History of Jacksonville State University

Jacksonville State University is a public, comprehensive university serving northeast Alabama by extending knowledge, skills, and resources to the community and the global market through classroom lecture and distance education, research, and service. The campus land inventory consists of 79 buildings across 464 acres in Jacksonville, Alabama, as well as off-site locations in Anniston, Gadsden, and Fort Payne, Alabama. Through its programs of teaching, research, and service, Jacksonville State University has served the region and state for over 125 years.

From modest beginnings, Jacksonville State University has evolved into the educational center of northeast Alabama. The Alabama Legislature, in the 1882-83 session, created a state normal school when Governor Edward O'Neal signed into law a bill creating the school on February 22, 1883. Jacksonville State Normal School acquired the facilities and equipment of Calhoun

College, consisting of twelve acres of land and a two-story brick building. The Board of Directors elected James C. Ryals, Jr. as the first president. The school opened with three instructors: W. J. Borden, mathematics; Eliza A. Bowen, English; and Ida J. Woodward, primary department.

As stipulated in the establishing act, the Normal School conducted a preparatory school for children of the town and surrounding areas. At the end of the first year, on August 15, 1884, William Mark Haymes, President of the Board of Directors, reported that funds totaling \$4,751.25 had been received, including \$2,500 from the state; that 25 students were enrolled in the Normal School; and that 222 were in the preparatory school.

The Normal School remained in operation until 1930 when it became Jacksonville State Teachers College, reflecting an increasingly higher education role for the Institution. Five years later, the College earned regional accreditation from the Southern Association of Colleges and Schools. In 1957, the name again changed to Jacksonville State College when the first graduate program - the master's degree in elementary education - was created.

On August 2, 1966, the State Board of Education was authorized to elevate the College to university status. On August 17, 1967, the Legislature established an independent Board of Trustees for the University and divested jurisdiction from the State Board of Education. Most recently, the Alabama Commission on Higher Education, during the June 2010 meeting, approved Jacksonville State University to offer a Doctor of Science in Emergency Management degree, beginning Fall 2011.

The Southern Association of Colleges and Schools Commission on Colleges, at its December 2010 Board of Trustees meeting, awarded Jacksonville State University membership at Level V to offer a Doctor of Science in Emergency Management.

Jacksonville State University has been served by twelve presidents: James G. Ryals, Jr. (1883-85); J. Harris Chappel (1885-86); Carlton Bartlett Gibson (1886-92); J. B. Jarrett (1892-93); Jacob Forney, IV (1893-99); Clarence William Daugette (1899-1942); Houston Cole (1942-71); Ernest Stone (1971-81); Theron E. Montgomery (1981-86); Harold J. McGee (1986-99); William A. Meehan (1999-2015); and John M. Beehler (2015-present).

Dr. John M. Beehler, President 2015-Current

Dr. John M. Beehler became the 12th president of Jacksonville State University on July 1, 2015, after more than 20 years of higher education leadership experience.

Most recently, he served as dean of the School of Business at Robert Morris University in Pittsburgh for the past three years. Over his academic administrative career, President Beehler previously served as founding provost and vice president for academic excellence and student success at the University of North Texas at Dallas, associate provost for economic initiatives and dean of the College of Business at Northern Kentucky University, dean of the School of Business at Wichita State University, and associate dean of the College of Business Administration at the University of Texas at Arlington.

He earned a Bachelor of Science with highest distinction in the Accounting Honors Program from The Pennsylvania State University and an MBA in finance and Ph.D. in accounting and taxation from Indiana University.

A certified public accountant, President Beehler has significant experience in college and university accounting and auditing. He is a graduate of the Harvard Institutes of Higher Education Management Development Program, the American Academic Leadership Institute's Executive Leadership Academy, and the AASCU New Presidents Academy.

President Beehler is committed to academic excellence, student success, community engagement and regional stewardship. He believes that universities need to become more innovative, entrepreneurial, and globally-focused in order to effectively impact professional practice and the future economic, social and cultural growth of their communities.

President Beehler and his wife, Dr. Pamela Beehler, have been married for 38 years and are both former college athletes. He played on the Penn State baseball team, while his wife played basketball and softball for the Nittany Lions. Dr. Beehler has had a distinguished academic career in her own right and holds a Ph.D. in human performance from Indiana University, with more than 30 years of university teaching and research experience.

The couple has one daughter who graduated from the U.S. Military Academy at West Point and serves as a Captain in the U.S. Army. The Beehlers enjoy sports, especially golf, tennis, running and cycling, while also enjoying the arts and music, traveling and reading.

Continuous Improvement... Responding to Reaffirmation

As we approach the submission of the SACSCOC 5th Year Interim Report in March, 2020, now is the perfect time to reevaluate and update our PRISM and Assessment plans so that we have 3 years of substantial data and are in complete compliance in the area of Institutional Effectiveness. Over the past 5 years, 47% of Track B institutions were cited as non-compliant in Comprehensive Standard 3.3.1., which deals with Institutional Effectiveness.

The theme of the Fact Book this year relates to JSU's Continuous Improvement process, of which Institutional Effectiveness is a part. SACSCOC defines Institutional Effectiveness as the "systematic, explicit, and documented process of measuring performance against mission in all aspects of an institution...." and stresses the importance of Institutional Effectiveness as follows: "A commitment to continuous improvement is at the heart of an ongoing planning and evaluation process. It is a continuous, cyclical process that is participative, flexible, relevant, and responsive." Resource Manual, SACSCOC (Revised 2012).

In the following pages we discuss JSU's System of Continuous Improvement as well as the data and tools (including new data based on Predictive Analytics) available to units for making data-driven decisions. In addition, with our upcoming 5th Year Report submission approaching, the Office of Institutional Effectiveness will begin offering Institutional Effectiveness/PRISM Workshops to all academic and administrative departments or units on campus.

The workshops will combine the knowledge of the leadership team of the specific unit or department as the expert in the field, with the knowledge of the Coordinator of Institutional Effectiveness (IE) as a trained SACSCOC Institutional Effectiveness reviewer. In this arrangement, the IE Coordinator works with the unit or departmental planning and assessment team in order to develop operational and assessment plans and then structure them so they comply with SACSCOC requirements. Units or Departments can choose to completely re-work their plans or fine tune the ones they are currently using.

All academic and administrative units/departments will be able to begin scheduling PRISM workshops for the months of April through September 2016. If you would like to schedule a workshop, please contact Kim Presson at 256-782-8142 or kpresson@jsu.edu.

INSTITUTIONAL EFFECTIVENESS

Institutional Effectiveness is a term that is used to describe the system and processes in which JSU makes continuous improvement a priority. JSU's system of continuous improvement interrelates Strategic Planning, Institutional Research, Assessment of Student Learning, Operational Planning, and Program Review, as described in the JSU Continuous Improvement Policy.

JSU is committed to the continuous improvement process which is driven by JSU's core values and supports a mission focused on improved learning and an improved learning environment for JSU students. This system of continuous improvement provides a framework of operation that makes JSU's strengths visible, enables informed decision making, and fuels efficiency. The Mission Statement and Goals direct the Strategic Plan, departmental goals and objectives, and therefore, influence recommendations for funding, operations, and learning outcomes.

Continuous Improvement... Responding to Reaffirmation

Roles and Responsibilities in Institutional Effectiveness

The components that make up the Continuous Improvement process are supported by the Office of Institutional Effectiveness and the Office of Institutional Research and Assessment within the Division for Research, Planning and Collaboration.

The Vice President for Research, Planning and Collaboration, the Director of Institutional Research and Assessment, the Coordinator of Institutional Effectiveness, and the Coordinator of Assessment have overall responsibility for supporting Institutional Effectiveness efforts on campus.

The Vice President for Research, Planning and Collaboration reports directly to the President and, along with the President, co-chair the Strategic Planning committee. The Director of Institutional Research and Assessment, the Coordinator of Institutional Effectiveness and the Coordinator of Assessment report directly to the Vice President for Research, Planning and Collaboration and each serve as staff representatives to the Institutional Effectiveness Committee.

The Director of Institutional Research and Assessment (OIRA) is primarily responsible for ensuring that institutional research and predictive analytics data are systematically collected from administrative databases and are prepared and disseminated.

The Coordinator of Institutional Effectiveness manages the PRISM and Program Review processes as well as the PRISM, Program Review, and Accreditation systems (Compliance Assist) that all departments use to document institutional effectiveness activities and progress. The Coordinator also oversees the development of the Fact Book and IR and Assessment “Quick Facts” publications, and conducts training and workshops for PRISM, Program Review, and other activities.

The Coordinator of Assessment manages JSU's assessment related data collection efforts and oversees coordination of ETS Proficiency Profile (EPP), IDEA Course Evaluations, Collegiate Learning Assessment (CLA), and the National Survey of Student Engagement (NSSE), in addition to student surveys, ensuring data is available on Tableau Server. The Coordinator of Assessment also works with departments across campus to support satisfaction and department-based alumni surveys.

Institutional Effectiveness and SACSCOC Accreditation

JSU's commitment to continuous improvement is built on a structure that is guided by the following Core Requirement and Comprehensive Standard related to the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Institutional Effectiveness standards:

SACSCOC Core Requirement 2.5:

The institution engages in ongoing, integrated, and institution-wide research-based planning and evaluation processes that (1) incorporate a systematic review of institutional mission, goals, and outcomes; (2) result in continuing improvement in institutional quality; and (3) demonstrate the institution is effectively accomplishing its mission.

