Were more likely to read books (not assigned) on their own for personal enjoyment or academic enrichment;
- Were more likely to participate in activities to enhance their spirituality (worship, meditation, prayer, etc.);
- Were more likely to work for pay off campus, provide care for dependents living with them (parents, children, spouse, etc.), and commute to class (driving, walking, etc.);
- Responded more favorably that their experience at their university contributed to writing clearly and effectively ; speaking clearly and effectively; using computing and information technology; and developing a deepened sense of spirituality;
- Reported higher satisfaction with the quality of academic advising than their peers at other universities.

JSU seniors

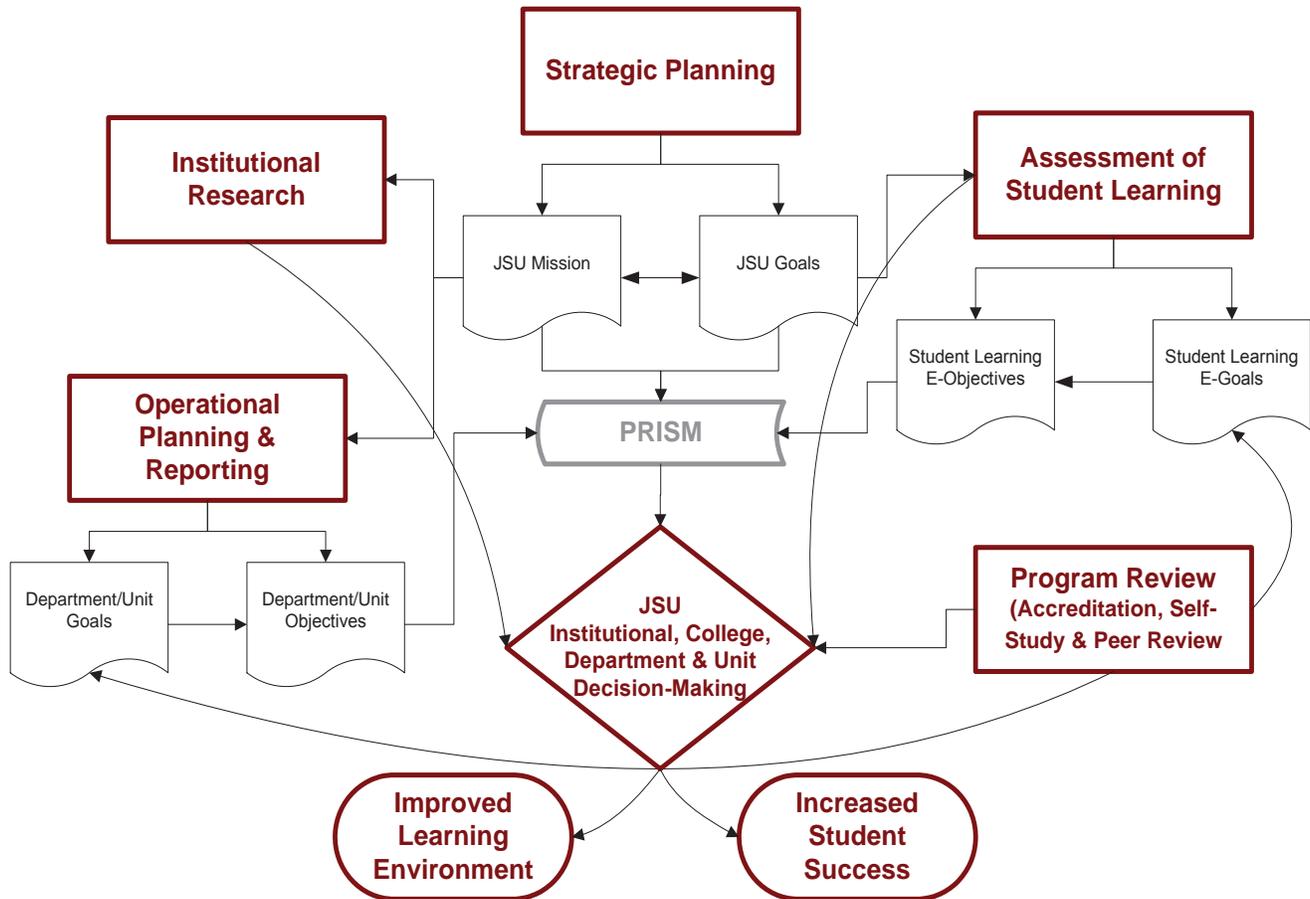

- Were more likely to use email to communicate with an instructor; to discuss grades or assignments with an instructor; to talk about career plans with a faculty or advisor; to discuss ideas from their readings or classes with faculty and others outside of class; to receive prompt written or oral feedback from faculty on their academic performance; and to have serious conversations with students of a different race or ethnicity than their own;
- Were more likely to take exams that challenged them to do their best work;
- Reported higher quality of relationships with other student, faculty members, and administrative personnel and offices;
- Were more likely to credit their collegiate environment for encouraging contact among students from different economic, social, and racial or ethnic backgrounds;
- Responded more favorably than their peers that their experience at their university contributed to voting in local, state, or national elections; learning effectively on their own; understanding themselves; and solving complex real-world problems.

