Jacksonville State University

August 19, 2019

Department of Commerce

Department of Commerce - Economic Development Administration - FY 2019 EDA
Disaster Supplemental

Proposal Due Date: Applications are accepted on a
continuing basis and processed as received.

Expected Number of Awards:

Estimated Total Program Funding: \$587,000,000

Award Ceiling:

Award Floor:

Funding Opportunity Number: EDA-2019-DISASTER

Purpose: EDA announces general policies and application procedures for the Disaster Supplemental NOFO. Subject to the availability of funds, this investment assistance will help communities and regions devise and implement long-term economic recovery strategies through a variety of non-construction and construction projects, as appropriate, to address economic challenges in areas where a Presidential declaration of a major disaster was issued under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 et seq.) (Stafford Act) "as a result of Hurricanes Florence, Michael, and Lane, Typhoons Yutu and Mangkhut, and of wildfires, volcanic eruptions, earthquakes and other natural disasters occurring in calendar year 2018, and tornadoes and floods occurring in calendar year 2019...". To be competitive, applications must clearly incorporate principles for enhancing the resilience (as defined under Section A.4, below) of the relevant community/region or demonstrate the integration of resilience principles into the investment project itself. Resilience is an essential component of any strategy for mitigating the potential for future disaster-related losses and adverse economic impacts for communities. Therefore, inclusion of resilience principles in the project is a necessary step to improve the capacity of the region to recover more quickly from future disaster events. Applicants must include a narrative attachment as a part of their application materials, describing in detail the nexus between their proposed project scope of work and disaster recovery and resilience efforts. The strength of the

nexus to the disaster is drawn from the consequences of the relevant disaster(s) and the intended project outcomes that fulfill the community's specific post-disaster needs.

Department of Health and Human Services

Department of Health and Human Services - Health Resources and Services Administration - Rural Health Network Development Program

Proposal Due Date:	November 25, 2019
Expected Number of Awards:	46
Estimated Total Program Funding:	\$13,800,000
Award Ceiling:	\$300,000
Award Floor:	
Funding Opportunity Number:	HRSA-20-025

Purpose: This notice announces the opportunity to apply for funding under the Rural Health Network Development (RHND) program. The purpose of this program is to support integrated rural health care networks that have combined the functions of the entities participating in the network, including skilled and experienced staff and a high functioning network board, in order to address the health care needs of the targeted rural community. Recipients will combine the functions of the entities participating in the network to address the following legislative aims: (i) achieve efficiencies; (ii) expand access, coordinate, and improve the quality of essential health care services; and (iii) strengthen the rural health care system as a whole. The RHND Program encourages innovative solutions to local health care needs identified by local communities and supports rural communities in preparing for changes within the health care environment. Furthermore, the program creates an opportunity for rural health networks to collaboratively address the key priorities of the U.S. Department of Health and Human Services (HHS): mental health, substance use disorder, and value-based care. The overarching goals for the RHND Program are to:

- Improve access and quality of health care in rural areas through sustainable health care programs created as a result of network collaboration;*
- Prepare rural health networks for the transition to value-based payment and population health management;*
- Demonstrate improved health outcomes and community impact;*
- Promote the sustainability of rural health networks through the creation of diverse products and services;*
- Utilize and/or adapt an evidence-based or promising practice model(s) in the delivery of health care services.*

Broad network membership that includes traditional and non-traditional health care partners and have extensive collaborative experience with one another is essential for the transition to value-based care and is fundamental to improving population health. Delivery system reform over the upcoming years will strengthen this collaboration, as payment models for reimbursement will require participation and quality improvement across diverse clinical and community sectors influencing population health. Diverse network partners may include behavioral health organizations, critical access hospitals, rural health centers, community and social service organizations, and tribal organizations. Networks applying to this program are encouraged to position themselves for this change while addressing the

local health care need supported by the statutory charges (i, ii, and iii), outlined in the authorizing legislation.