Continuous Improvement... Responding to Reaffirmation

SACSCOC Comprehensive Standard 3.3.1:

The institution identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of improvement based on analysis of the results in each of the following areas:

- 3.3.1.1 Educational programs, to include student learning outcomes
- 3.3.1.2 Administrative support services
- 3.3.1.3 Academic and student support services
- 3.3.1.4 Research within its mission, if appropriate
- 3.3.1.5 Community/public service within its mission, if appropriate

Strategic Planning

The JSU Strategic Planning Committee is responsible for reviewing and updating the University Mission Statement every five years, as part of the strategic planning process. The University's most recent Strategic Plan was implemented in 2011-2016. The last review was conducted by the broad-based Strategic Planning Committee during the plan's development in 2010. This process sought input from discussion groups that read and discussed learning-centered literature and provided recommendations for what a learning-centered university would look like. JSU stakeholders and the Trustees reviewed the Strategic Plan and provided additional input and subsequently approved it in 2011.

Strategy Teams, consisting of a broad representation of JSU faculty, staff, administrators, and other stakeholders, monitor and report on the progress made for each of the nine strategies. In addition, strategy team leaders provide progress reports to the Strategic Planning Committee.

Institutional Research

JSU uses institutional research methods to systematically document various types of data including enrollment, student success outcomes including retention rates and graduation rates, etc. in order to provide valuable information for University administrators and JSU stakeholders.

The JSU Fact Book supports decision makers at all levels with institutional, admissions, enrollment, academic, faculty and staff, financial, and facilities data. This data is provided for multiple years, allowing users to conduct trend analysis.

Each term, OIRA provides Credit Hour Production Reports that are used in multiple ways, primarily to track current year enrollment and credit hour production with the previous year. This report is produced at multiple time frames for fall and spring terms, allowing administrators to identify course availability issues and faculty needs. It is also provided for all summer terms and compiled annually to provide an annual comparison of head count and credit hours, showing a this-year/last-year comparison. Credit hour data are also compiled into a 10-Year Credit Hour Report that is frequently used by department heads, deans, the Provost, and President as a factor in determining whether faculty vacancies are approved for recruitment. This report provides fall, spring, and summer credit hours for undergraduate and graduate courses, and the number of courses and sections offered by department,

Continuous Improvement... Responding to Reaffirmation

college, and institution. Evidence is also shared with faculty, staff, students, and administrators via University committees to support informed decision making and recommendations.

Assessment of Student Learning

Institution-Level Assessment

Institutional Research and Assessment collects data for use across the University, including indirect, direct, applied, and program impact measures.

To support the University in using institution-level assessment results, OIRA publishes results annually to Tableau Server, a repository of visualized data reports that allows users to filter results by college, department, and degree. Survey results are provided through assessment quick facts publications that provide results in a visually pleasing format. The “Assessment Quick Facts” are distributed to all departments on campus for reference and use in PRISM reports.

Department/Program-Level Assessment

Departmental and program-level assessment is coordinated by the individual units, with support from OIRA and assigned assessment professionals within colleges. These units have access to all institutional level direct and indirect data through Tableau Server, which allows units to filter the data for college, department, and programs. Programs also develop or use nationally-normed major fields tests, licensing tests, embedded tests, rubrics, and other direct measures of student learning related to program-level student learning outcomes.

Operational Planning and Reporting

PRISM/Compliance Assist is the University’s centralized database for planning and reporting. It houses the University Strategic Plan and Change Management Plan; division-, college-, and department-level operational plans; department- and program-level assessment plans, and reports. Plans are updated annually by December 15, and reports are due by October 15 each year, to give each department an opportunity to review results, discuss the implications, and determine how those results will be used to improve the department. JSU provides PRISM guidelines for units to use in developing their operational and assessment plans and reports.

Operational Planning

Operational plans support the University’s Strategic Plan and typically focus on faculty and staff development, technology needs, facilities and space requirements, and management of other programmatic needs that improve efficiency, increase effectiveness, and enhance the learning environment for students. During the planning phase, all JSU units prepare or update operational plans in PRISM, which include goals and objectives. For each objective, the unit may request additional funding. By the end of January, each dean reviews the unit plans and budget requests. Dean-approved budget requests are then reviewed by Vice Presidents in February, and in March, all approved budget requests are then reviewed by the Vice Presidents collaboratively to identify priorities and determine possible sources of funding. Vice Presidents’ priorities are then taken to the budget subcommittee of the Strategic Planning Committee for further review and prioritization. The Strategic Planning Committee then

Continuous Improvement... Responding to Reaffirmation

approves and submits the prioritized budget requests to the long-standing University Budget Committee, which makes recommendations to the President for budgeting and funding the next fiscal year's budget.

The Operational Plan also connects all units to the University budgeting process. Departments document budget requests and budget justifications related to their operational plan goals and objectives. These requests are then collected and reviewed by administrators, who often compile related requests; for example, multiple requests for funds for improving classroom technology were compiled into one large request.

Operational Reporting

The main focus of Operational Reporting is evidence-based data-driven decision making. During the reporting phase, units update the Results and Use of Results for their unit Objective and Assessment outcomes in PRISM.

With the use of specific measurable objectives, units report the data in the Results section and then state any decisions they make based on the data they report. Decisions may range from continuing on with the objective by using the same method of measurement that is showing continuous improvement or by changing the method of measurement in order to progress toward achieving the objective.

Program Review

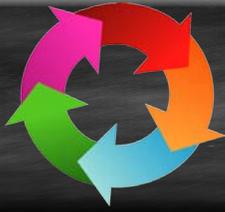

A Program Review cycle typically spans 18 months, beginning with orientation and training in the fall term. After training, units prepare self-studies (academic and administrative), which involve collecting data, surveys, and other important evidence supporting quality, demand, and needs of the unit.

The onsite peer review results in recommendations for improvement. Review teams typically consist of one JSU chairperson who serves the team as host and JSU expert and two external reviewers with expertise and experience related to the unit's mission. Visits include interviews with stakeholders, gathering of information not found in the self-study, and development of the report. Once recommendations are received, departments respond to the recommendations and meet with their supervisors, including the Vice President for the division. At the end of each cycle of Program Review, reports to the President summarize onsite review recommendations.