JSU freshmen

- Were less likely to analyze the basic elements of an idea, experience, or theory; and synthesize and organize ideas, information, or experiences into new, more complex interpretations and relationships;
- Reported more likely to spend less than an hour to complete 3-4 homework problem sets than their peers;
- Were more likely to attend an art exhibit, play, dance, music, theater, or other performance;
- Were more likely to participate in co-curricular activities.

JSU's Comprehensive System of Continuous Improvement

PRISM Planning and Reporting Schedule

Reporting	
October 15, 2013	All units complete 2012-2013 reporting by completing: <ul style="list-style-type: none"> • Results of Evaluation/Assessment • Use of Results • Status boxes for each objective

Planning	
December 15, 2012	All units revise/develop and enter into Compliance Assist their 2013-2014 plans with goals, objectives, evaluation strategies and new funding requests for 2013-2014.
February 1, 2013	Deans/AVPs review, revise and approve unit plan and requests.
March 1, 2013	Vice Presidents review and approve/disapprove unit plans and budget requests.

PRISM Planning and Reporting

All academic and non-academic units at Jacksonville State University are responsible for planning and reporting that lead to increased student success and an improved learning environment as required by SACS Comprehensive Standard 3.3.1. This standard is based on the institutional effectiveness of every unit and department within the university, whether the unit is academic or non academic.

Goals, objectives, results, use of results, and budget justifications and requests are documented in Compliance Assist, JSU's web-based system for planning and reporting. Every unit develops operational goals, objectives and student learning outcomes in Compliance Assist for administrative functions, professional development, strategic planning, Program Review and other functions.

Below are guidelines for Compliance Assist planning and reporting. Units should review the guidelines every year before finalizing their planning documents which are due on December 15th and their reporting documents which are due on October 5th.

PRISM Planning (Due December 15th)

Mission

- 1. The unit's mission is clearly stated.
- 2. The unit's mission is consistent with the purpose of the unit.
- 3. The unit's mission clearly supports the University mission statement.

Goals

- 4. The unit's goals are clearly stated.
- 5. The unit's goals clearly support the unit's mission.
- 6. The unit's goals are related to the University's goals.

Objectives

- 7. The unit's objectives are clearly stated.
- 8. The unit's objectives are measurable.
- 9. The unit's objectives are meaningful in supporting continuous improvement.
- 10. The unit's objectives are related to the unit's goals.

Student Learning Outcomes (SLO)

- 11. SLOs are consistent with the unit's mission and goals.
- 12. SLOs are clearly stated.
- 13. SLOs are measurable.
- 14. SLOs are meaningful in supporting continuous improvement.
- 15. Academic units have at least 3 SLOs and non-academic units have at least 1 SLO.

Method of Measurement

- 16. Strategies or methods are documented for each objective/SLO.
- 17. Strategies or methods are appropriate for the objectives/SLOs.

- 18. The strategies or methods are realistic.
- 19. The assessment methods or tools are appropriate for the objectives/SLOs being evaluated.
- 20. Multiple methods of assessment are used where appropriate.
- 21. Baseline or comparison data are provided.
- 22. The methods of evaluation are consistent with best practices.

Budget Justification

- 23. The budget requests are realistic.
- 24. The budget request types are completed accurately.
- 25. The budget justifications are clear.
- 26. The budget justifications appropriately use data to support requests.

PRISM Reporting (Due October 15th)

Results for Objectives and Student Learning Outcomes

- 27. The academic year is noted above the information for the corresponding year.
- 28. Results, including data where appropriate, are clearly reported for all objectives.
- 29. Results, including data where appropriate, are clearly reported for all methods of assessment.
- 30. Well thought-out analyses of all objectives are presented.

Use of Results for Objectives and Student Learning Outcomes

- 31. The academic year is noted above the information for the corresponding year.
- 32. Actions prompted by the results are clearly described.
- 33. Responses indicate thoughtful use of data for improvement.
