This technology has the potential to assist JSU in

#### Boosting retention

Enable students to review complicated material repeatedly at their convenience  
Create rich interactive experiences to enhance student outcomes  
Integrate with course management systems, like Blackboard<sup>®</sup>

#### Extending our reach

Teach once and reach multiple audiences  
Ensure distance learners receive the same quality education as traditional students

#### Fueling coordination

Foster direct communication between project teams  
Communicate seamlessly across jurisdictions  
Document response needs for natural disasters and emergency preparedness

#### Delivering rapid training

Create online education modules quickly and easily