Predictive Analytics

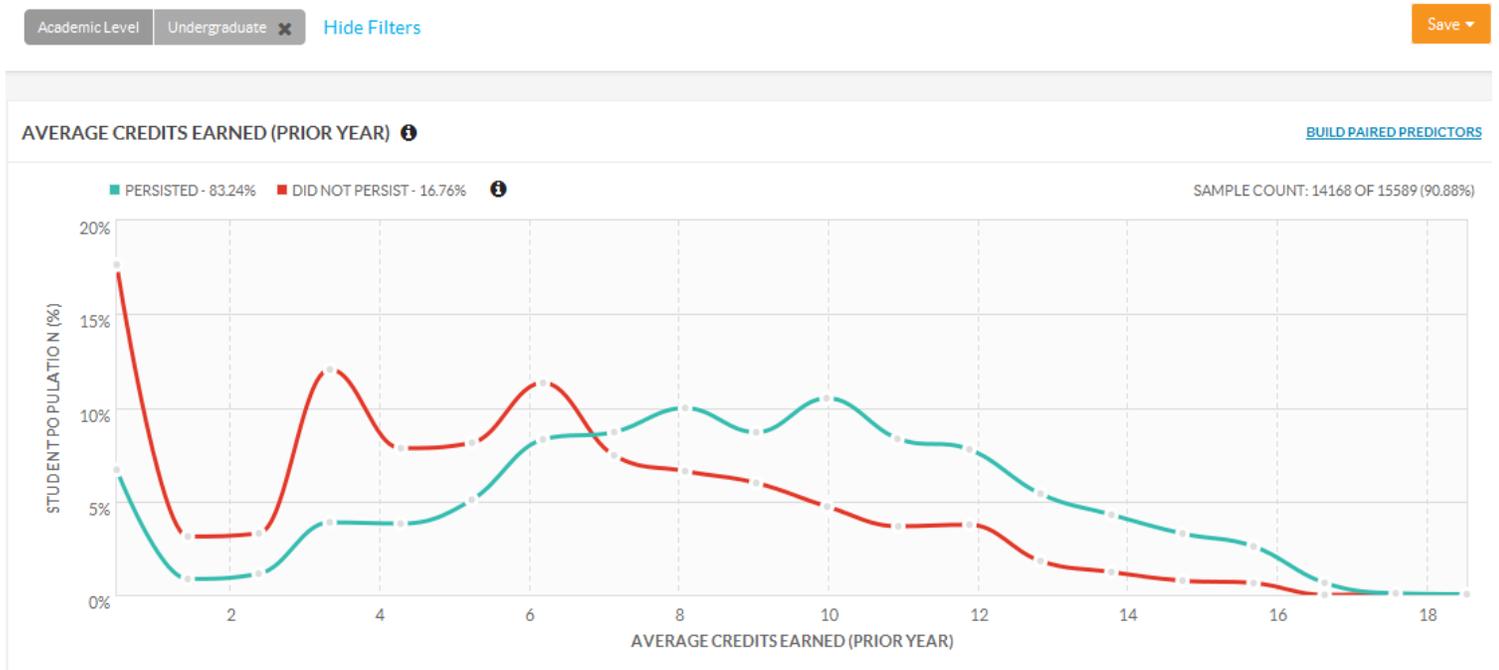

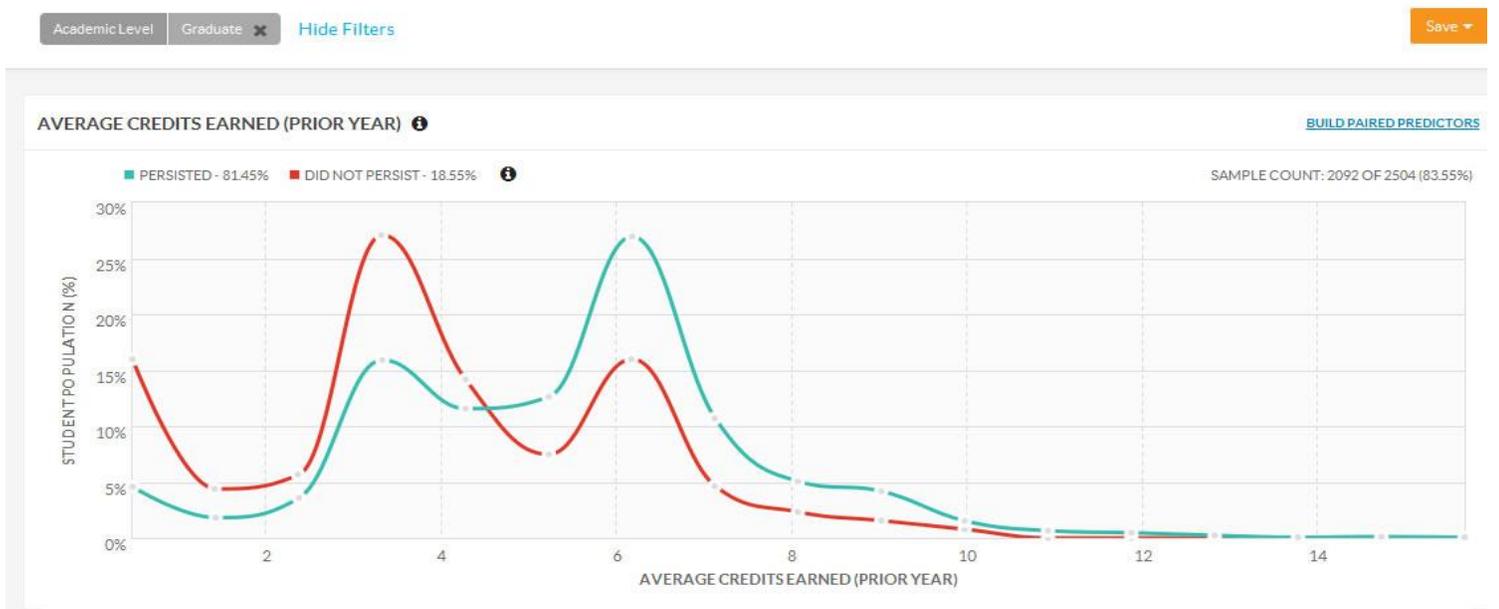

Jacksonville State University was among the early partners with Civitas Learning, joining the higher education community in the fall of 2013. As a result, JSU has been thoughtfully introducing a shift from relying solely on descriptive analytics to embracing predictive and prescriptive analytics across the institution by actively using the Civitas Learning platform and Illume® application.

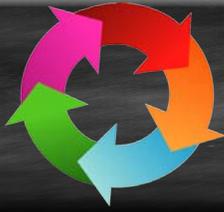

Illume is a powerful application, giving JSU the ability to dive deep into our data and surface insights and unseen correlations. This level of data access provides profound context for understanding the dynamics of student characteristics, policies, and institutional initiatives on student persistence.

Continuous Improvement... Responding to Reaffirmation

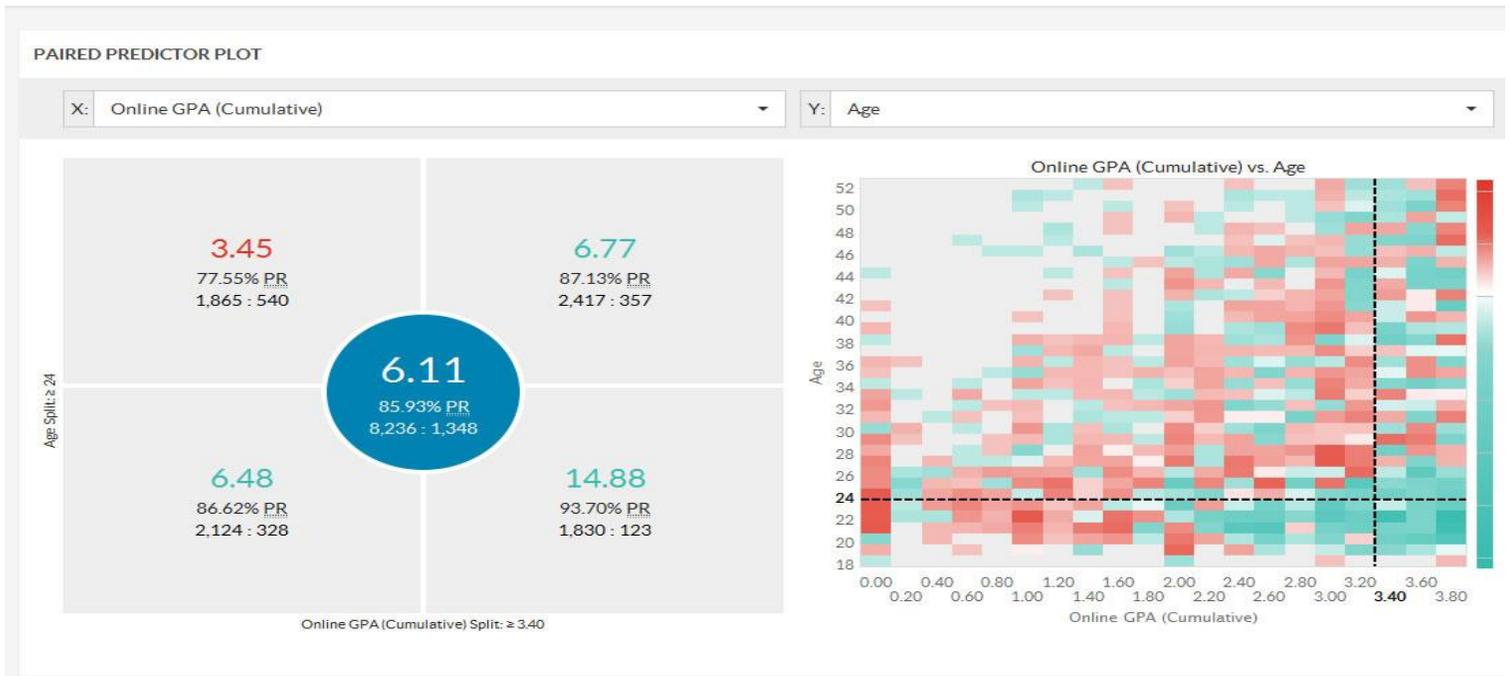

One example of an insight recently shared with the University Council is the plot of graduate student average credits earned in the previous year. It indicates that graduate students taking more than four credit hours are more likely to persist than graduate students taking three or fewer credit hours. This insight provides an opportunity for faculty and advisors to act by encouraging graduate students to take an additional course, and invest more in their commitment to graduate with a degree. As a comparison, undergraduate students taking more than six credit hours are more likely to persist than those taking six or fewer.

Continuous Improvement... Responding to Reaffirmation

Another insight impacts advising and services to nontraditional students, who represent the JSU average age of 25-years-old. In the last 10 years, JSU created opportunities for nontraditional students to attend college by offering more online courses and degrees. As a result, 46% of all JSU students are registered for at least one online course. Using Illume’s paired predictor plot (shown below) on age and online GPA it was discovered that students younger than 24 with GPAs of 3.4 or higher are much more likely to persist than students older than 24 with a GPA of less than 3.4.

Although predictive analytics insights like these often lead to more questions, the benefit is that the analysis is built on many years of JSU student data that indicate student behaviors related to persistence over time. This means the analysis provides opportunities for action and decision making that can impact student persistence. It’s an exciting new opportunity for decision makers on our campus.

Conclusion

Over the past several years, the Division for Research, Planning and Collaboration has developed and maintained sound and sustainable systems for collecting data, sharing results, and using results as well as developing training and workshops geared toward units and individuals in order to support Continuous Improvement and data driven decision making. As we add predictive analytics to the data and support we currently supply, we envision that the users of the data we supply will have the tools to make better decisions to affect Continuous Improvement in their areas.

Jacksonville State University 2011-2016 Strategic Plan

Strategy 1

Employ new methodologies and technologies in the classroom

JSU faculty are aware of the changing characteristics and behaviors of students as they relate to learning. The faculty change teaching styles as needed to better match students' learning styles. An attitude of achieving excellence in teaching currently exists among faculty at JSU. Couple that with the increased allocation of resources to attract quality students, and JSU can and will achieve a competitive advantage redefining and improving the classroom.

Strategic Objectives:

- 1.1 Create, furnish, equip, and staff a Teaching and Learning Center (TLC).
- 1.2 Create, furnish, equip, and staff a multimedia center.
- 1.3 Update and expand classroom technology.
- 1.4 Update and expand faculty technology.
- 1.5 Increase number of instructional design personnel.
- 1.6 Implement student portable computing program.

Strategy 2

Expand quality online programs and services

Online programs provide the freedom that students need to work, care for families and engage in course work at times and locations convenient for them. Furthermore, quality online programs are in demand. Relationships with faculty, Blackboard and other service providers ensure that JSU carries the best in technology training and student learning assessment. Additionally, regional accrediting bodies, including the Southern Association on Colleges and Schools Commission on Colleges (SACSCOC), require that online students receive comparable services to those available to traditional students.

Strategic Objectives:

- 2.1 Expand the number of online programs.
- 2.2 Develop new unique online programs that have universal appeal.
- 2.3 Develop a centralized process for establishing programs online.
- 2.4 Increase the number of instructional designers.
- 2.5 Raise adjunct faculty salaries to attract new qualified online instructors.
- 2.6 Create a certification program for online instructors.
- 2.7 Implement new technologies online and in the classroom.

Strategy 3

Improve the campus experience

An emphasis on campus amenities that support the college experience continues to be an important draw for the student seeking a traditional campus experience. This strategy focuses on continued improvement of the JSU residential campus in an effort to attract and retain highly prepared students.

Strategic Objectives:

- 3.1 Develop a marketing plan for JSU events.
- 3.2 Increase campus outreach to the local community.
- 3.3 Invest in a firm to conduct a market study for constructing a Student Commons Building.
- 3.4 Re-establish and complete Paul Carpenter Village for all recognized JSU national Greek organizations

Jacksonville State University

2011-2016 Strategic Plan

Strategy 4

Increase collaboration to better serve undergraduate students

The “Y” generation sees education as a commodity, so if they do not receive the service they expect, they go to another provider. At JSU, our student services personnel are committed to providing the best service possible. In fact, the National Survey on Student Engagement finds that JSU students often rank JSU’s support environment higher than the average of peer institutions.