Department of Health and Human Services - National Institutes of Health - Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Institutionally-Focused Research Education Award to Promote Diversity (UE5 - Clinical Trial Not Allowed)

Letter of Intent Due Date: 30 days prior to the application due date
Proposal Due Date: November 15, 2019
Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling:
Award Floor:
Funding Opportunity Number: PAR-19-342

Purpose: The NIH Research Education Program (UE5) supports research education activities in the mission areas of the NIH. The over-arching goal of the MOSAIC UE5 program is to support educational activities that encourage individuals from diverse backgrounds, for example those from groups underrepresented in the biomedical and behavioral sciences, to pursue further studies or careers in research. To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on Courses for Skills Development and Mentoring Activities. Applications are encouraged from organizations of biomedical researchers (e.g., scientific societies) with a membership of scientists conducting research within the mission of NIH, experience serving as a centralized entity to enhance scientific communication and networking among scientists conducting research, an established record of providing professional development and networking activities for the next generation of biomedical researchers, and a demonstrated commitment to enhancing the diversity of the biomedical research workforce. The program provides support for well-designed courses for skills development and mentoring activities to prepare MOSAIC K99/R00 grantees to transition into, succeed, and advance in independent faculty careers at research-intensive institutions.

Department of Health and Human Services - National Institutes of Health - HAZMAT Training at DOE Nuclear Weapons Complex (UH4 Clinical Trial Not Allowed)

Letter of Intent Due Date: October 21, 2019
Proposal Due Date: November 21, 2019
Expected Number of Awards:
Estimated Total Program Funding: \$9,500,000

Award Ceiling: \$700,000
Award Floor:
Funding Opportunity Number: RFA-ES-19-004

Purpose: The purpose of the NIEHS/DOE Nuclear Worker Training Program is to support the development of model programs for the training and education of workers engaged in activities related to hazardous materials and waste generation, removal, containment, transportation and emergency response within the DOE nuclear weapons complex.

<https://grants.nih.gov/grants/guide/rfa-files/RFA-ES-19-004.html>

Department of Health and Human Services - National Institutes of Health - Hazardous Materials Worker Health and Safety Training (U45 Clinical Trial Not Allowed)

Letter of Intent Due Date: October 21, 2019
Proposal Due Date: November 21, 2019
Expected Number of Awards:
Estimated Total Program Funding: \$28,000,000
Award Ceiling: \$700,000
Award Floor:
Funding Opportunity Number: RFA-ES-19-003

Purpose: NIEHS invites applications for cooperative agreements to support the development of model programs for the training and education of workers engaged in activities related to hazardous materials and waste generation, removal, containment, transportation and emergency response. This funding opportunity announcement aims to prevent work-related harm through safety and health training. The training programs will transmit skills and knowledge to workers in how best to protect themselves and their communities from exposure to hazardous materials encountered during hazardous waste operations, hazardous materials transportation, environmental restoration of contaminated facilities or chemical emergency response. A variety of sites, such as those involved with chemical waste cleanup and remedial action and transportation-related chemical emergency response, may pose severe health and safety concerns to workers and the surrounding communities. These sites contain many hazardous substances, sometimes unknown, and often a site is uncontrolled. A major goal of the Worker Training Program (WTP) is to support institutional competency-building for the development and delivery of model training and education programs.

Department of Health and Human Services - National Institutes of Health - Research Education: Short Courses on Alzheimer's Disease and Related Dementias for the Behavioral and Social Sciences (R25 Clinical Trial Not Allowed)

Letter of Intent Due Date: December 21, 2019

Proposal Due Date:	January 21, 2020
Expected Number of Awards:	3
Estimated Total Program Funding:	\$495,000
Award Ceiling:	\$150,000
Award Floor:	
Funding Opportunity Number:	RFA-AG-20-031

Purpose: The goal of this FOA is to support short courses geared to behavioral and social scientists who have existing expertise in aging research and can make research contributions in Alzheimers disease and Alzheimer's disease-related dementias (AD/ADRD) with additional knowledge about the disease and related research resources. Fields of behavioral and social science research relevant for this FOA are health economics, labor economics, health services research, healthcare policy, public policy, demography, sociology, social epidemiology, psychology, and social neuroscience. Priority areas of focus include, but are not limited to, the following: dementia care; dementia caregiver research; cognitive and dementia epidemiology; behavioral and social pathways of AD/ADRD; role of social, contextual, environmental, and institutional factors in AD/ADRD; early psychological changes preceding AD/ADRD onset; prevention of AD/ADRD; disparities in AD/ADRD or dementia-related outcomes; and research resources and methods for studying the determinants and impact of AD/ADRD.

