

Beginning with Summer 2024 term, Banner will use the Intelligent Learning Platform (ILP) to create Canvas course shells and enroll faculty and students. When records are created or updated in Banner, they will be updated immediately in Canvas as those changes occur. Most notably, during open grading, faculty will have the ability to submit grades directly from Canvas to Banner using the “Grades to Banner” functionality. This consists of reviewing/modifying the pre-populated letter grades, entering any required last dates attended, and then pushing a button to submit grades to Banner, thus eliminating dual entry. Please note that faculty may still choose to enter grades into Self-Service Banner (SSB) manually if they desire.

BEGINNING OF TERM

Jacksonville State University has five available grading schemes in Canvas. These grading schemes translate the numerical grade from the Total column of a course’s gradebook into a letter grade in Grades to Banner. It is important to set the grading scheme for courses at the beginning of each term to ensure an accurate reflection of student grades in the Total column of the course gradebook. At the beginning of each term, refer to the course catalog to determine the appropriate grading scheme for each course. Most academic courses at Jacksonville State University use the Standard Grading Scheme. To set the grading scheme for courses, follow these instructions:

Step 1: Select the “Settings” in the Course Navigation. (1)

Step 2: Scroll to the “Grading Scheme” section of the Settings menu and toggle to the appropriate grading scheme for the course. (2)

Step 3: Save Settings changes by clicking “Update Course Details” at the bottom of the Settings menu.