Strategic Objectives:

- 4.1 Develop and maintain a virtual one stop shop.
- 4.2 Implement a customer service training campaign.
- 4.3 Establish a Professional Development Center for JSU employees.

Strategy 5

Ensure student job readiness

JSU will gain competitive advantage when university graduates are productive members of society who are self-sufficient, giving more to their community than they receive. JSU has made strides in developing quality, productive citizens. Moreover, quality undergraduates and graduates are in demand and a skilled, trained work force is a requirement of employers; healthy relationships with faculty, staff, employers and our workforce, ensure that JSU promotes collaboration among colleges and support services campus-wide. Through interactions with JSU services, departmental staff and faculty, students will learn about social, intellectual, cultural and physical development lifestyle choices.

Strategic Objectives:

- 5.1 Institute a university-wide Job Readiness Survey and Employer Survey, by major, to recent graduates and their employers.
- 5.2 Increase student awareness and understanding of professionalism in the workforce.
- 5.3 Increase service learning opportunities with a component of common student learning themes and outcomes.
- 5.4 Ensure all undecided undergraduate students (freshmen and transferring) receive career assessment as a pre-requisite for advisement.

Strategy 6

Recruit and retain qualified undergraduate students

Understanding that students are choosing an institute of higher learning based on the institution’s curriculum, services, and cost-effectiveness, we are beginning to develop relationships with qualified prospective students based on these advantages we currently hold over our competitors. Understanding that recruiting qualified students is the antecedent of retaining qualified students, we recognize the need to increase efforts by employing various approaches.

Strategic Objectives:

- 6.1 Better track students through the academic progression.
- 6.2 Implement the Strategic Enrollment Management Plan to increase recruitment and retention of qualified students.

Jacksonville State University

2011-2016 Strategic Plan

Strategy 7

Recruit and retain graduate students and streamline the graduate admissions process

Graduate students are primarily choosing institutions and programs on the basis of convenience and career enhancement. Convenience considerations include clarity and ease of the admission process, curricular requirements for an advanced degree, the availability of hybrid or blended, and online instructional formats. The commitment of the institution to accreditation of graduate programs, and the acquisition and maintenance of those accreditations assure rigorous program quality that meets the expectations of the marketplace and results in the recruitment of qualified students.

Strategic Objectives:

- 7.1 Ensure all graduate degree programs establish and adhere to application/admission deadlines.
- 7.2 Identify graduate programs where impediments to admission/retention exist due to unnecessary or redundant curricular requirements, and improve.
- 7.3 Develop a marketing plan to improve visibility of online and traditional graduate programs through more effective use of program websites and the online version of the graduate bulletin.

Strategy 8

Increase international engagement for the University community

JSU seeks to increase the number of international students, foster curricular innovations and expand international collaboration. JSU is well positioned to build on current efforts to attract international students, provide English language support, expand study abroad opportunities for JSU students and faculty, and increase cultural exchange for the JSU community and its international partners.

Strategic Objectives:

- 8.1 Increase number of international students.
- 8.2 Foster curricular innovations that increase access to language and culture.
- 8.3 Expand international collaboration and cross-cultural opportunities.
- 8.4 Strengthen university infrastructure to support international students.

Strategy 9

Increase research and collaboration

As a learning centered university, JSU will continue to strengthen the centralized infrastructure to support research and collaboration among faculty, staff, students and community partners. Sponsored project support is provided throughout the entire life cycle to include pre-award, award and post award activities.

Strategic Objectives:

- 9.1 Increase total awards.
- 9.2 Strengthen infrastructure to support sponsored programs.
- 9.3 Increase the number of faculty and staff participating in grant activities.
- 9.4 Strengthen capacity to implement complex, highly-visible grants.

Jacksonville State University

Mission - Vision - Goals - Core Values

Mission Statement

Jacksonville State University provides distinctive educational, cultural and social experiences for a diverse student population. As a learning centered university, Jacksonville State University strives to challenge students academically in a responsive environment, meeting students' educational, career and personal goals. As an academic institution, Jacksonville State University seeks to produce broadly educated graduates prepared for global engagement. As a public, comprehensive university, Jacksonville State University promotes excellence in scholarly and service activities consistent with its academic and professional strengths.

Vision Statement

Jacksonville State University strives for continuous improvement as a learning centered community committed to developing the ability to think critically, solve problems creatively and collaboratively, and communicate effectively.

University Goals

1. Educate students to be productive, responsible citizens and effective leaders.
2. Advance student learning through academic excellence.
3. Increase student and faculty participation in research and service activities.
4. Create a diverse learning community that facilitates academic and professional excellence.
5. Effectively use technology to support learning, research, information management and evidence based decision-making.
6. Continuously improve administrative processes and services.
7. Enhance revenue growth and financial planning to ensure adequate fiscal resources for the University.

Core Values

1. Quality teaching to enhance student learning and leadership skills for employment, citizenship, and life-long development.
2. Academic as well as overall excellence in all aspects of university life.
3. The ethical, social, intellectual, cultural and physical development of students, faculty, and staff.
4. The support of intellectual and academic freedom, dialogue and the free exchange of ideas.
5. Building effective relationships and communication paths among departments, faculty, staff, students, and alumni.
6. Maintaining diversity in faculty, staff, and student body.
7. Enhanced efforts to accommodate students' understanding and needs regarding University policies and practices.
8. Enhanced use of and access to current technology.
9. Continuous improvement of a learning centered environment.

Houston Cole Library on Spring Preview Day 2015.

Accrediting Agencies

AACSB International - The Association to Advance Collegiate Schools of Business
 AAFCS - American Association of Family and Consumer Sciences
 ABAI - Association for Behavior Analysis International
 ACEJMC - Accrediting Council on Education in Journalism and Mass Communication
 ACEND - Accreditation Council for Education in Nutrition and Dietetics
 ATMAE - Association for Technology, Management and Applied Engineering
 CAC of ABET - Computing Accreditation Commission of Accreditation Board of Engineering and Technology
 CACREP - Council for Accreditation of Counseling and Related Educational Programs

CCNE - Commission on Collegiate Nursing Education
 CSWE - Council on Social Work Education
 NASAD - National Association of Schools of Art and Design
 NASM - National Association of Schools of Music
 NASPAA - National Association of Public Affairs and Administration
 NAST - National Association of Schools of Theatre
 NCATE - National Council for Accreditation of Teacher Education
 SACSCOC - Southern Association of Colleges and Schools Commission on Colleges

Institutional Effectiveness

Institutional Effectiveness

Institutional Effectiveness is a term that is used to describe the system and processes in which JSU makes continuous improvement a priority. JSU's system of continuous improvement interrelates Strategic Planning, Institutional Research, Assessment of Student Learning, Operational Planning, and Program Review, as described in the JSU Continuous Improvement Policy.

JSU is committed to the continuous improvement process which is driven by JSU's core values and supports a mission focused on improved learning and an improved learning environment for JSU students. This system of continuous improvement provides a framework of operation that makes JSU's strengths visible, enables informed decision making, and fuels efficiency. The Mission Statement and Goals direct the Strategic Plan, departmental goals and objectives, and therefore, influence recommendations for funding, operations, and learning outcomes.

Roles and Responsibilities in Institutional Effectiveness

The components that make up the Continuous Improvement process are supported by the Office of Institutional Effectiveness and the Office of Institutional Research and Assessment within the Division for Research, Planning and Collaboration.

The Vice President for Research, Planning and Collaboration, the Director of Institutional Research and Assessment, the Coordinator of Institutional Effectiveness, and the Coordinator of Assessment have overall responsibility for supporting Institutional Effectiveness efforts on campus.

The Vice President for Research, Planning and Collaboration reports directly to the President and, along with the President, co-chair the Strategic Planning committee. The Director of Institutional Research and Assessment, the Coordinator of Institutional Effectiveness and the Coordinator of Assessment report directly to the Vice President for Research, Planning and Collaboration and each serve as staff representatives to the Institutional Effectiveness Committee.

The Director of Institutional Research and Assessment is primarily responsible for ensuring that institutional research and predictive analytics data are systematically collected from administrative databases and are prepared and disseminated.

The Coordinator of Institutional Effectiveness manages the PRISM and Program Review processes as well as the PRISM, Program Review, and Accreditation systems (Compliance Assist) that all departments use to document institutional effectiveness activities and progress. The Coordinator of Institutional Effectiveness also oversees the development of the Fact Book and IR and Assessment "Quick Facts" publications, and conducts training and workshops for PRISM, Program Review, and other activities.

The Coordinator of Assessment manages JSU's assessment related data collection efforts and oversees coordination of CBASE, IDEA, CLA, and NSSE, in addition to student surveys, ensuring data is available on Tableau Server. The Coordinator of Assessment also works with departments across campus to support satisfaction and department-based alumni surveys.