Institute of Museum and Library Services

Institute of Museum and Library Services - Museum Grants for African American History and Culture

Proposal Due Date:	November 15, 2019
Expected Number of Awards:	18
Estimated Total Program Funding:	\$2,231,000
Award Ceiling:	\$250,000
Award Floor:	\$5,000
Funding Opportunity Number:	AAHC-FY20

Purpose: The goals of the Museum Grants for African American History and Culture program (AAHC program) are to build the capacity of African American museums and support the growth and development of museum professionals at African American museums.

The AAHC program supports projects that nurture museum professionals, build institutional capacity, and increase access to museum and archival collections at African American museums and Historically Black Colleges and Universities (HBCUs). IMLS welcomes applications from museums of all sizes and geographic areas whose primary purpose, as reflected in their mission, is African American art, life, history, and culture.

Institute of Museum and Library Services - Museums for America

Proposal Due Date:	November 15, 2019
Expected Number of Awards:	120
Estimated Total Program Funding:	\$19,900,000
Award Ceiling:	\$250,000
Award Floor:	\$5,000
Funding Opportunity Number:	MFA-FY20

Purpose: The goal of the Museums for America (MFA) grant program is to support projects that strengthen the ability of an individual museum to serve its public.

Museums for America has three project categories:

Lifelong Learning

Community Anchors and Catalysts

Collections Stewardship and Public Access

<https://www.grants.gov/web/grants/view-opportunity.html?oppld=319579>

Institute of Museum and Library Services - Inspire! Grants for Small Museums

Proposal Due Date:	November 15, 2019
Expected Number of Awards:	120
Estimated Total Program Funding:	\$1,000,000
Award Ceiling:	\$50,000
Award Floor:	\$5,000
Funding Opportunity Number:	IGSM-FY20

Purpose: Inspire! Grants for Small Museums is a special initiative of the Museums for America Program. It is designed to help small museums implement projects that address priorities identified in their strategic plans. IMLS invites applications that focus on providing rich learning experiences for individuals of all ages, backgrounds, and circumstances; supporting partnerships aimed at assessing and addressing the needs of their communities; strengthening the role of museums as trusted stewards of the collections in their care; and/or expanding access to collections and associated resources.

<https://www.grants.gov/web/grants/view-opportunity.html?oppld=319578>

Institute of Museum and Library Services - Native American/Native Hawaiian Museum Services

Proposal Due Date:	November 15, 2019
Expected Number of Awards:	15
Estimated Total Program Funding:	\$1,472,000

Award Ceiling: \$100,000
Award Floor: \$5,000
Funding Opportunity Number: NANH-FY20

Purpose: The goal of the Native American/Native Hawaiian Museum Services (NANH) grant program is to support Indian tribes and organizations that primarily serve and represent Native Hawaiians. It is intended to provide opportunities to sustain heritage, culture, and knowledge through strengthened activities in areas such as exhibitions, educational services and programming, professional development, and collections stewardship.

<https://www.grants.gov/web/grants/view-opportunity.html?opId=319576>

Institute of Museum and Library Services - Museums Empowered

Proposal Due Date: November 15, 2019
Expected Number of Awards: 13
Estimated Total Program Funding: \$2,000,000
Award Ceiling: \$250,000
Award Floor: \$5,000
Funding Opportunity Number: ME-FY20

Purpose: The goal of the Museums for America (MFA) grant program is to support projects that strengthen the ability of an individual museum to serve its public. Museums Empowered: Professional Development Opportunities for Museum Staff is a special MFA initiative with the goal of strengthening the ability of an individual museum to serve its public through professional development activities that cross-cut various departments to generate systemic change within the museum.

As centers of innovation and discovery, as well as catalysts of community revitalization, museums are at the forefront of change in our communities. Like any other institution, museums need to remain dynamic to respond to fast-evolving technological advances and changing demographics. Museums also need to generate and share outcomes-based data and demonstrate results of their community impact efforts. In addition, they need to develop sustainable organizational structures and strategies for continued growth and vitality. Professional development is critical for museums to deliver on these areas of need.

