Department of Commerce

Department of Commerce - National Institute of Standards and Technology - Economic Research and Analysis of the National Need for Technology Infrastructure to Support the Internet of Things (IoT) Amendment 1

Proposal Due Date: August 13, 2019

Expected Number of Awards: 10

Estimated Total Program Funding: \$400,000

Award Ceiling:

Award Floor:

Funding Opportunity Number: 2019-NIST-TPO-IOT-01-AMENDED

Purpose: The NIST's Technology Partnerships Office (TPO) is seeking applications from eligible applicants for activities to assess the potential economic impacts, resulting from Federal research investments, of meeting the Nation's need for technology infrastructure¹ to support the Internet of Things (IoT). By identifying technological and economic trends in IoT research and assessing critical gaps in the Nation's IoT technology infrastructure, the recipient will produce an economic study to help guide industry, academia, and federal researchers in their efforts to accelerate the critical research needed for timely IoT development.

Department of Health and Human Services

Department of Health and Human Services - Health Resources and Services Administration - Early Hearing Detection and Intervention Program

Proposal Due Date: November 8, 2019

Expected Number of Awards: 59
Estimated Total Program Funding: \$13,865,000
Award Ceiling: \$235,000
Award Floor:
Funding Opportunity Number: HRSA-20-047

Purpose: This notice announces the opportunity to apply for funding under the Early Hearing Detection and Intervention (EHDI) Program. The purpose of this program is to support comprehensive and coordinated state and territory EHDI systems of care[1] so families with newborns, infants, and young children up to 3 years of age[2] who are deaf or hard-of-hearing (DHH)[3] receive appropriate and timely services that include hearing screening[4], diagnosis, and early intervention (EI). [1] For the purposes of this NOFO, the EHDI system of care refers to families, consumers, providers, services, and programs that work towards developing coordinated and comprehensive state and territory systems so that families with newborns, infants, and young children who are deaf or hard of hearing receive appropriate and timely services that include hearing screening, diagnosis, and intervention. [2] For the purposes of this funding opportunity, "children" are defined as all newborns, infants, and young children up to the age of 3. [3] For the purposes of this funding opportunity, "deaf" and "hard of hearing" or "DHH" are used in this document to represent the entire spectrum of children with varying hearing levels (from mild to profound) and laterality, and is intended to be inclusive of those who have other disabilities and/or conditions. [4] For the purposes of this funding opportunity, the term hearing screening refers to the process of initial screening, diagnosis, and enrollment into early intervention (EI) services.

Department of Health and Human Services - National Institutes of Health - Leveraging Big Data Science to Elucidate the Neural Mechanisms of Addiction and Substance Use Disorder (R21 - Clinical Trials Not Allowed)

Letter of Intent Due Date: 30 days prior to the application due date

Proposal Due Date: November 14, 2019

Expected Number of Awards:

Estimated Total Program Funding:

Award Ceiling:

Award Floor:

Funding Opportunity Number: RFA-DA-20-007

Purpose: The purpose of this FOA is to attract data and computational scientists to propose novel ways to integrate data of different types and scales to allow new types of analysis. It is expected that with the development and application of novel computational, bioinformatics, statistical, and analytical approaches, previously inaccessible insights will reveal new aspects of addiction biology.