Institutional Effectiveness and SACSCOC Accreditation

JSU's commitment to continuous improvement is built on a structure that is guided by the following Core Requirement and Comprehensive Standard related to the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Institutional Effectiveness standards:

SACSCOC Core Requirement 2.5:

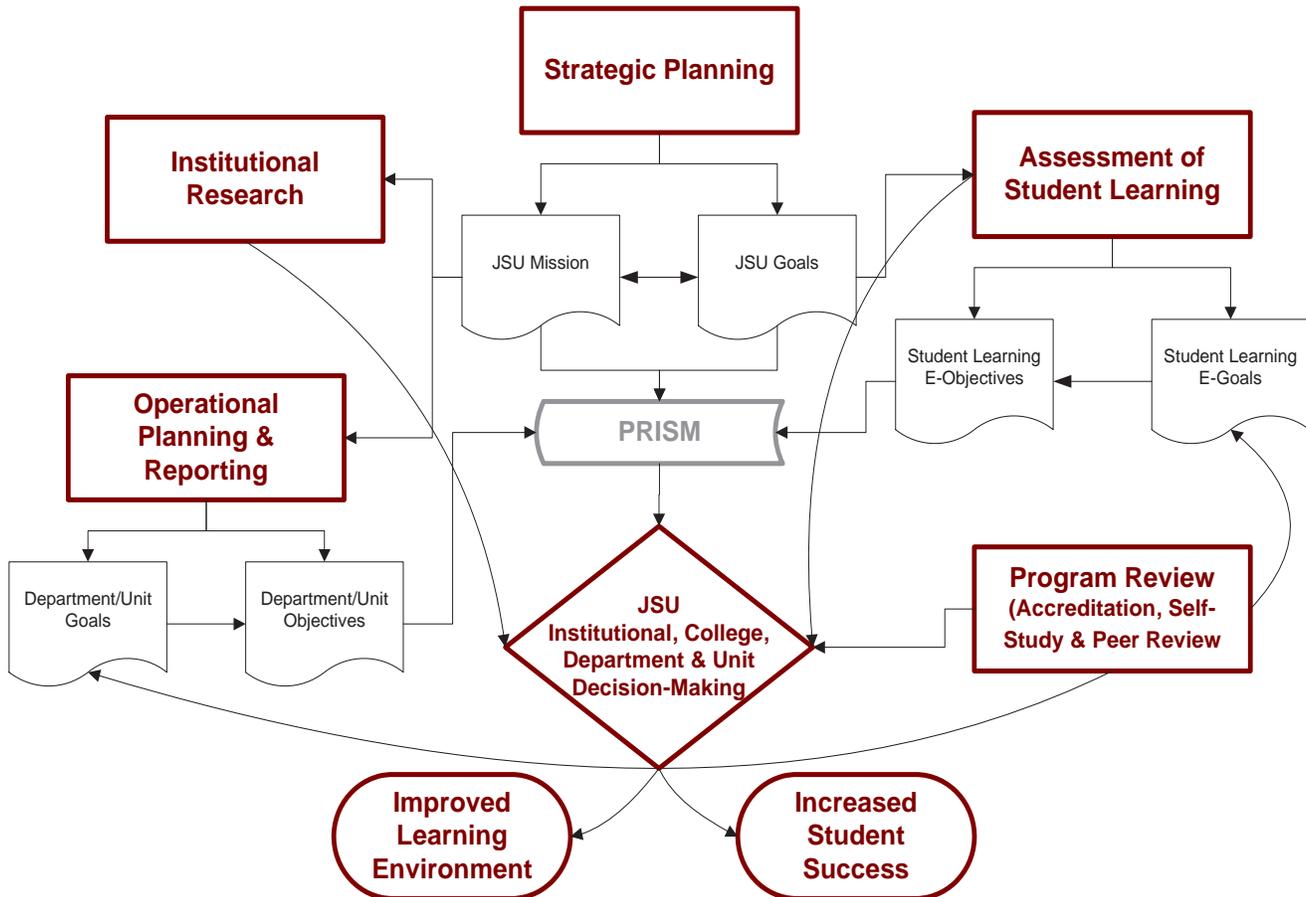

The institution engages in ongoing, integrated, and institution-wide research-based planning and evaluation processes that (1) incorporate a systematic review of institutional mission, goals, and outcomes; (2) result in continuing improvement in institutional quality; and (3) demonstrate the institution is effectively accomplishing its mission.

SACSCOC Comprehensive Standard 3.3.1:

The institution identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of improvement based on analysis of the results in each of the following areas:

- 3.3.1.1 Educational programs, to include student learning outcomes
- 3.3.1.2 Administrative support services
- 3.3.1.3 Academic and student support services
- 3.3.1.4 Research within its mission, if appropriate
- 3.3.1.5 Community/public service within its mission, if appropriate

JSU's Comprehensive System of Continuous Improvement

PRISM Planning and Reporting

All academic and non-academic units at Jacksonville State University are responsible for planning and reporting that lead to increased student success and an improved learning environment as required by SACSCOC Comprehensive Standard 3.3.1. This standard is based on the institutional effectiveness of every unit and department within the University, whether the unit is academic or non-academic.

Goals, objectives, student learning outcomes, results, use of results, and budget justifications and requests are documented in Compliance Assist, JSU's web-based system for planning and reporting. Every unit develops operational goals, objectives and student learning outcomes in Compliance Assist for administrative functions, professional development, strategic planning, Program Review and other functions.

Below are guidelines for Compliance Assist planning and reporting. Units should review the guidelines every year before finalizing their planning documents, which are due on December 15th, and their reporting documents, which are due on October 15th.

PRISM Planning (Due December 15th)

Mission

- _____ 1. The unit's mission is clearly stated.
- _____ 2. The unit's mission is consistent with the purpose of the unit.
- _____ 3. The unit's mission clearly supports the University mission statement.

Goals

- _____ 4. The unit's goals are clearly stated.
- _____ 5. The unit's goals clearly support the unit's mission.
- _____ 6. The unit's goals are related to the University's goals.

Objectives

- _____ 7. The unit's objectives are clearly stated.
- _____ 8. The unit's objectives are measurable.
- _____ 9. The unit's objectives are meaningful in supporting continuous improvement.
- _____ 10. The unit's objectives are related to the unit's goals.

Student Learning Outcomes (SLO)

- _____ 11. SLOs are consistent with the unit's mission and goals.
- _____ 12. SLOs are clearly stated.
- _____ 13. SLOs are measurable.
- _____ 14. SLOs are meaningful in supporting continuous improvement.
- _____ 15. Academic units have at least 3 SLOs and non-academic units have at least 1 SLO.

Method of Measurement

- _____ 16. Strategies or methods are documented for each objective/SLO.
- _____ 17. Strategies or methods are appropriate for the objectives/SLOs.

- _____ 18. The strategies or methods are realistic.
- _____ 19. The assessment methods or tools are appropriate for the objectives/SLOs being evaluated.
- _____ 20. Multiple methods of assessment are used where appropriate.
- _____ 21. Baseline or comparison data are provided.
- _____ 22. The methods of evaluation are consistent with best practices.

Budget Justification

- _____ 23. The budget requests are realistic.
- _____ 24. The budget request types are completed accurately.
- _____ 25. The budget justifications are clear.
- _____ 26. The budget justifications appropriately use data to support requests.

PRISM Reporting (Due October 15th)

Results for Objectives and Student Learning Outcomes

- _____ 27. The academic year is noted above the information for the corresponding year.
- _____ 28. Results, including data where appropriate, are clearly reported for all objectives.
- _____ 29. Results, including data where appropriate, are clearly reported for all methods of assessment.
- _____ 30. Well thought-out analyses of all objectives are presented.

Use of Results for Objectives and Student Learning Outcomes

- _____ 31. The academic year is noted above the information for the corresponding year.
- _____ 32. Actions prompted by the results are clearly described.
- _____ 33. Responses indicate thoughtful use of data for improvement.

PRISM Planning and Reporting and University Assessment System Schedule

Below are the schedules for PRISM planning and reporting and university wide assessment. The assessment information is located in Tableau Server and the PRISM planning and reporting are located in Compliance Assist. For login credentials and/or step by step user manuals to either system, please contact Kim Presson in the Office of Institutional Effectiveness at kpresson@jsu.edu or by calling extension 8142. Links to both systems can be found at www.jsu.edu/ie

University Assessment System Schedule

Data Type	Filters	Source	Date Published	Users
Master Schedule Workbook				
Course Section Enrollment	College and Department	Master Schedule	Each semester and annually	VPASA, VPABA, Deans, Dept Heads
Faculty Loads	College, Department, Faculty Member	Master Schedule	Each semester and annually	VPASA, Deans, Dept Heads
Direct Assessment Outcomes				
Collegiate Learning Assessment (CLA)		Randomly selected freshmen and seniors	September 1	VPASA, Deans
ETS Proficiency Profile (EPP)	College and Major	First time freshmen and all seniors prior to graduation	August 1	VPASA, Deans, Dept Heads
Indirect Assessment Outcomes				
New Student Survey	College and Department	First-Time Freshmen and First-Time Transfer Students	August 1	VPASA, VPABA, VPIT, VPIA, AVPs, Deans, Directors, Dept Heads
Graduating Senior Survey	College and Department	Senior's semester of graduation	August 1	
Graduate Exit Survey	College and Major	Graduate student's semester of graduation	August 1	
Sports and Recreation Interest	College	Prospective students and new students	September 10	
NSSE	College	Freshmen and Seniors (random sample)	September 1 (even years)	
Applied Assessment Outcomes				
JSU Alumni Survey	Major	Alumni Affairs survey	August 1 (every 4 yrs)	VPASA, VPABA, VPIT, VPIA, AVPs, Deans, Directors, Dept Heads
Dept Alumni Survey	Department	per Department	per Department	per Department
Employer Survey	Department	per Department	per Department	per Department

2015-2016 PRISM Planning and Reporting Schedule

Planning	
December 16, 2015	All units revise/develop and enter into Compliance Assist their 2016-2017 plans with goals, objectives, student learning outcomes, evaluation strategies and new funding requests for 2016-2017.
February 3, 2016	Deans/AVPs review, revise and approve unit plans and requests.
March 3, 2016	Vice Presidents review and approve/disapprove unit plans and budget requests.