IMLS encourages applicants to invest in the professional development of museum staff, leadership, and volunteers to enhance their skills and ensure the highest standards in all aspects of museum operations. This includes, but is not limited to, creating opportunities to encourage a more inclusive and diverse museum professional and volunteer workforce, and building the skills of museum staff at all levels with emphasis on the development of the next generation of museum professionals.

To support and empower museums of all sizes and disciplines in responding to the evolving needs of the museum profession and changes in their communities, this MFA special initiative has four project categories for professional development:

- *Digital Technology: for museum staff to fully explore, understand, adopt, and optimize the use of digital technology in museums*

- *Diversity and Inclusion: for museum staff to develop cultural competency and support museum relevancy in their communities*
 - *Evaluation: to expand museum staff's capacity in conducting formative and summative evaluation of programs, practices, and products that can help the museum yield indicators and measurable outcomes*
 - *Organizational Management: for museum staff to learn best practices in organizational management, strategic thinking, innovation, and managing change*
- Potential projects will address one of these four project categories and help strengthen the ability of an individual museum to better serve its public. Projects will utilize comprehensive strategies and frameworks to support professional development. Projects should cross-cut various departments and result in systemic change within the museum.*

Institute of Museum and Library Services - National Leadership Grants for Museums

Proposal Due Date:	November 15, 2019
Expected Number of Awards:	12
Estimated Total Program Funding:	\$6,500,000
Award Ceiling:	\$1,000,000
Award Floor:	\$5,000
Funding Opportunity Number:	NLG-M-FY20

Purpose: The goals of National Leadership Grants (NLG) for Museums are to support projects that address critical needs of the museum field and that have the potential to advance practice in the profession so that museums can strengthen services for the American public.

<https://www.grants.gov/web/grants/view-opportunity.html?opId=319581>

National Endowment for the Arts

National Endowment for the Arts - NEA Sound Health Network, FY2020

Proposal Due Date:	November 19, 2019
Expected Number of Awards:	November 19, 2019
Estimated Total Program Funding:	
Award Ceiling:	\$300,000
Award Floor:	\$300,000
Funding Opportunity Number:	NEAPS1903

Purpose: The Cooperative Agreement resulting from this Program Solicitation can start no earlier than July 1, 2020, and may extend for up to 18 months. An organization may submit only one proposal under this program solicitation. Program Description The Sound Health program seeks to expand public understanding of the connections between music and wellness: how music is processed by the brain,

how music can impact development and learning, and the therapeutic use of music for specific health conditions. Launched in 2016, Sound Health is a partnership between the National Institutes of Health (“NIH”) and the John F. Kennedy Center for the Performing Arts (“Kennedy Center”), in association with the National Endowment for the Arts (“Arts Endowment”) (individually known as “Partner” and collectively known as “the Partnership”).

<https://www.grants.gov/web/grants/view-opportunity.html?opId=319514>

National Science Foundation

National Science Foundation - NSF/DOE Partnership in Basic Plasma Science and Engineering

Proposal Due Date:	November 18, 2019
Expected Number of Awards:	30
Estimated Total Program Funding:	\$4,000,000
Award Ceiling:	\$250,000
Award Floor:	\$50,000
Funding Opportunity Number:	19-596

Purpose: Plasma Physics is a study of matter and physical systems whose intrinsic properties are governed by collective interactions of large ensembles of free charged particles. 99.9% of the visible Universe is thought to consist of plasmas. The underlying physics of the collective behavior in plasmas has applications to space physics and astrophysics, materials science, applied mathematics, fusion science, accelerator science, and many branches of engineering. The National Science Foundation (NSF), with participation of the Directorates for Engineering, Geosciences, and Mathematical and Physical Sciences, and the Department of Energy, Office of Science, Fusion Energy Sciences are continuing the joint Partnership in Basic Plasma Science and Engineering begun in FY1997 and renewed several times since. As stated in the original solicitation (NSF 97-39), which is superseded by the present solicitation, the goal of the Partnership is to enhance basic plasma science research and education in this broad, multidisciplinary field by coordinating efforts and combining resources of the two agencies. The current solicitation also encourages submission of proposals to perform basic plasma experiments at NSF and/or DOE supported user facilities, including facilities located at DOE national laboratories, designed to serve the needs of the broader plasma science and engineering community.