Reporting	
October 15, 2016	All units complete 2015-2016 reporting by completing: <ul style="list-style-type: none"> • Results of Evaluation/Assessment • Use of Results • Status boxes for each objective

Sample Assessment Plans

The sample assessment plan below demonstrates four levels of measurement for a graduate program ensuring students have the best opportunities to be successful. Level 1 refers to indirect measures of student learning that reflect student reaction or satisfaction. IDEA course evaluation items, such as “Overall, this is an excellent course,” are examples of indirect measures. Level 2 is direct measurement of student knowledge, concepts or skills learned. Departments using EPP, CLA or MFAT are measuring at Level 2. Also, if you’re using a rubric to rate demonstration of concepts or skills learned, you are measuring at Level 2. Level 3 refers to the application of what was learned. We often use alumni or employer surveys for Level 3. Level 3 must focus on changes in behavior or actions as a result of learning. Level 4 focuses on impact in the program or organization as a result of learning. Also known as business impact measures, your department may focus on student retention, graduation rates, or professional certifications awarded. The first two examples focus on JSU or your department as the point of impact related to student success, while the last example focuses on the profession or perhaps state-wide impact of more certified professionals. Take a look at your assessment plan and identify the levels of measurement. Also, make sure they are identified under your Student Learning Outcomes in PRISM. Contact the Office of Institutional Effectiveness at extension 8142 if you have any questions.

Sample Graduate Program Assessment Plan

Level	Student Learning Outcome	Measures	Data Collection Method	Data Sources	Timing	Responsibility
1. Indirect	New students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	New Graduate Student Survey	Students	Beginning of first semester	Program Director
	Students will indicate satisfaction with courses by rating course excellence as at least 4 out of 5.	Item on IDEA Course Evaluation System	IDEA Course Evaluation	Students	Every semester	Faculty
	Graduating students’ average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	Graduate Student Exit Survey	Students	During application for graduation	Office of Graduate Studies
2. Direct	Group comparisons will indicate statistically significant differences between pre- and post-tests for graduating students.	Accuracy on pre- and post-tests	Pre-test and Post-test	Students	End of course work	Program Director
	Student responses to questions asked during Comprehensive Orals will average to at least 4 out of 5.	Average ratings on course knowledge discussion items	5-point rubric	Faculty on Orals Committee	End of course work	Faculty Chair for Orals
3. Applied	Graduates will indicate that they use or plan to use at least 85% of the knowledge and skills that they learned from the program in their work.	Report of use of knowledge and skills	Alumni Survey	Graduates	1-3 years after graduation	Program Director
	Employers will indicate that graduates use or plan to use at least 80% of the knowledge and skills taught in the program.	Report of use of knowledge and skills	Employer Survey	Employers	3 months after alumni survey	Program Director
4. Impact	At least 85% of students will be retained in the program each academic year.	Monitored retention of students through program	Retention data each semester	Institutional Research & Assessment	Annually	Faculty Member
	At least 80% of students will make satisfactory academic progress each academic year.	Monitored student progress to graduation	Student progress reports	Faculty Advisor Records	Annually	Faculty Member

Jacksonville State University
Office of Institutional Research and Assessment

Assessment Framework and Key Questions

Levels of Assessment	Key Questions Answered
Level 1 INDIRECT: Reaction, Satisfaction and Planned Action	<ul style="list-style-type: none"> • Was the program relevant to students? • Was the program important to students' success? • Did the program provide new information? • Do students intend to use what they learned? • Would students recommend it to others? • Is there room for improvement with facilitation, materials, and the learning environment?
Level 2 DIRECT: Learning knowledge and skills	<ul style="list-style-type: none"> • Do students know what they are supposed to do with what they learned? • Do students know how to apply what they learned? • Are students confident to apply what they learned? • Did students gain new knowledge, skills, change their attitude, increase awareness?
Level 3 APPLIED: Application and Implementation	<ul style="list-style-type: none"> • How effectively are students applying what they learned? • How frequently are they applying what they learned? • If they are applying what they learned, what is supporting them? • If they are not applying what they learned, why not?
Level 4 IMPACT: Business or Professional Impact	<ul style="list-style-type: none"> • So what? • To what extent does student application of what they learned improve the measures the program was intended to improve? (Retention, graduation, etc.) • How did the program impact output, quality, cost, time, customer satisfaction, employee satisfaction, work habits? • What were the consequences of students' application of knowledge and skills acquired during the program, process, intervention, change? (certification, licensure, etc.) • How do we know it was the program that improved these measures?
Level 5 ROI: Return on Investment	<ul style="list-style-type: none"> • Do the monetary benefits of the improvement in impact measures outweigh the cost of the program?

The 2015 National Survey of Student Engagement (NSSE) Results

In spring 2015, 1186 JSU freshmen and 1857 JSU seniors were invited to participate in the National Survey of Student Engagement. Eight hundred fourteen participants (303 freshmen and 511 seniors) responded. Ninety-five percent of the freshmen respondents were traditional (less than 24 years of age) students and 57% of the seniors were traditional. Nearly all (97%) of the freshmen were full-time and 79% of the seniors. Two-thirds of respondents (65% freshmen/67% seniors) were females.

NSSE compared JSU data with that of southeastern public four year schools, universities in JSU's Carnegie classification, and with all NSSE 2015 participants. Mean comparisons suggested:

JSU Students (Freshmen and Seniors)

- Were more likely to work with a faculty member on activities other than coursework (committees, student groups, etc.);
- Were more likely to report that their coursework emphasized memorizing course material;
- Were more likely to credit their instructors for clearly explaining course goals and requirements, providing prompt and detailed feedback on tests or completed assignments, and using examples or illustrations to explain difficult points;
- Were more likely to review their notes after class, and summarize that they learned in class or from course materials;
- Reported higher quality of relationships with faculty;
- Were more likely to work for pay off campus; provide care for dependents (parents, children, etc.);
- Were less likely to be assigned papers, reports of up to 5 pages, between 6 and 10 pages, or 11 pages or more;
- Were less likely to spend time preparing for class.

JSU Seniors

- Were more likely to include diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course discussions or assignments;
- Were more likely to talk about career plans and to discuss their academic performance with a faculty member;
- Were more likely to say that their coursework emphasized evaluating a point of view, decision, or information source;
- Were more likely to credit their instructors for providing feedback on a draft or work in progress;
- Were more likely to take courses that challenged them to do their best work; to take courses that included a community-based project (service-learning);
- Reported higher quality of relationships with academic advisors, student services staff (career services, student activities, housing, etc.), and other administrative staff and offices (registrar, financial aid, etc.);
- Were more likely to say that their college experience contributed to their knowledge, skills, and personal development in acquiring job- or work-related knowledge and skills; Developing or clarifying a personal code of values and ethics; understanding people of her backgrounds (economic, racial/ethnic, political religious, nationality, etc.); solving complex real-world problems; being an informed and active citizen;
- Were more likely to say they would attend their college again, if they could start over;
- Were less likely to come to class without completing readings or assignments; to work with other students on course projects or assignments; to give a course presentation;
- Were less likely to have discussions with people with religious beliefs other than their own;
- Were less likely to participate in an internship, co-op, field experience, student teaching, or clinical placement; hold a formal leadership role in a student organization or group; participate in a study abroad program; complete a culminating senior experience (capstone course, senior project or thesis, comprehensive exam, portfolio, etc.) before graduation;

- Responded less favorably about their college's emphases on providing opportunities to be involved socially; providing support for their overall well-being; attending campus activities and events.

JSU Freshmen

- Were more likely to prepare two or more drafts of a paper or assignment before turning it in; to attend an art exhibit, play or other arts performance;
- Were more likely to credit their instructors for teaching course sessions in an organized way;
- Were more likely to have discussions with people with political views other than their own;
- Were more likely to identify key information from reading assignments;
- Responded more favorably about their college's emphases on attending campus activities and events;
- Were more likely to commute to campus (driving, walking, etc.);
- Were more likely to give high ratings for their entire educational experience at JSU (than their peers at other universities);
- Were less likely to connect their learning to societal problems or issues;
- Were less likely to participate in a study abroad program before graduation.

When it Comes to "Learning with Technology"...

- Two-thirds or more respondents reported that their use of technology contributed "quite a bit" or "very much" to their learning, studying, or completing coursework on their own (89%) or with other students (68%); their understanding of course materials and ideas (82%); and their demonstrating their understanding of course content (80%);
- One-half reported that the courses they took improved their understanding and use of technology quite a bit or very much;
- Over one-half used mobile computing (smart phones, tablets, etc.), 37% used collaborative editing software (Wikis, Google Docs, etc.), 36% used social networking (Facebook, Twitter, etc.), and 26% used electronic textbooks often or very often;
- More than 70% reported that they used technology often or very often to communicate with other students (82%) or faculty (71%);
- One-half or more reported that JSU emphasized on teaching students how to use available technologies to learn, study, or complete coursework (60%), providing technology to help students learn, study or complete coursework (59%), teaching with new, cutting-edge technologies (55%), and providing support services to assist students with their use of technology (50%).

Department Heads, Directors and other administrators can find additional assessment data and filter data by college, academic year, degree, or major on the Tableau Server, JSU's Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available by calling Institutional Research & Assessment in the Division of Research, Planning, & Collaboration at (256) 782-5109.

The 2014-2015 New Student Survey Results

Of the 489 new undergraduate students responding to the 2014-2015 New Student Survey, 62% were female, 38% were male. Nearly all (97%) were not married. Six percent had dependent children living with them. Over one-half resided in residence halls (61%) and university-owned apartments (1%) during their first semester, 25% lived at the home of parents or relatives, and 8% lived in a room or apartment off-campus. Eighty-nine percent depended on their parents, relatives, or friends as the primary source of their first-year educational expenses. Forty-five percent relied on Pell Grants, 50% on federal direct loans, 47% on Faculty Scholarships, 14% on Leadership Scholarships, 4% on Athletic Scholarships, and 46% on other scholarships. Twelve percent of the respondents were undecided about their majors. For those who had decided on a major, the top 10 majors selected are: Nursing (14%), Criminal Justice (7%), Elementary Education (7%), Pre-Business (7%), Music Education (6%), Biology (5%), Computer Science (5%), Psychology (4%), Communication (4%), and Exercise Science and Wellness (4%).

Their College Choice

Factors that impacted their decision to attend college the most were:

- To learn more about things that interest them (95%)
- To be able to earn more money (93%)
- To gain a general education and appreciation of ideas (92%)
- To be able to get a better job (88%)
- To prepare for graduate or professional school (82%)
- To improve their reading and study skills (81%)

To obtain a bachelor's degree from JSU was the goal of the majority (87%).

More respondents indicated the following were "very important" reasons for their decision to attend JSU:

- The availability of financial aid or scholarship (75%)
- Availability of a particular program of study, or major (72%)
- Cost of tuition and fees (61%)
- The location of JSU (55%)
- JSU's academic reputation (55%)
- The variety of courses offered (45%)
- Type of community – Jacksonville (44%)

Over one-half learned about JSU from Preview Day or campus visit (60%), through the JSU Web site (59%), from their parents or relatives (56%), and from friends at JSU (55%).

Expectations

More respondents (72%) estimated that they would have a very good chance to earn a bachelor's degree at JSU. In addition, 60% expected to have a very good chance to find a good job after graduation in the field for which they studied. Seventy-seven percent expected to have a good chance or a very good chance to take part in volunteer or community service work while at JSU. Sixty-two percent thought they would have no chance of failing any courses.

Over one-half (54%) reported not working while attending JSU, 34% spent up to 20 hours a week working on a job, and 11% spent 30 hours or more per week working. A majority (81%) planned to spend 20-40 hours a week on school work, 7% planned to spend 50 hours a week and 12% planned to spend less than 20 hours a week on school work.

Self-rating

When compared to other people their age, one-half or more rated themselves above average or in the highest 10% in the following traits:

- Drive to achieve (75%)
- Cooperativeness (71%)
- Understanding of others (63%)
- Academic ability (62%)
- Leadership ability (62%)
- Self-confidence (intellectual) (58%)
- Competitiveness (52%)

- Emotional health (52%)

Student Self-efficacy and Self-efficacy with Technology

A majority of respondents had access to a laptop or notebook computer (94%), other portable devices, i.e., iPad or smart phone (90%), and Internet connectivity 24 hours/7 days a week (81%).

Respondents agreed that

(On a scale of 1 to 5, with 1=strongly disagree and 5=strongly agree):

	In general	When it comes to technology
• They can always manage to solve difficult problems if they try hard enough.	(M=4.21)	(M=3.55)
• It is easy for them to stick to their aims and accomplish their goals.	(M=3.92)	(M=3.65)
• They are confident that they could deal efficiently with unexpected events.	(M=3.76)	(M=3.39)
• Thanks to their resourcefulness, they know how to handle unforeseen situations.	(M=3.60)	(M=3.35)
• They can solve most problems if they invest the necessary effort.	(M=4.09)	(M=3.64)
• They can remain calm when facing difficulties because they can rely on their coping abilities.	(M=3.72)	(M=3.47)
• When they are confronted with a problem, they can usually find several solutions.	(M=3.69)	(M=3.41)
• No matter what comes their way, they are usually able to handle it.	(M=3.86)	(M=3.55)
• If they are in trouble, they can usually think of something to do.	(M=3.78)	-
• If someone opposes them, they can find means and ways to get what they want.	(M=3.21)	-

The data were collected from fall 2014 through spring 2015.

Department Heads and Directors and other administrators can find additional assessment data and filter data by college, degree, academic year or major on the Tableau Server, JSU's Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available, by calling Institutional Research & Assessment in the Division of Research, Planning, and Collaboration at 256 782-5109.

The 2014-2015 Graduating Senior Survey Results

Of the 508 graduating seniors responding to the 2014-2015 Graduating Senior Survey, 57% were female, 43% were male. Nearly all (94%) were enrolled full time. Eighty-two percent were single. Over three-quarters were White (78%), 15% were Black, 4% were Unknown or Not Reported, 2% were Hispanic/Latino, 1% were American Indian/Alaska Native, less than 1%, each, were Asian or Asian American, Native Hawaiian or Pacific Islander, and Other. Thirty-seven percent of the respondents were enrolled in the College of Arts and Sciences, 34% in the College of Education and Professional Studies, and 29% in the College of Commerce and Business Administration. Over one-third (36%) of the respondents planned to enroll in a graduate program.

When comparing themselves with the average person their age, most considered themselves above average or in the highest 10% in the following characteristics:

- Drive to achieve (73%)
- Understanding of others (69%)
- Academic ability (68%)
- Leadership ability (66%)
- Self-confidence (intellectual) (63%)

Perceptions of their Major

- Nearly all indicated the overall quality of their major was good or excellent (97%) and a majority of the respondents were satisfied or very satisfied with their overall education at JSU (88%);
- Library books and materials (97%), and computer (96%) and laboratory (94%) facilities for majors were adequate or more than adequate;
- Over one-half frequently expressed ideas in writing (54%) and applied concepts learned in their major to solve actual problems (53%), and nearly one-half expressed ideas orally (48%);
- Over three-quarters agreed or strongly agreed that:
 - fundamental theories were taught (95%)
 - department faculty were professionally competent (92%) and effective teachers (89%)
 - faculty were approachable (91%) and accessible outside of class (86%)
 - grading procedures were fair (89%)
 - courses were intellectually stimulating (89%)
 - current research methods were taught (86%)
 - my advisor was willing to help (86%)
 - at least one professor worked closely with me (84%)
 - requirements were explained clearly (83%)
 - sufficient practical training was provided (76%)

Educational Outcomes

Respondents thought the following educational outcomes were important and that their JSU experiences prepared them well to perform them:

- Listening effectively (93%)
- Writing effectively (92%)
- Defining and solving problems (92%)
- Conducting work activities in an ethical manner (92%)
- Reading comprehension (90%)
- Thinking objectively about beliefs, attitudes, and values (90%)
- Speaking effectively (89%)
- Working cooperatively and as a team member (89%)
- Analyzing, synthesizing, and evaluating information (89%)
- Using computers to search for and retrieve information (88%)
- Making and exercising a lifelong commitment to learning (88%)
- Having tolerance for different points of view (87%)
- Recognizing and acting upon ethical principles (87%)
- Making formal presentations (85%)
- Understanding the interaction of people and their environment (85%)
- Specialized occupational skills and knowledge (84%)
- Understanding the present as it relates to historical events and processes (83%)

- Basic computer skills (work-processing, spreadsheets, etc.) (83%)
- Knowing how to access the information needed in one's professional position (81%)
- Working with people from diverse ethnic and cultural backgrounds (81%)
- Understanding and exercising one's rights, responsibilities, and privileges as a citizen (79%)
- Understanding and applying scientific principles and methods (78%)
- Resolving interpersonal conflict (75%)

Satisfaction with University Facilities, Services, and Climate

- The majority (92%) of respondents were satisfied with class size, the testing/grading system (86%), the course content in their major (87%), availability of computers (87%), and out-of-class availability of instructors (82%).
- Most were satisfied with attitude of non-teaching staff toward students (76%), and general registration procedures (74%).
- Respondents were satisfied or very satisfied with the services and facilities they used the most, including:
 - Houston Cole Library (89%)
 - Computer labs (82%)
 - Internet registration (81%)
 - Stephenson Gym facilities (80%)
 - Financial Aid (76%)
 - Academic advising services (79%)
 - Transcript Services (80%)
 - Testing services (79%)
 - Classroom facilities (78%) and Laboratory facilities (77%)
 - Bursar's Office, payments window (76%)
 - Food Court and Cafeteria (76%)
 - Online courses through Distance Education (71%)
 - University bookstore (69%)

Student Self-efficacy and Self-efficacy with Technology

Respondents had access to a PC (62%), a laptop or notebook computer (93%), and other portable devices such as iPad or smart phone (92%). The majority had Internet connectivity 24 hours/7 days a week (88%).

Respondents agreed that

(On a scale of 1 to 5, with 1=strongly disagree and 5=strongly agree):	In general	When it comes to technology
• They can always manage to solve difficult problems if they try hard enough.	<i>(M=4.30)</i>	<i>(M=3.91)</i>
• It is easy for them to stick to their aims and accomplish their goals.	<i>(M=4.11)</i>	<i>(M=3.92)</i>
• They are confident that they could deal efficiently with unexpected events.	<i>(M=4.13)</i>	<i>(M=3.83)</i>
• Thanks to their resourcefulness, they know how to handle unforeseen situations.	<i>(M=4.09)</i>	<i>(M=3.86)</i>
• They can solve most problems if they invest the necessary effort.	<i>(M=4.25)</i>	<i>(M=3.95)</i>
• They can remain calm when facing difficulties because they can rely on their coping abilities.	<i>(M=4.03)</i>	<i>(M=3.88)</i>
• When they are confronted with a problem, they can usually find several solutions.	<i>(M=4.06)</i>	<i>(M=3.86)</i>
• No matter what comes their way, they are usually able to handle it.	<i>(M=4.19)</i>	<i>(M=3.91)</i>
• If they are in trouble, they can usually think of something to do.	<i>(M=4.11)</i>	-
• If someone opposes them, they can find means and ways to get what they want.	<i>(M=3.60)</i>	-

Department Heads and Directors and other administrators can find additional assessment data and filter data by college, degree, major, and academic year on the Tableau Server, JSU's Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available by calling Institutional Research & Assessment in the Division of Research, Planning, and Collaboration at 256 782-5109.

The 2014-2015 Graduate Student Exit Survey Results

Of the 443 graduate students responding to the 2014-2015 Graduate Student Exit Survey, 67% were female, 33% were male. Over two-thirds (69%) were white, 28% were black, 1% were Asian or Asian American, and less than 1%, each, were Hispanic (0.78%), American Indian or Alaska Native (0.78%), and Not reported (0.78%). Seven percent were enrolled in Master of Arts programs, 26% in Master of Science programs, 5% in Master of Business Administration programs, 6% in the Master of Science in Nursing programs, 6% in Master of Public Administration programs, 38% in Master of Science in Education programs, 11% in Educational Specialist programs, 1% in Master of Fine Arts program, and 0.75% in Graduate Certificate programs.

Factors that impacted respondents' decision to attend JSU the most:

- Reputation of their department (97%)
- Unique features of their degree program (94%)
- Cost of attending JSU (93%)
- JSU's reputation (93%)
- Availability of on-line courses (91%)
- Availability of financial assistance (84%)
- JSU's convenient location (84%)
- Recommendation of a colleague or friend (81%)

Perceptions of their Degree Program

- Nearly all indicated the overall quality of their program was good or excellent (95%);
- Nearly all respondents who were graduate assistants (12%) reported that they had positive experiences as graduate assistants (98%);
- Nearly all respondents indicated that their program:
 - requirements were explained clearly (96%)
 - encouraged academic/professional interactions with other students (97%)
 - adequately prepared them for careers (98%)
 - had adequate classroom facilities (95%)
 - had adequate instructional supplies and equipment (96%)
 - had adequate non-computer lab facilities (95%)
- Nearly all were satisfied with the procedures for the scheduling of comprehensive exams (95%)
- Nearly all received adequate support as a student throughout the program (95%)
- Professors were frequently available to help outside of class (74%);
- Frequently had classes that required some form of research (81%);
- Frequently used technology in the classroom (79%)
- Faculty were highly competent instructionally (98%) and professionally (97%);
- Quality of courses as preparation for employment after graduation (94%) and curricular advising (90%) were good or excellent;
- The support (94%) and professionalism (97%) of the department staff were good or excellent.

When asked to reflect on the courses they took toward their degrees, nearly all agreed or strongly agreed that:

- Courses provided an understanding of research methodology (98%), the major theories (99%), accepted professional practices (99%), necessary knowledge (99%), and necessary bibliographical skills (98%) in respondents' disciplines.
- Faculty provided clear understanding of evaluation methods used in each class (98%) and of the class goals and requirements (98%), and allowed students a reasonable degree of freedom/independence in the way assignments were conducted (98%).
- The sequencing of courses was appropriate (97%).
- The course requirements for graduate students in 400G courses were meaningfully higher (95%) than those for undergraduates.
- The evaluation methods, and grades awarded, properly differentiated levels of student performance (98%).

And a majority agreed or strongly agreed that:

- Courses were offered frequently and they completed their degree requirements as planned (89%).
- Academic/professional interaction with other students contributed significantly to attaining my educational goals (91%).

Perceptions of Distance Learning

Nearly three-quarters or more respondents were satisfied or very satisfied with distance learning services and systems:

- Blackboard online courses (85%)
- Blackboard Mobile Learn (App) (80%)
- Blackboard Collaborate (77%)
- JSU Mobile (App) (76%)
- Lockdown Browser (76%)
- Blackboard Student Services 24/7 Support (75%)
- Blackboard IM (73%)

Eighty-seven percent of the respondents indicated taking online courses through Distance Education while working on their degrees, and three-quarters or more of them agreed or strongly agreed that:

- The online learning courses that I have taken provided me with a valuable learning experience (86%)
- The instructors were effective in delivering the online learning courses (85%)
- Overall, my attitude toward online learning is positive (83%)
- They would advise other students to take online learning courses (79%)

Perceptions of University Services

- Graduate Studies Office provided good advisement (94%), accurate information (97%) on admissions (98%) and graduation application procedures (94%), and had personnel who were courteous (98%) and prompt (97%) in responding to requests.
- Houston Cole Library provided adequate services (96%), Web access to Library services and resources (95%), personnel to meet the needs (98%), Inter-library loan service (96%), book (96%) and periodical (97%) collections, and operating hours (92%).
- Most respondents were satisfied or very satisfied with Bursar's Office (98%), registration process (97%), obtaining GEM account (97%), and Financial Aid Office (94%).

Department Heads and Directors and other administrators can find additional assessment data and filter data by college, academic year, degree or major on the Tableau Server, JSU's Assessment System, by going to <http://oira.jsu.edu:8000/>. User IDs and passwords are available by calling Institutional Research & Assessment in the Division of Research, Planning, and Collaboration at 256 782-5109.

General Education Competencies

Jacksonville State University's General Education Competencies were developed in collaboration with the College of Arts and Sciences, the college responsible for providing JSU undergraduate students with a broad education, no matter what their major program of study. General education refers to knowledge, skills and belief systems that all graduates of a university should acquire and be able to demonstrate in their professions and communities.

Knowledge includes understanding of mathematical concepts, American history, and scientific methods. All JSU graduates are also expected to be able to demonstrate writing skills, computer skills, critical thinking and reasoning skills, and leadership skills. It is also important for all JSU graduates to experience an engaging and excellent learning environment that is enriching and challenging through excellent academic courses. Students' experiences should also include active and collaborative learning, quality interaction with faculty, and a supportive campus environment.

Upon graduation, all JSU students will be able to:

1. Demonstrate the ability to write competently
2. Demonstrate knowledge of mathematical concepts
3. Understand the role of American citizenship
4. Understand the role of science and the scientific method
5. Apply critical thinking and reasoning skills
6. Demonstrate basic computer skills
7. Demonstrate leadership skills
8. Experience engaging and excellent educational experiences

JSU's General Education Competencies are supported by the university's Mission Statement:

Jacksonville State University provides distinctive educational, cultural and social experiences for a diverse student population. As a learning-centered university, Jacksonville State University strives to challenge students academically in a responsive environment, meeting students' educational, career and personal goals. As an academic institution, Jacksonville State University seeks to produce broadly-educated graduates that are prepared for global engagement. As a public, comprehensive university, Jacksonville State University promotes excellence in scholarly and service activities consistent with its academic and professional strengths.

JSU's Vision Statement also clearly focuses on student learning as its primary impact.

Jacksonville State University strives for continuous improvement as a learning-centered community committed to developing the ability to think critically, solve problems creatively and collaboratively, and communicate effectively.

In addition, JSU's University Goals and Strategies for implementing the University Strategic Plan support the realization of these competencies for every student.

University Goals

1. Educate students to be productive, responsible citizens and effective leaders.
2. Advance student learning through academic excellence.
3. Increase student and faculty participation in research and service activities.
4. Create a diverse learning community that facilitates academic and professional excellence.
5. Effectively use technology to support learning, research, information management and evidence based decision making.
6. Continuously improve administrative processes and services.
7. Enhance revenue growth and financial planning to ensure adequate fiscal resources for the university.

University Strategies

1. Employ new methodologies and technologies in the classroom.
2. Expand quality online programs and services.
3. Improve the campus environment.
4. Increase collaboration to better serve undergraduate students.
5. Ensure student job readiness.
6. Recruit and retain qualified undergraduate students.
7. Recruit and retain qualified graduate students and streamline the graduate admissions process.
8. Increase international engagement for the university community.

Finally, JSU's Definition of a Learning Centered University provides laser focus as to the purpose of the university and the expectations of faculty, staff and students in creating an environment that is conducive to learning.

At Jacksonville State University we believe that students, faculty, and staff comprise a community of learners. We believe it is important for learners to take responsibility for their learning. This means presenting a willingness to learn, being proactive in the acquisition of knowledge, and behaving with integrity and honesty in the learning environment. We believe that learning takes place when learners are engaged, assumptions are challenged, expectations are shared, and relationships are built around the purpose of learning.

Jacksonville State University will promote a learning environment with relevant programs of study supported by current technologies, opportunities for experiential learning, and flexibility in the learning process. Faculty will use various methods of teaching to meet different learning styles, and will set learning outcomes that emphasize the application of knowledge, thus ensuring that graduates are prepared with the skills necessary for careers in a global marketplace.

Methodology

JSU's General Education Competencies are systematically measured annually through direct and indirect measures. Years of results allow for comparisons between JSU's own students, while expected outcomes anticipate increased learning. Jacksonville State University measures General Education competencies using direct and indirect measures. Most measures are nationally normed and provide comparisons with other universities using those measures. However, with most of these measures, JSU compares results with previous years, which is a better "apples to apples" comparison. This is not to say that national averages are not important, but as we expect students to perform better, we can best determine expected outcomes based on past performance.

The following table provides the General Education Competencies, the measures used, the strategy for using the results, and a summary of results found in the next section. Success of all measures is determined not by one single item or result, but by multiple measures, which provides a more reliable perspective on outcomes.

General Education Measures:

Direct Measures

1. Collegiate Learning Assessment (CLA)
2. ETS Proficiency Profile (EPP)

Indirect Measures

1. National Survey of Student Engagement (NSSE)
2. Graduating Senior Survey (GSS)

Results

The following General Education results suggest that students require a re-focus in how we teach at Jacksonville State University. The Strategic Plan and its components were developed to address this reality by expanding methodologies and technologies in the classroom and focusing on 21st century skills, as supported by the JSU vision statement. Overall, the results are addressed by Jacksonville State University's emphasis on student learning and preparing students for careers through focus on critical thinking, problem-solving, writing, technology and collaboration skills. To further this change in focus, JSU's Quality Enhancement Plan will increase critical thinking skills among freshmen in 100 – 200 level courses through faculty professional development that leads to course redesign and implementation of a 1:1 technology initiative in the near future.

1. Demonstrate the Ability to Write Competently

EPP writing scores for first year students

First Year	Mean EPP Writing		
Year	JSU	n	EPP*
2014-2015	111.91	920	112.80

*Mean subscore of participating freshmen in Master's (comprehensive) Colleges and Universities

EPP writing scores for senior students

Senior	Mean EPP Writing		
Year	JSU	n	EPP*
2014-2015	114.14	891	114.40

*Mean subscores of participating seniors in Master's (comprehensive) Colleges and Universities.

CLA writing analytic scores and differences between first-year students and seniors.

Year	Performance Task: Writing Effectiveness				Performance Task: Writing Mechanics
